Last Night, President Harrison Speaks of the Nation's Glorious Future.

AUSTRALIA HAS NO ROOM FOR THE JEWS.

Opening, by the Prince of Wales, of the Naval Exhibition of Chelsea.

By Telegram to the News: A PEACE LOVING NATION.

President Harrison's Speech Last Night.

MAX FRANKLIN, May 2.—President Harrison in his speech at the banquet last evening said: "I believe we have come to a new epoch as a nation. There are opening portals before us, inviting us to trade and to flourish and prosper, such as we have never seen before. We will pursue the path of peace. We are not a warlike nation. All our institutions, all our history are one line of peace. Only the insidious agitators, only the agitators of the world, are stirring up war. With the casualties for war on land and sea, and the destruction to the world we are afflicted with loss of peace." He advocated more love for the defense of the flag, more good, a sufficiently large army for the preservation of the peace of this hemisphere, and a peaceful nation with which to secure our share of the commerce of the world. His address was received with much enthusiasm.

NEWS IS A RUBBISH.

The golden age of Israel is the phrase applied to the term intervening from the accession of King David to the death of Solomon.

The Federal Census of the United States taken in 1890 gives this country a population of 62,022,570. The center of population is near Greenburg, Indiana, 4 miles farther west than in 1880.

The reason Southern Illinois is called Egypt is simple. In 1855 there was a death of several hundred persons in northern Illinois, while the south of the State remained in plenty. The people were called "the land of the living dead," hence the name Egypt.

Walter K. Fletcher, an agent of the Cook & Son tourist firm in London, was killed in New York by the taking of a train from the New York Hotel of New Zealand. The man was killed by the train. The agent of Cook & Son, but he (Fletcher) contends that the only person who can claim the money is his wife, who is the New York agent of Cook & Son, and he says that Fletcher gambled the money.

It appears that Mrs. Navarro, formerly Mary Anderson, has been killed in England. It was reported that she had become a mother, that she was taken down with her husband, and that she and her husband both believed marriage a failure. Now her husband comes forward and denounces the person who circulated these vile slanders. He says Mary is happy as in good health, and that he has not lost his old trick of advertising. He can manage to keep himself and his wife before the public, though even located among the phlegmatic Britons.

The Rev. J. Nelson Lewis, a Baptist preacher, formerly of Newark, N. J., and of Madison, Mo., is charged with conducting an unbecomingly indecent and lascivious life. He is charged with the female members of his flock, with running needlessly into debt, with playing poker and betting on horse races. He stoutly denies several of the charges. Lewis is a young married man, not even 35 years old, and is a brilliant and successful preacher. While pastor of the Newark church he had very extraordinary habits. It is claimed that when he left he was in debt \$5000, having borrowed considerable money from members of his congregation. During last winter he lectured through the country with much success.

At Portsmouth, N. H., a colonial party was given on the 1st inst. on board the Old Ironsides, otherwise known as the Frigate Constitution. The old battleship, now lying at the navy yard for several years, and on this occasion was decorated as gaily as a new made bride. The talented organ was torn down long ago, but clean, new stars and stripes shrouded. Many paintings and lateral reliefs, depicting colonial days and colonial events on the ship, were included in the program decorations. One of the relics was a wooden leg of Gunner Dunn of the Constitution, one of the heroes who participated in the battle with the Invincible and lost a leg. Since the death of Dunn, the wooden leg has been in the collection of relics at this navy yard.

Not the least, the comedian, is collecting money in an unenviable way. Four days before Christmas, he had wandered through Lyons, N. Y., and had been in the city for several days, and on this occasion was decorated as gaily as a new made bride. The talented organ was torn down long ago, but clean, new stars and stripes shrouded. Many paintings and lateral reliefs, depicting colonial days and colonial events on the ship, were included in the program decorations. One of the relics was a wooden leg of Gunner Dunn of the Constitution, one of the heroes who participated in the battle with the Invincible and lost a leg. Since the death of Dunn, the wooden leg has been in the collection of relics at this navy yard.

The Advertiser, under the direction of the Fish Commission, has just completed surveys to the Pacific, the waters of which have never before been scientifically examined. It is now on her way to Hong Kong, for surveying and scientific purposes. There is a large portion of the Pacific Ocean left off the north-west coast of South America which has never been examined as to its fauna, vegetation and resources. The Advertiser, with Lieutenant Com-

mander Z. L. Tanner in command, and Professor Agassiz, the greatest living naturalist, representing the United States Fish Commission, will seek to discover what these waters contain on the surface, on the bottom and intermediate depths. Professor Agassiz found bones here identical with those of the West Indies. He infers from this that the American sea is once a part of the Pacific, and that the isthmus of Panama is a recent upheaval.

It appears that a reunion of the Fillmore family is now in progress at Buffalo, New York. On the 1st inst. four nephews of President Millard Fillmore were "happily drunk" at the 7th house. They are celebrating a sort of family reunion of the heirs of President Millard Fillmore, but the meeting means more than family re-union usually do, as it will be the means of bringing to each of the heirs a new little fortune. The Fillmore estate is worth a little over \$500,000, and it is to be divided between seven persons, three of whom reside in Indiana, five in Michigan, two in Washington and one in California. These heirs are Almond H. Deane, M. M. M. C. and H. F. Fillmore, all nephews of the dead President. Almond is the spokesman of the party and is the only one who knows about the estate. He seems to take great pride in exhibiting an elaborate watch which was once the property of the President. The final settlement of the estate will take place here tomorrow in the Surrogate's court.

In Chicago, with all its jacking houses, beef is becoming so dear that working men can not afford to purchase it for their families. In the last thirty days the advance in both wholesale and retail prices has been 25 per cent. This increase has not been shared by Chicago. It has spread throughout the whole country. Dealers assign several reasons for this unexpected advance. One cause of the advance is said to be the scarcity of cattle. Not only is there a marked scarcity of good fat cattle, but a general shortening in the supply of all grades. Cattle have risen in such a high figure that stockmen are compelled to feed their stock chiefly with grain. This is an all cents a bushel, and lower than usual, and there is no way to speak of. All this, of course, continues to make an increase in the price of what Chicago's daily consumption of cattle is about 5000 head, but of late there have been but 3000 coming in daily at the stock yards. The outlook is not encouraging. The wholesale dealers do not look for any decrease in price for some months to come.
