THE High Council will meet in the Social Hall at 7 o'clock this evening.

MILTON NOBLES and company in "Love and Law" at the Theatre tonight.

REMEMBER Mr. Price's locture, at 7.30 to-morrow evening, at the 17th Ward School-house. Subject-"The Elements of True Manliness."

LOCAL NEWS.

"Love and Law."-This evening Milton Nobles, the favorite actor, supported by a company of his own selection, will produce at the Salt Lake Theatre his new play entitled: "Love and Law." Of its merits none can doubt, who are familiar with preceding works of this talented actor and author's gifted pen. The old favorites, "Phœnix" and "Man of the People," are also billed for production during the week, and another bran new piece called "Interviews" will be given tomorrow night. Mr. Nobles will be greeted by full houses during his engagement.

From Scandinavia.-This afternoon we had the pleasure of a call from Elder C. A. Ek, of Logan, who returned yesterday in charge of a company of eighty-four immigrants and nine returning missionaries, from Scandinavia. The party had a pleasant and prosperous journey throughout.

Elder Ek left here on the 16th of October, 1882, and labored in the Stockholm, (Sweden) Conference, being, during the last nineteen months of his stay in that part of the world, president of that field. A good work was done there during his sojourn. He was present at 417 baptisms, in 62 of which he officiated personally. During his ministry in the field to which he was assigned, 1,568 meetings were held among strangers, and a large number of books and pamphlets circulated among the people. The Saints of Stockholm rent a hall with a seating capacity of 200, and the meetings are generally well- attended. There is little or no opposition, and the work is prospering, with bright prospects ahead.

Sunday School Review .- The seventh annual review of the 21st Ward Sunday school was held in the ward meeting house on Sunday last. The exercises were somewhat lengthy, occupying both morning and evening, the heroes and heroines of those days, and consisting of class exercises, reci- the lecturer merged his treatise into tations, songs, dialogues, singing by Utah at the Sunday school and short addresses

though but a very brief notice of it had been given, drew out an audience, se-lect, appreciative, and considering all things, of very fair dimensions. It was not by any means what the lec-ture deserved, nor what it would have

received had it been advertised earlier and more widely, but it was a nice compliment to the speaker, neverthe less, that at two days notice and on the very eve of a series of brilliant dram atic attractions, so many as were present came out to hear him.

There were seated upon the stage, besides the lecturer, President Wilford Woodruff, Presidents Angus M. Cannon and Chas.W. Penrose. Elder Sloan

He introduced his lecture on "Utah, Past, Present and Future." by a geographical description, physical and political, of this "Switzerland of America," whose climate, soil, resources, sanitary conditions, etc., gave assurance of wealth, health and happiness for all its inhabitants, present and prospective. He then turned

which Providence for a wise purpose had planted their weary feet. He paid a handsome tribute to the brave men and noble women who endured so much that the youth of to-day might reap the benefits flowing from the hardihood, self-sscrifice, uprightness, industry and virtue of their fathers and mothers. He compared the pioneer with the warrior conqueror, the unselfishness of one to the selfishness of the other, and the results accruing from their respective careers and rachievements, and declared the pioneer to be the true hero in all that the name implies. He sketched some of the trials endured by the early settlers, notably from crickets, grasshoppers and Indians, and drew a very beautiful and highly dramatic picture of the cricket raid of 1848 and the providential rescue of the disheartened settlers by the gulls: [This incident is too well known to need more than a

THE ABORTION CASE.

The Police Court this morning was the magnetic cynosure for that ele-ment of the street which finds one of its chief amusements and occupations in drinking in the details, often disgusting-but to them all the better for that-involved in the trials and examinations which come under the jurisdiction of such tribunals. The preliminary investigation in the Irons-Fowler-Evans abortion case is no exception in point of attraction to such,

and the court-room was crowded in anticipation of its being proceeded with. In this, however, the audience were doomed to disappointment, in a measure, as will appear.

At the hour set for the examination, halt-past 10 o'clock, Judge Spiers was in his place, and within the rall were Messrs Irons and Fowler, the accused parties; Judge Snow, County Prosecuting Attorney Waddell, his assistant Mr. Fletcher, and Mr. C. S. Varian, Assistant U. S. Attorney, all of whom represent the prosecution; also Messrs. Bennett, Hurkness and Kirk-patrick, representing Dr. Fowler, and

Mr. Denney, who represents Mr. Irons. There was also present Mr. Kimball, of Ogden, who consulted with the

others and may or may not be numbered among the counsel for the defense. The following witnesses were rendering fertile the sterile waste upon also in attendance: Dr. Carnahan (Ogden), Mrs. Evans, Mr. and Mrs. Milando Pratt, Brigham Jones, Professor Andrews, Mrs. Neilson (the midwife), Dr. J.S. Richards, Dr. Hamflton and Dr. Bowers.

After consulting some moments together, there was a movement among the attorneys and Judge Snow, addressing the Court, announced that the defense desired a continuance for one week. As a basis for this, a Doctor's certificate to the effect that Mrs. John W. Irons, nee Miss Lizzie Evans, the prosecuting witness, was in too delicate a state of health to appear, was presented.

At this point Mr. W. H. Dickson United States Attorney, who is acting as an assistant in the prosecution, entered the Court, and on learning what had been proposed, objected to the continuance, letting deylight through the proposition to that end by stating that the sickness of a prosecuting witness was no ground for the defense in moving for a postponement. The prosecution, he said

In the morning the following presentations were made by hand of Assistant Superintendent Aveson, who conducted the exercises in the absence of Superintendent W. D. Owen: To Brother Thomas McIntyre. leader of the musical exercises, a handsomely framed engraving of the "Three Witnesses;" to his son Joseph as organist a set of Samuel Smilles' works. and to Brother James Maxwell a tastefully bound copy of the "Compendium."

The programme was carefully rendered , throughout, and greflects great credit on all concerned. The attendance was very large in the evening and included a number of visitors from other wards.

SUPREME COURT. THE CURRENT SESSION.

At yesterday's session of the Supreme Court of Utah, the following business was transacted. Judge Emer-

son was not present, owing to sickness, but Chief Justice Zane and Associate Justice Twiss proved a full team or as nearly so as la.gas as under the circumstances:

In the case of Provo City, respondent, vs. George Shurtliff, appellant, on appeal from the First District, it was ordered and adjudged that the judgment of this court heretofore entered, be and is hereby reversed and vacated, and that the judgment of the District Court in said cause be and is hereby affirmed, and further, that respongent have and recover of and from appellant his costs.

He compared Utah to Egypt, in the days when the famine stricken inhabitants of Cansan appealed to her for succor in the time of Joseph, and could forsee a repetition of history in the world's yet coming to Utah to partake of her blessings and develop her wondrous resources.
