

LOCAL AND OTHER MATTERS.

FROM FRIDAY'S DAILY, AUG. 28.

The President's Party.—President John Taylor and party, who left here Wednesday afternoon on a preaching tour through the Utah Stake of Zion, held a meeting immediately after arriving in Lehi, at which the speakers were Presidents Taylor, Woodruff and Cannon. They then drove to Alpine and held a meeting at 10 a. m. yesterday morning, when Presidents Taylor, Cannon and Woodruff addressed the congregation. The party then proceeded to American Fork to hold a meeting at 4 p. m. All well.

Legs Crushed.—On Wednesday afternoon a son of Mr. Richardson, of Plain City, Weber County, met with a very serious accident. The lad is about 9 or 10 years old, and in some manner was thrown down so that the driving wheel of a reaping machine passed over both legs. This wheel is very heavy and has a face surface of four or five inches in width. In passing over, both legs were crushed from a point just above the ankle and extending down to and taking in part of the foot. Going over diagonally, the wounds on one leg are higher than on the other. The ground beneath was very firm, and the crushed parts were very severely injured. They at once telephoned to parties in Ogden to send Dr. A. S. Condon down as quickly as possible, with his instruments to amputate the legs. The doctor was on the road within an hour after the accident occurred. He found the boy in a frightful condition, but did not amputate the limbs, as he is in hopes of saving them. So says the Pilot.

Special Fruit Prizes.—In addition to the fruit premiums to be awarded by the managers of the coming Territorial Fair, Mr. S. P. Teasdel, the popular merchant, offers a special prize of \$100 for best display of dried fruits, and \$25 for best display of canned and bottled fruits. His note to the officers of the D. A. & M. Society will explain in full:

Board of Directors D. A. & M. Society:

Gentlemen:—The undersigned, desiring to encourage the fruit growers of Utah to put their dried fruits on the market in the best possible condition, offers to pay as below:

50cts. per lb. for the best 25 lbs. dried apricots.....	\$12 50
50cts. per lb. for the best 25 lbs. dried pealed peaches.....	12 50
50cts. per lb. for the best 25 lbs. dried green gage plums.....	12 50
50cts. per lb. for the best 25 lbs. dried blue plums...	12 50
50cts. per lb. for the best 25 lbs. dried ground cherries.....	12 50
50cts. per lb. for the best 50 lbs. dried, unpealed peaches.....	25 00
25cts. per lb. for the best 50 lbs. dried apples.....	12 50

Total..... \$100 00
Fruits to be exhibited at the coming Territorial Fair.

And will pay a premium of \$25 for the best display of preserved and fresh fruits in cans and bottles, age and quality being considered in awarding the above premium.

The decisions of above to be left to the fair committee on fruits.

S. P. TEASDEL.

Mr. Teasdel's design is to get possession of some of the finest samples of Utah's orchard products, and keep them here on exhibition for the benefit of tourists and the general public. His idea is a good one, and his generous offer will be duly appreciated by all.

More Special Prizes.—Hon. Wm. Jennings offers a special premium of \$100, to be awarded at the Territorial Fair, for the best exhibition of superior short-horned Durham stock, as follows:

\$25 for the best bull of any age.
\$25 " " 1 year-old bull.
\$25 " " cow of any age.
\$25 " " heifer, 1 year old.

In addition to this, and in order that the public at large may have the full benefit of this premium, and that it may draw the fullest possible exhibition of the stock named, Mr. Jennings has decided to bar his own stock from competing for this premium.

G. W. Davis, the enterprising grocer, offers \$25.00 for the best 25 gallons of pure apple cider vinegar made by a private family.

Messrs. Lucas & Meakin, the popular green grocers offer \$10.00 for the best and largest display of fruits and vegetables.

Messrs. J. C. Cutler, Daynes & Coulter, J. P. Freeze, L. Young & Bro., Solomon & Gold, Henry Arnold, Day & Co., J. Dwyer, Aurbach Bro., George Careless and others, will consider the matter of special premiums and report soon.

Utah Iron Manufacturing Company.—Following are the articles of incorporation of a company organized yesterday under the above title:

Articles of Agreement and Incorporation of the Utah Iron Manufacturing Company:

We, the undersigned, residents of the Territory of Utah, being desirous of associating ourselves together for the purpose of establishing and conducting the business hereinafter specified, and to incorporate for that purpose, do hereby mutually enter into and adopt the following articles of agreement, that is to say:

ARTICLE 1.—The name of this association shall be the Utah Iron Manufacturing Company. Its principle place of business shall be at Salt Lake City, Utah Territory, and the time of its duration shall be 50 years next succeeding the first day of June, A.D. 1881.

ART. 2.—The pursuit or business of this association shall be that of mining and production of coal and manufacturing of coke; also mining and production of iron ores and the manufacture of iron in all its branches, qualities and departments.

ART. 3.—The amount of the capital stock of the association shall be fifty thousand dollars, and shall be divided into shares each of the par value of one hundred dollars, and the limit of the capital stock of said association shall be one million dollars.

ART. 4.—[This article contains the names of the subscribers and the amounts subscribed.]

ART. 5.—There shall be nine officers of this association, namely: a president, vice-president and five directors, who, together, shall constitute the board of directors of said association, and shall be annually elected by the stockholders of the association, at a regular meeting thereof, to be held on the fourth Thursday in August of each year; also a secretary and treasurer to be annually appointed by the board of directors, at the first regular meeting of such board after the election as aforesaid.

ART. 6.—No person shall be eligible to election or appointment as an officer of this association unless he is a stockholder thereof. The term of office of each officer of the association shall be one year and until his successor is elected or appointed and qualified.

ART. 7.—Any officer appointed by the board of directors may be removed from his office for cause by a two-thirds vote of said board, and any elective officer of the association may, for cause, by a like vote of the board of directors, be suspended from office until the next regular or called meeting of the stockholders of the association. And the board of directors shall have power to fill a vacancy occurring in any office until the time of regular election. Any officer of this association may resign by giving thirty days' notice in writing to the board of directors.

ART. 8.—Stockholders of the association, by a two-thirds vote at any regular or called meeting, may remove any officer thereof for cause after reasonable notice thereof.

ART. 9.—The board of directors shall have the control, management and supervision of all the business and affairs pertaining to the association, to establish by-laws and all other proper rules and regulations for the good government and welfare of the same, to provide for the appointment of such subordinate officers and agents and employees as may be necessary, and to prescribe the duties and powers of all officers, agents or employees of the association.

ART. 10.—The private property of the stockholders of the association shall not be liable for the obligations thereof.

The officers of the organization are as follows: President, Wm. Jennings, Vice President, Amos Howe; Directors, John Sharp, F. Little, John Taylor, W. H. Hooper and H. S. Eldredge; who are elected for one year. John R. Winder was chosen Secretary and L. S. Hills Treasurer.

FROM SATURDAY'S DAILY, AUG. 27.

Priesthood Meeting.—The regular meeting of the Priesthood of this Stake will be held on Saturday, September 3d, 1881, at 11 a. m., in the Salt Lake Assembly Hall.

WM. W. TAYLOR,
Stake Clerk.

Deseret Museum.—The Curator returns thanks for specimens of rocks from the Mammoth Cave, Kentucky, presented by Lieut. Willard Young; also specimens of sands from the shores of the Great Salt Lake, presented by Mrs. F. A. Pascoe. There are several varieties of sand, all of which are oolitic, or egg-shaped, in structure. Mixed with these curious sands are the remains of insects and the eggs of the Artemia that exist in the lake in immense quantities in the summer season, as may be seen by visitors in places where myriads of them move about like tiny shrimps.

The Late President Wilhelmsen.—Elder Peter O. Hansen writes from Copenhagen, Denmark, on the 2nd inst., concerning the death of President Wilhelmsen, which has been noticed in this paper before. It appears that for some time the deceased had suffered, by spells, from gravel, but until his last hour upon earth, seemed to have no idea that he was going to die. He left the Scandinavian Mission, over which he presided, in a sound and prosperous condition, and set an example of prudence, faithfulness, meekness and brotherly love to his associates. His fatherly care left nothing undone that would promote the welfare of the Saints under his charge, and he died deeply regretted by all. It was his second mission to his native land, as a messenger of salvation.

Railroading—Drunken Indians.—Bishop Abraham Kimball, of Kanosh, Millard County, came up to the city yesterday morning, and returned as far as Lehi this afternoon. He left home last Tuesday with about 40 men and teams and the expectation of getting work on the Union Pacific railroad extension west of Lehi. He was disappointed in his hopes, however, as he found the supply of laborers much greater than the demand, and he thinks that in all probability, he will be obliged to return south. His advice to all would-be railroaders now at home, is to stay there, instead of subjecting themselves to fruitless trouble and expense by going upon the road with the expectation of securing remunerative labor. Full 600 men are camped along the line of the U. P. extension, and only about half of them are regularly employed. The work has been let out in contracts and sub-contracts again and again, until there is little if any money to be made, and the more men that come for work the more unpromising matters will be made.

Bishop Kimball says the Indians in the neighborhood of his settlement are fast being demoralized through the use of intoxicants furnished them by certain evil disposed individuals, devoid of respect for law and order and Christian principle. One man, who sells a kind of cider which is as evil in its results as whisky, is an apostate who persists in furnishing it to the Indians out of spite to the Word authorities. "Mormons" could be handled on their fellowship, and forced to discontinue such an offense, but that character, having severed his connection with the Church, imagines himself free to do anything he pleases, despite of law, order or anything else in creation. There are

about 80 of the Lamanites, all of whom, were it not for the crying evil referred to, would be good and useful inhabitants. They possess an ample farm and have raised about 400 bushels of wheat this year, but they will persist, contrary to advice and admonition, in selling their grain, and buying intoxicating beverages. The aged Kanosh and his subordinate chief have about lost control of their people, in this respect, and state that they cannot prevent them from giving way to drunkenness while there are persons depraved and wicked enough to put the means of debasement into their hands. The Indian camp borders on three settlements; they get cider from all three places, and after drinking their fill, get to swearing and fighting like demons. Two of them, no longer ago than last Monday, got drunk and had a bloody fist-fight, in which both were badly battered up. We have heard of some of these things and written them up before, and we say again that those unprincipled persons who willfully violate the law in thus giving intoxicating drink to the ignorant and irresponsible savage, and thus endanger the lives of their fellow-beings should be visited with the heaviest penalties of outraged justice provided in such cases. Let the guilty be punished, be they "Mormons," "Gentiles" or apostates.

President.
JOHN D. T. MCALLISTER,
Assistant.

Board of Equalization.—The Mayor and City Council met at 2 p. m. to-day, according to announcement, to sit as a board of equalization, to hear and determine complaints made concerning the City assessment roll for 1881; also to consider the propriety of remitting taxes of the infirm, indigent, insane and idiotic. Quite a number of applications were filed, and other claims were made in person. The roll of Bishops' Wards was called, and cases were disposed of as they came up; the first business called being the equalization of taxes and the correction of errors in the assessment roll. The Board was still in session as we went to press.

Accidents.—A young man named Pack was brought to this city this morning, having been badly squeezed while coupling cars on the C. P. R. R., at Terrace. He is reported to be seriously if not fatally hurt.

Another injured man was brought in from the Park on the same train. He had received injuries which will probably prove fatal, while employed at the hoisting works of the Bonanza Mine. He was tending the cage, and had run a loaded car out of the tunnel to the shaft, and was leaning over the cage when it started and he was struck across the front of the body. We have not heard whether either of the men have died since their arrival, nor could we ascertain their names.

Great Grain Yield.—The Ogden Herald states that the result of "dry farming" on the Sand Ridge, between Ogden and Kaysville, exceeds all expectation. Several farmers have one or two hundred bushels of wheat more than they expected, besides others obtaining a great deal more. Mr. Hyrum Layton expected to get about 1,500 bushels, and harvested over 2,000, and Hon. W. R. Smith is said to have stated, a few days ago, that he had so much grain he scarcely knew what to do with it, having actually realized 1,000 bushels more than he anticipated, and was therefore not prepared for it. The crops are unusually heavy in all parts of the county, but on the Sand Ridge is where expectations have been specially exceeded. The unusual quantity of rain has been a great help to the "dry farming" business this season.

The President's Tour.—The Utah Stake Conference closed last evening. After the services, the First Presidency and party drove over to Springville, and held meetings there last evening and at 10 a. m. to-day. Following is the programme of meetings to be held during the remainder of the tour:

Monday, (9th) 4 p. m. Spanish Fork
Tuesday, 10 a. m., - - - Salem
Tuesday, 4 p. m., - - - Payson
Wednesday, 1 p. m., - - - Santaquin
Thursday, 10 a. m., - - - Goshen
On Thursday, the party will return to Payson, and on Friday will come home. The meetings, so far, have been of a very enjoyable character.

President Joseph F. Smith, who went to Provo on Saturday, journeyed on with the others to Springville. Elder L. John Nuttall, to whom we are indebted for the above, came back to Salt Lake this morning.

Bruin as an Abductor.—The Logan Leader of Friday recounts an interesting adventure which befel a young man named Bert Harris, son of Bishop Harris, of Benson, while camped near Tabernacle Bridge, Logan Cañon, on the night of the 18th inst. He had made his bed of quilts upon the ground, and had lain down to enjoy what he supposed would be a beautiful night's rest. About midnight, when he was sound asleep, he was awakened, to find that he was being carried off, bedding included, by a large grizzly bear. After being taken about a rod and a half in this position, he managed to wriggle himself out from among the bedding and crawl away. The bear, whoever, thinking he still had him in his possession, carried the clothes quite a distance, but on laying them down found that he was mistaken, and set up a hideous howl. The bear caught Bert with his tusks in the left hip, and he still suffers somewhat from the bite.

When he returned to his wagon in the morning he found that the bear had been there and stolen a sack containing his provisions. Thus he was left without his food, but his escape amply compensated for its loss, and he felt satisfied he had got off so cheap.

Good Works.—From time to time we have had occasion to speak of the great good to be accomplished by the Saints in Zion, in writing letters or sending copies of the News and other Church publications to the various fields of labor wherein our missionaries are called upon to operate, thereby assisting in the promulgation of the work of the Lord, and in so doing laying up for themselves treasures of inestimable value. We are pleased to learn that some have taken our advice, and are engaged in the commendable duties referred to. Brother Charles Leah, of Spanish Fork, an aged veteran who is past service in travelling and preaching, for several years has subscribed for copies of the News and ordered them sent out into the world where they would do the most good. And now he comes to the front again, and requests a copy of the Weekly to be sent to the British Mission and another to the Australian Mission. His example is worthy of emulation. Brother Leah shows his faith by his works. He has not forgotten the exhortation that every soul warned is expected to warn his neighbor, nor the commandment which says that whithersoever he cannot go in person, the preacher shall send the glad message of salvation. His works are those of righteousness, and he will in no wise lose his reward.
