The unfortunate young man had previously unloaded his gun in the presence of the two Baker boys, John, the oldest of the two, stepped outside of the tent and upon returning, seeing the revolver lying in the same place, picked it up and pointing the gun at the boy who snapped the trigger with the result that the bullet pierced the right side and lodged in the heart, killing the young Groneman instantly. You don't really know what's good until you use Ghirardelli's Ground Chocolate

Professor von Liebig says: "Good chocolate preserves health and prolongs life." Coffee is dangerous and wishy-washy substitutes unsatisfying. Ghirardelli's Ground Chocolate—the original and genuine ground chocolate—is prepared by the exclusive Ghirardelli process which effects a perfect blending of chocolate and sugar, and results in a distinctive and most delicious flavor. It is superior in every respect to the out-of-date cake chocolate and may be prepared instantly by the mere addition of boiling milk. A cup of Ghirardelli's Ground Chocolate at breakfast is delicious, stimulating, strengthening and sustaining. Ghirardelli's Ground Chocolate also takes the place of cake chocolate for all culinary uses. It is always ready, makes lighter cakes and puddings, and imparts a most delicious flavor to them.

## REVOLT AGAINST BIG ASSESSMENT

It is Levied to Support the Strike of the Miners at Goldfield

## NO FURTHER CONTRIBUTIONS.

Trades Allied With Western Federation Through Industrial Workers

Goldfield, Nev., Jan. 7.—Members of the Mine Operators' association have been given authority to pay a maximum wage of \$6 a day to both carpenters and electricians for certain kinds of work, as a result of extended conferences with committees representing the Building Trades and American Federation of Labor.

The wage scale adopted by the association is \$5 for carpenters and electricians at the mines.

The reason assigned for the increase is that certain work requires men possessed of greater skill than the ordinary work of these craftsmen around the mines.

The answer on the part of miners' union No. 220 to the complaint recently filed in the federal court at Carson City by the Consolidated Mines company, asking that the local organization of miners be enjoined from holding meetings, from boycotting and picketing, has been practically completed. The document is a voluminous one and bears answer to all of the sensational allegations made in the original paper. It will be taken to Carson next Thursday by the attorney who will represent the local union at the hearing of the matter, to take place before Judge Farrington.

The answer will be supported by various affidavits made by members of the local union and others.

The barkeepers and other trades allied with the Western Federation through the Industrial Workers of the World are in open revolt today against the heavy assessment levied to support the miners' strike. They have been paying upward of \$5,000 per week assessment and refuse to contribute further.

## JUDGE WALLACE RESTRAINED.

The actors are now scattered throughout the United States and some are in Europe.

## WILL DEVOTE HIS LIFE TO CARE OF LEPROS.

New York, Jan. 8.—Determined to devote his life to the care of the lepers in the colony of Molokai, Hawaiian Islands, Vincent Maslin arrived in New York yesterday from Antwerp. He is only 21 years old, and will spend a year in the college at Fairhaven, Conn., before he will be ordained a priest in the Roman Catholic church. Mr. Maslin is a graduate of the University of Louvain in Belgium and decided to devote his life to the lepers after reading of the life of Father Damien, the priest who sacrificed his life on the barren island from

which no one returns. Mr. Maslin, who is an athlete, ruddy faced, jolly young man, says he expects sooner or later to succumb to the disease, but trusts he will be spared long enough to do some good for the prisoners on the leper island.

## ANARCHISTS THREATEN NEW YORK LANDLORDS.

New York, Jan. 7.—Threats that their buildings would be burned if they evicted their tenants flooded East Side landlords today. The warnings were supposed to come from the rent strikers, and, in general, were on postal cards, worded as follows:

"We will move, but after your house has been vacated the fire department will visit you."

"THE RED FLAG."

Point was given to the threat by a fire today at a Madison street tenement, where the demands of the occupants for lowering the rent were refused.

Applicants for dispossession papers have been so heavy that several of the courts today were forced to refuse to consider any more until Thursday.

Many of the strikers are delaying evictions by keeping the courts in arrears. When the marshals arrive they are compelled to wait until the stove cool before they can put them in the street with the other furniture.

## ROME TRIBUNA ON SAILING OF THE FLEET

Rome, Jan. 7.—The Tribuna, in an article on the crisis of the American fleet sailing to the Pacific, expresses the opinion that President Roosevelt was perhaps mistaken in ordering it "in view of the discussion it has aroused in the United States."

The paper quotes Baron Takahashi, Japanese minister to Italy, as saying:

"The Japanese government loyally maintains its promise to do everything possible to diminish emigration to America, as we have no need to send off our surplus population."

Japanese emigration, much the same as Italian emigration, has been the result of special conditions in certain regions, and it has been augmented by the desire to seek better opportunities and to escape poverty, and in addition, intended emigrants have been able to succeed by the agents of navigation companies.

"Although I am lacking official news, I know that the relations between Japan and the United States are excellent. The dispatch of the fleet to the Pacific cannot more than merely interest us, San Francisco being thousands of miles from Japan."

The Tribuna also publishes an interview with Lloy C. Green, American ambassador to Italy, who attributes the argumentation of the Japanese in California to its enormous development.

## ALDRICH CURRENCY BILL.

Washington, Jan. 7.—Senator Aldrich today introduced his currency bill, which has been a subject for discussion among the members of the committee on finance for some days. He had the bill read to the senate and announced that he would move it forward to the senate in connection with it all bills that Senator Smith desired to introduce.

He assured Senator Culberson that his resolution would receive attention
