

## SELECTING JURORS IN THE THAW CASE

Nineteen Talesmen Examined and  
Two Are Accepted as  
Jurors.

ALL WANTED TO SERVE.

Challenges Mostly Peremptory—When  
Called to Bar, Defendant Was  
Somewhat Nervous.

New York, Jan. 23.—The long-awaited trial of Harry K. Thaw for the murder of Stanford White began here today before Justice Fitzgerald. Two jurors were selected as a result of the examination of 19 talesmen. Three successful ones were examined. Three successful ones were examined. Three successful ones were examined.

At 10:30 o'clock tomorrow morning the court will resume the work of the examination of talesmen. The examination of talesmen will resume the work of the examination of talesmen.

The examination of the first talesman was followed with the keenest interest. It was followed with the keenest interest. It was followed with the keenest interest.

On the question of insanity as an excuse for crime, Mr. Jerome explained to each talesman that the law excused only those persons who were laboring under such a defective reason as not to know the nature or the quality of the act committed or even to know the act was wrong.

The talesman said that in this, too, they would be guided solely by the common sense.

The usual percentage of talesmen who feel that their conscientious scruples against capital punishment was misapprehended. On the other hand, a talesman examined said he had formed or expressed an opinion in the case. All admitted, however, that their opinions were based on newspaper reports, and that they had been so conflicting from time to time as to make their opinions susceptible of change by actual evidence.

The talesman said that in this, too, they would be guided solely by the common sense. The talesman said that in this, too, they would be guided solely by the common sense.

Just behind the prisoner sat the several members of the family. They treated the prisoner with a smile as he strode past on the way to his seat. They bowed to them graciously.

Mrs. William Thaw, the prisoner's mother, was dressed in black and wore a heavy black veil. Her husband, who was showing in striking contrast against the sombre costume. She sat with her hand on her son, and spoke seldom to her children about her.

The Countess of Yountville, who was Miss Alice Thaw, followed her mother, who was of brown, cut with coat effect. There was a decided murmur in the courtroom as the spectators gazed at the striking resemblance between the countess and the prisoner.

Mrs. Evelyn Nesbit Thaw, around whom the storm of the great trial will rage, appeared with her sole companion, who has been her sole companion since the night of the tragedy, the artist's model wife of Stanford White's sister, Miss McKenzie. Thaw was dressed in dark blue and wore a plain dark hat, which was almost entirely covered by a white tulle veil.

Not once during the day did Mrs. Thaw remove the veil, but her features were plainly discernible, and there was about her much of the beauty which caused her to be so widely sought as a model by noted artists.

The keenest interest in every question was shown by the spectators. Her head as though to give assent to some mental conclusion she had reached. Her eyes were turned to the front and looked at the relatives.

The family party was escorted to a comfortable cab at the end of the day by a squad of policemen.

There were only four women in the courtroom, and these were newspaper writers. The attendance today was confined to newspaper people and jury talesmen.

The two jurors selected were turned over to a bailiff, who will have them in charge until the end of the trial. They are Benjamin R. Smith, a retired manufacturer of umbrellas, and Charles H. Felt, an employing teamster.

There will be two daily sessions of the trial, concluding each afternoon at 5 o'clock.

Justice Fitzgerald took his seat at 10:30 and the trial was on.

When two prominent attorneys, Drs. Charles McDonald and Austin Flint, were called into court and given seats in the clerk's hall, where they conferred with Mr. Thaw, the district attorney represented the district attorney when the Josephine Terranova trial was stopped in order that a test might be made of her sanity.

When the roll call of the jury panel was begun there were several absences, and the court imposed a fine of \$10 on each.

Dr. Mahin, a third expert, joined Drs. Flint and McDonald.

When the roll had been completed, Mr. Jerome moved that the trial proceed.

Justice Fitzgerald admonished the

## Every Heart Beat

Forces about 8 ounces of blood out of the heart, and sends it coursing through the veins to the remotest part of the body. This is the amount required by nature to nourish and sustain your body. Every ounce less than this means a shortage in nature's supply of building-up material. A weak heart cannot meet this demand, and consequently you suffer. If your heart skips a beat, or flutters, palpitates, pains you, or you have shortness of breath, you may be sure that the heart is working imperfectly.

Dr. Miles' Heart Cure will strengthen the heart muscles and nerves.

I had been a great sufferer for 15 years from a weak heart. I had been confined to my bed for four months, and frequent fainting spells, sometimes as many as three in a day, during which my heart would seem to stop beating, necessitating the calling of a physician to resuscitate me. Before finishing the first bottle of Dr. Miles' Heart Cure, I was able to walk, and I took altogether five bottles for a complete cure. I now enjoy perfect health, and am a strong, vigorous man. I feel that Dr. Miles' Heart Cure is the best medicine for a weak heart, and I will gladly recommend it to all who are suffering from a weak heart.

throng in the courtroom that absolute order be maintained.

"Harry K. Thaw to the bar," shouted the clerk. The prisoner appeared almost instantly from the jury room. He walked somewhat nervously at first, but when the court asked him to take the oath, he answered the questions put by District Attorney Jerome, who personally conducted the examination. The defense attorney challenged two talesmen, but the court overruled his objections, and the jury was sworn.

Why suffer from eczema? Cuticura instantly relieves and speedily cures when all else fails.

Every Movement Hurts.

When you have rheumatism, muscles feel stiff and sore and joints are painful. It does not pay to suffer long from this disease when it may be cured so promptly and perfectly by Hood's Kidney Pills. These pills go straight to the spot, neutralize the acidity of the blood, which causes rheumatism, and put an end to the pain and stiffness.

Biliousness is cured by Hood's Pills.

MEXICAN STABS THREE MEN AND A WOMAN.

Los Angeles, Cal., Jan. 21.—Leonardo Alonzo, a Mexican, severely stabbed three men and a woman in the downtown night at a fandango at Rivera Saturday night, and then escaped to the willow swamps along the San Gabriel river, where he was being searched for by officers. One of the injured men, it is believed, will die. Alonzo, who was unable to dance, was present with his wife and became jealous of the attention shown her by Juan Portillo. The latter and Mrs. Alonzo having repaired to another room, Alonzo followed and attacked Portillo with a butcher knife. He plunged the knife into Portillo's right breast and again into his left breast. The latter sank to the floor and Alonzo fell upon and stabbed him repeatedly. Jesus Madero intervened and was cut badly about the hands and arms. Alonzo then turned upon his wife and cut her twice severely about the body. At this juncture another Mexican grabbed the bloody knife and the blade broke off short at the hilt, the hands of the Mexican being badly cut. Alonzo fled from the house and escaped.

NEGRO LYNCHED.

Jackson, Miss., Jan. 23.—Henry Ball, a negro, was hanged at Greenwood, the home of Gov. Vardaman, last night. He had attacked Mrs. Graves of that place. The coroner's jury today declared the negro had met his death at the hands of unknown persons.

SPANISH LIBERALS AT OUTS.

Madrid, Jan. 23.—Dissension among the leaders of the Liberal groups have again broken out. Senor Canalejas, head of the new party of extreme Liberals, and former president of the chamber of deputies, accused former President Montero Rios of trying to emasculate the associations bill, and announced that he refuses any longer to support the government's policy of concessions to the vatican and the religious orders. The Epoca says it expects that the government will fall from power tomorrow and that a Conservative cabinet will be formed.

ARCTIC WEATHER IN EUROPE.

London, Jan. 23.—Arctic weather conditions continue to prevail over the whole of Europe, while curiously enough the actual Arctic regions, northern Norway and Iceland, report the prevalence of mild and rainy weather. All the vessels reaching British ports are covered with long icicles and have snow on their decks. Telegrams received from all parts of the continent give almost incredible reports of the extreme rigor of the weather and consequent suffering.

Many deaths are reported in Austria from the severity of the weather. At the posts as a result of the cold. The heavy snow continues in Russia and Turkey, and the Danube is frozen over in several places in Roumania.

Slight earthquakes are reported from Batoum. The blizzard continues at Constantinople, where the snow is said to be several feet deep. Navigation on the Bosphorus and the Black sea has been practically suspended.

W. T. MARTIN CONVICTED.

Muskogee, I. T., Jan. 23.—William T. Martin, Jr., formerly an employee of the Dawes Indian commission, was convicted today of unlawfully receiving from the government office here the Creek Indian rolls, which later were copied and sold to real estate men.

## SHORTS QUILTS THE CANAL COMMISSION

Has Been Elected President of  
The Interborough-Metropolitan  
Canal Company.

RESIGNATION NO SURPRISE.

President Accepts It With Reluctance,  
Praises His Work and Wishes  
Him Success.

Washington, Jan. 23.—The resignation of Theodore P. Shonts as chairman of the isthmian canal commission was announced at the White House today. It will take effect not later than March 4. Mr. Shonts, having been elected today as president of the Interborough-Metropolitan canal company, which controls the rapid transit and many surface lines in New York.

No announcement was made as to who will succeed Mr. Shonts as chairman of the commission, but it was learned authoritatively that headquarters will be removed from Washington to the isthmian city. A high-salaried chairman to serve in that capacity alone will not be named. This being admitted, it follows that John P. Stevens, the chief engineer in charge of the construction of the canal, would not be made subordinate to another official on the isthmus. It is regarded as a certainty that Mr. Stevens will be named as chairman of the commission in connection with his post as chief engineer.

Mr. Shonts' resignation does not come wholly as a surprise. He has been rumored to be resigning for some time. His resignation was announced in the isthmian canal commission, effective at your pleasure, but not later than March 4, 1907.

SHONTS RESIGNS.

"My Dear Mr. President: I hereby tender my resignation as chairman of the isthmian canal commission, effective at your pleasure, but not later than March 4, 1907.

PRESIDENT ACCEPTS.

"My Dear Mr. Shonts: I accept your resignation as chairman of the isthmian canal commission, effective March 4, with extreme reluctance. I do so merely because I do not feel justified in preventing your acceptance of the position you have been asked to take in New York. A position of such great consequence, not merely to the people with whom you will be associated, but to the government of the enterprise, but to all citizens of New York. You have shown throughout your association with the isthmian canal, the highest energy, administrative capacity, fertility of resource and judgment in handling men, together with such entire devotion to your work, that I hardly know whether most to regret your departure from the national government is to lose you or most to congratulate those who are to profit by your services in your new position.

"With all good wishes for your future, and with the heartiest thanks on behalf of the government for what you have done in the last 18 months in the vital responsibility which you have held, believe me, ever sincerely yours.

"THEODORE ROOSEVELT."

Secy. Taft tonight called attention to the fact that the work of organizing the commission had been completed, and that as Mr. Shonts had been brought here to the place of executive duties necessary to such organization, his continued presence is not absolutely essential. The Ryan-Belmont syndicate, which has not cured Mr. Shonts' services, sought them some time ago. Before doing so, however, Paul Morton, formerly secretary of the navy, called on President Roosevelt and acquainted him with the intentions of the Interborough-Metropolitan. It is said the thought of losing Mr. Shonts' services, but agreed not to stand in the way of his resignation.

Mr. Shonts' resignation was accepted by the president. Mr. Shonts' resignation was accepted by the president. Mr. Shonts' resignation was accepted by the president.

today in Washington, has been elected president of the Interborough-Metropolitan company of this city. August Belmont, who has headed the big company since its organization, will remain as chairman of the various boards of directors in the combine.

The company gave out a statement today saying Mr. Shonts had been offered the place only after the west coast had agreed to release him from the canal commission.

Mr. Belmont is responsible for Mr. Shonts' appointment, according to the statement, feeling that the position was one requiring a man's undivided attention.

Mr. Shonts will for the present give such attention to the traction contract as his time will permit, and on March 4 will assume full charge, that being the date of his release by President Roosevelt.

SINGLE TRACK NORTHERN PACIFIC'S CHIEF DEFENSE.

Seattle, Jan. 23.—That the Northern Pacific railroad had reached the limit of its capacity as a single-track railroad was the principal defense put forward today by the railroad against a suggestion that exists on the Sound by C. M. Levey, third vice president of the road, and B. E. Palmer, assistant general manager, to build a second track before Interstate Commission Lane today.

Mr. Levey said that the road had contracted for improvements which were either under way or soon would be, and additional equipment which would mean an expenditure by the Northern Pacific of \$7,000,000 in the next year or so.

B. E. Palmer made a statement that only 22 percent of the most traffic of the Northern Pacific went east of Spokane and that the installation of double track on the west end of the road would do much to relieve the situation.

The completion of the Portland and Seattle will give the Northern Pacific two tracks from Spokane to the mouth of the Columbia.

Probably the most important feature of the evidence of B. E. Palmer was his statement, made late in his examination, that the troubles of the Northern Pacific road do not lie in the part of the company to spend money on new track construction and equipment, but in the dearth of labor, skilled and unskilled.

"When the Portland and Seattle is finished," said Mr. Palmer, "the traffic originating at Tacoma and south of that point, will be routed over the Sound back road to the west. We have one thousand loads there today that we cannot handle over the mountains, because of physical conditions, which would be greatly relieved if the road now building on the north bank of the Columbia river were constructed."

"The rapidity of the construction of the North Bank road and of sidetracks and spurs, and the fact that the road is not dependent on money. There is plenty of money but a scarcity of labor and the progress made by the track would be measured entirely by the labor supply."

Mr. Palmer testified that the charge made yesterday by Charles Patton of the Reliance Lumber company, that the road was forced to pay from \$1 to \$10 to trainmen on the Northern Pacific for empty cars was untrue to the best of his knowledge and belief.

Mr. Palmer said that the road was not forced to pay for empty cars, but that the charge was made by Charles Patton of the Reliance Lumber company, that the road was forced to pay from \$1 to \$10 to trainmen on the Northern Pacific for empty cars was untrue to the best of his knowledge and belief.

Mr. Palmer said that the road was not forced to pay for empty cars, but that the charge was made by Charles Patton of the Reliance Lumber company, that the road was forced to pay from \$1 to \$10 to trainmen on the Northern Pacific for empty cars was untrue to the best of his knowledge and belief.

## THE FARMER'S WIFE

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

To aid in healing old sores, or ulcers, apply Dr. Pierce's All-Healing Salve to them while taking the "Golden Medical Discovery" to purify and enrich the blood.

Dr. Pierce's All-Healing Salve is cleansing and pain relieving. It destroys the bad odors arising from suppurating, or running, sores and puts them in the best possible condition for healing.

The "All-Healing Salve" is a superior dressing for all open, running, or suppurating sores or ulcers. For healing open wounds, cuts and scratches it is unsurpassed.

If your medicine dealer does not have the "All-Healing Salve" in stock mail 50 cents in postage stamps to Dr. R. V. Pierce, Buffalo, N. Y., and you will receive it by return post.

In treating all open sores, or ulcers, boils, carbuncles and other swellings, it is important that Dr. Pierce's Golden Medical Discovery be taken persistently to purify the blood and thereby remove the cause of the trouble. It is in the blood that the great battle of health has to be fought. The ulcer and the sore are simply the scarlet flowers of disease, with roots running down into the blood.

These roots must be eradicated or the disease will break out afresh. "Golden Medical Discovery" cleanses the blood of all foul and poisonous accumulations, pushes out the dead and waste matter, and thus purifies the entire life current. Disease in the flesh must die out when it is no longer fed by foul blood.

"Golden Medical Discovery" effectively cures disease in the flesh by curing its cause in the blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing distress in the stomach, constipated bowels, sour or bitter rising after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid, or lazy liver with the usual accompanying indigestion, or dyspepsia and its attendant annoyances.

The best agents known to medical science for the cure of the above symptoms and conditions, as attested by the writings of leading teachers and practitioners of all the schools of medical practice, have been skillfully and harmoniously combined in Dr. Pierce's

"Golden Medical Discovery." It is a powerful purgative, and its use is essential in the treatment of the above symptoms and conditions. It is a powerful purgative, and its use is essential in the treatment of the above symptoms and conditions.
