

DYSENTERY IS CONTAGIOUS.

New York, Oct. 1.—The second annual report of the Rockefeller Institute for medical research, just issued, deals largely with the bacteriological investigation of children affected with different forms of diarrhoea.

The report declares that dysentery is contagious and that the use of anti-dysentery is not proved a success. Nearly half of the children treated with the serum died and in only a few cases did a noteworthy improvement follow its administration. The investigators, however, have not yet given up, and the experiments will be continued. The Rockefeller Institute was founded by John D. Rockefeller in June, 1901, with an initial gift of \$200,000, all of which was to be expended in research, which was to be connected with the study of the experts connected with the institute have devoted themselves largely to children's diseases. The scope

Moneyback makes it downhill to your grocer's all round; downhill downhill downhill downhill.

Your grocer returns your money if you don't like Whilling's Best.

and facilities of the institute will soon be increased by the erection of a laboratory which will cost \$300,000.

Twelve bacteriologists had charge of the investigations of dysentery in children and the work was divided among laboratories in New York, Philadelphia, Boston and Baltimore. Many hospitals and dispensaries in these cities co-operated and furnished material for studies.

Bold Robbery in France.

Paris, Sept. 30.—A bold robbery has been committed on a mail car, between Paris and Havre, containing a quantity of American mail. The train, which left here at midnight, contained a mail car which was entirely given up to mail

for the United States. There were about 100 mail pouches on the car, which was sealed and heavily locked. On arriving at Rouen this morning it was found that the American mail car had been broken open and that the pouches were in great disorder. Ninety-nine bags had been opened and their contents rifled of such valuables as they may have contained. There is no record of their contents or of the valuables abstracted.

Havre, Sept. 30.—The mail car was robbed between Havre and Paris last evening and contained 98 bags, of which seven were filled with printed matter for Rouen and the remainder contained letters for America. The thieves opened seven of the Rouen bags and five of those for America. The latter were from Madrid for Mexico. It is improbable that the thieves identified the bags containing registered letters, but this has not yet been ascertained.

Fifty Lumber Cargoes Sent.

Astoria, Or., Oct. 1.—Fifty lumber cargoes were sent from the Columbia river during the month ended Sept. 30. This does not include 10,000,000 feet contained in a log raft towed to San Francisco by the Steamer Leggett. The total shipments exclusive of the log raft for the month, domestic and foreign, were 11,443,431 feet.

COLOMBIA HAS HERSELF TO BLAME

New York, Oct. 1.—Copies have just been received here of the report to his government of Gen. Rafael Reyes (now president of Colombia) who was sent to this country on a special diplomatic mission in an attempt to modify the action of the American government in regard to Colombia interests in Panama. The mission was without result.

The report, which is of considerable length, severely arraigns the short sightedness of the Colombian representatives that led to the misfortunes which befel Colombia after the negotiations of the Hay-Herran treaty fell through.

In conclusion the report says: "We must admit that the United States government had granted to us by way of compensation in the Hay-

Herran treaty much more than we had asked in the memorandum of our minister in Washington, which served as a basis for that treaty. Comparing these two documents, the government of the United States might well point to the generosity of its dealings with Colombia and obtain the public opinion of the civilized world, especially that of the United States and France, in considering as an indisputable fact that the obstinacy of our government was the only real obstacle to the construction of the canal by the United States, which was the only agency capable of bringing to a completion so colossal and gigantic a work."

Capt Smith's License Revoked.

San Francisco, Oct. 1.—The license of Capt. C. A. Smith of the steamer Westport has been suspended for 30 days by United States local inspectors of boilers and hulls. The steamer Pomona and Westport collided Sept. 5 off Point Reyes. The license was suspended for negligence. The inspectors also suspended the license of W. H. Genereaux,

Painkiller CURES CRAMPS, DERRY DAVIS & CO.

third mate of the Pomona, for 60 days, for being negligent.

Decrease in British Revenue.

London, Sept. 30.—The return of the total revenue of the United Kingdom for the half year ending today shows a decrease of \$15,233,525 compared with the corresponding period of 1903. The principal decrease is in the property and income tax, \$12,160,000.

WHERE IS THE DEED?

Mrs. Burke Searching for Her Dead Brother's Effects.

Mrs. James Burke, a sister of Dennis Gallagher, the old man who dropped dead of heart failure in the Elk saloon on April 4th of this year, arrived in Salt Lake yesterday to search his effects. She believes that in a trunk which he kept in his rooming house he had placed deeds to a 1,000 acre ranch in California, valued at \$40,000. The trunk disappeared from the rooming house two days before the old man's death and so far Mrs. Burke has been unable to locate it. According to

EUREKA BRAND BUTTER

"NOTHING BUT BUTTER."

We are also manufacturing Hazelnut butter which is fancy. It is made from selected cream, best modern methods used in making it. This butter is wrapped with parchment, each pound enclosed with a parchment carton which is sealed with an outside lithographed wrapper. Ask your grocer to get it for you.

Mrs. Betta Anderson, the proprietor, Gallagher ordered the trunk sent away a day or two before his death, stating that it was to go to another rooming house. An expressman called, and took it away. She could not describe the expressman, and knew nothing about him or where it would be possible to find him.

Mrs. Burke has placed her interests in the hands of Atty. E. McGurran, and leaves today for California, to attempt to have the deeds established in the records of the land office in the county where the ranch is located.

GREAT STOCK REDUCING SALE!

"Give Us Room!" That's the cry in this store. It's room that we want, and we have selected two of our most bulky lines for the slaughter. We want to move them out quickly, and make room as soon as possible to accommodate incoming goods.

WOODENWARE.

We "wooden" do this ordinarily, for the goods are seasonable at all times, but "room want" compels it.

Granite Iron Ware.

There is no reason why the price of these goods should ever be cut. They're worth the original price any time, but we must have room.
