THE DESERT EVENING NEWS.

TERMS-IN ADVANCE. --

FROM WEDNESDAY'S DAILY, JAN2.

INFORMATION WANTED.—Mrs. Mc-kinney of Indiana, now in this city, de-sires to know of the whereabouts of her relatives, Nathan and Jesse Hob-son, or any of the family formerly of Filimore. Address: S. R. Marks, Salt Lake City. Other papers please copy.

A SLIGHT BLAZE.—An alarm of fire was sounded about 10.40 a.m. yesterday, the cause of which was an incipient blaze at O. F. Due's green-house and conservatory, where the timbers of the building had taken fire from the heating apparatus. Some damage was done before the fames were extinguished, but they were put out before the Firemen arrived.

New YEAR'S CALLERS.—The Tabernacle Choir and the Opera Honse Orchestra were out calling yesterday.
They serenaded President Taylor at the
Gardo House, Mayor Jennings at
Devereux House, Bishop John Sharp
and other notable members of the
community. A number of officers from
the Fort were also out, and the Bicycle
Club. on their wheels of steel, were
likewise among those who observed
the time-honored custom.

FINE SILK WORK .—Mr. Jas, Chalmers who is now running that portion of the Silk Factory that is in operation has just turned out some elegant hand-kerchiefs. They are of pure white silk, ornamented with butterfiles, and on each corner with a beehive and bees, surrounding. A fine line of blue silk runs around the border, and the style and workmanship are first class, and do credit to the skill of the maker. Go and take a look at the factory, and support home enterprise. support home enterprise.

Fire AT Braver.—A dispatch from Beaver, received this morning, states that the Beaver County Court House was discovered to be on fire at about nine o'clock last evening. A general alarm was immediately sounded and by prompt and energetic measures, the conflagration was confined to the room where it originated. The room in question was occupied by the county assessor and clerk and was almost entirely burned, a great many important assessor and clerk and was almost en-tirely burned, a great many important books and papers being utterly des-troyed. No damage was done to the Federal Court Room or its records. The estimated damage to the building is about \$300. Loss of books and pa-pers cannot be estimated.

SABBATH SCHOOL REVIEW.—There will be no meeting in the Eighteenth Ward Chapel next Sunday night, at least no meeting of the usual character. But in lieu thereof the Ward Sunday School, under the superintendency of Brother Horace G. Whitney, will hold a review, to which the parents of the children and the public generally are cordially invited, and where it may be seen what progress the children are making in their spiritual studies. The authorities of the Ward have deemed it wisdom to suspend the usual evening services, in order to give the Sunday School full sway.

They are Frauds.—A gentleman

wholesale as well.

In one instance a shawl was sold to a poor widow woman. They claimed it could not be bought in Salt Lake City for \$16, but finally sold it for \$7.50. It another instance it was a table cloth which they asked \$4 for, but afterwards sold at \$2. We are authorized to state that these men are frauds who are imposing upon the people, and are not sent out by Z. C. M. I. at all. We understand they are traveling toward this city.

FIRE IN A COAL MINE.

P DEATH AT THE PARK.—The Park
Mining Record says that on Wednesday
last Henry Jagers, a young man, was
brought down to that city from the
Parley's Park mine, suffering from an
attack of spinal meningitis, a disease
which crippled him several years ago
when he was a child. A room was secured for him at Mrs. Holland's and a
nurse secured by kind friends. All of
Wednesday and Wednesday night and
part of Thursday he was subject to
terrible pains, during which he was

forced to cry out in agony. Thursday afternoon about 3 o'clock the pain seemed to leave him suddenly, aud calling for a drink of water, which was given him, he fell asleep and did not again awake but died at about 8.30 p. m. His father, George Jagers, was at once notified of his sad ending and drove from his home in Springville without delay, and on arriving inade arrangements for his son's interment in the Park City cemetery. The funeral took place Sunday afternoon at 2 o'clock, from Fennemore's undertaking establishment.

Dragged Down the Mountain.—
The Ogden Pilot gives the particulars of a severe accident which befel Mr. C. Kilgore in Ogden Cañon last Friday. It seems that he and some others were engaged in hauling logs and had a log chain fastened to one of the timbers with a team drawing it. The chain broke and the horses began to run. Kilgore was thrown from his feet and in some unnner the lines became fastened about 150 rods down the mountain side. The horses were finally stopped and the injured man extricated from his perilous position.

He was conveyed to his home and Dr. Mitchell was sent for. The doctor found his patient suffering severely locating his injuries about his hips and abdomen. It was impossible to determine definitely the extent of his injuries or to do much for him that night beyond relieving the intense pain of the wounded man. Dr. Mitchell visited him again yesterday and found Mr. Kilgore much easier, and although he is badly and perhaps internally injured, the doctor does not consider him at present in a dangerous condition. Mr. Kilgore is over 50 years of age.

Arrested on Suspicion.—A woman and her daughter were arrested and taken to the police office on New Year's eve, suspected of attempted stealing at Z. C. M. I. There being nothing to justify their detention they were released on their own recognizance until 2 p. m. to-day, when the case was to come up before Justice Spiers.

It seems that the two were in the grocery and hardware department of the institution late in the afternoon, and were standing near the counter upon which lay two scrubbing brushes. They moved away and immediately one of the brushes was uissed. The clerk called out for them to come back and they did so. He accused them of taking the brush and they denied it, slithough they acknowledged handling it. They then moved away again, and lo and behold the missing brush lay on the floor on the very spot where they had been standing.

Mr. Naisbitt, one of the clerks, at

Mr.Naisbitt, one of the clerks, at once telephoned to the City Hall for the police and officers Sharp and Malin went up and took the suspected persons into custody. What there is in the matter will doubtless be developed at the examination now proceeding.

and that two men had perished in the flames.

Bishop Sharp was asked to come right away, and accordingly took a special train to Provo, about twenty minutes before noon, and from that point the regular D. and R. G. train, which had kindly been held for his accommodation, conveyed him to the scene of the disaster.

About ten minutes to 11 a.m. to-day a telegram from Bishop Sharp to his son, James Sharp, Esq., in this city, stated the circumstances of the calamitous event substantially as follows: Yester day morning at 3.30 o'clock, the sheds in front of tunnel took fire from the fire in the sqove in weighing room, and in a few minutes the flames had run along the sheds into the tunnel, and through the tunnel into and up the air shaft, a distance of three hundred and sixty feet from the mouth of the tunnel.

Only five men were in the mine at the

the tunnel.

Only five men were in the mife at the time, three of whom escaped, though they were nearly suffocated. The other two, John McCleau and his son John, perished, and their bodies could not be recovered. It was thought that the fire had been smothered, as all the openings of the mine were completely closed with earth. Bishop Sharp with his son Win. G. and Dr. H. J. Richards, who accompanied him, are expected back to-morrow evening.

## FROM THURSDAY'S DAILY, JAN. 3.

EXCEEDINGLY COLD.—We learn from Brother Rees B. Lewellyn, of Fountain Green, San Pete Co., that at 6.30 a.m. on the 1st the mercury stood at 24 degrees below zero. The fustrument was under the shelter of a porch on the south side of the house.

THE CHANGE DODGE.—Two sharpers have been trying the "change dodge" at the ticket offices of the Utah Central Railway. Their game is to purchase tickets, tender a large bill in payment, and by bewildering the clerk in his mathematics, get more thau the proper amount in change. The boys in the offices have been too smart for them thus far. They were heading for Lehi at last accounts.

MANTI MORTUARY.—The Manti Mortuary report for the six months ending Dec. 31st, 1883, is as follows: Lung fever, 6; teething, 2; gravel, 1; summer complaint, 1; croup, 1; old age, 1; bloody flux, 1; worms, 1; accidentally killed, 1; encephaloid cancer, 1; not reported, 2; lung disease, 1; convulsions, 1; inflammation of the lungs, 1; loss of blood from foot cut off, 1; died at birth, 5. Total for the six months, 27. Females, 11; males, 16; children under five years old, 18. Total for the vear, 36. George Braithwaite, Manti City Sexton. year, 36, G City Sexton.

A Business Change.—The business of Mr. David James, plumber, gasfitter, etc., has undergone a change. That gentlemau bas taken into partnership his two sons David W. and H. C. James, and N. H. Schluter. Mr. James has been noted for the excellent quality of the work he has done in the princt-pal public and private buildings in Utah. His sons are enterprising and capable, while Mr. Schluter, who had been some time in Mr. James's employ is an expert workman, fully conversant with all the practical details of the business. The facilities of the establishment are to be increased. We are picased to note such evidences of progress and enlargement.

THE PLEASANT VALLEY DISASTER.—
Bishop John Sharp whose arrival from the Pleasant Valley coal mines was not expected till to-day, returned last night about 12 o'clock, by special train, accompanied by Dr. H. J. Richards, leaving Mr. Wm. G. Sharp, superintendent of the Utah Central mine, at the seene of the disaster mentioned in last eventing's News. Bishop Sharp gives but few particulars in addition to those already know to our readers. In fact things remain almost in static quo.

The bodies of the two men who perished are not yet recovered, nor is it likely they ever will be. The woodwork about the mine is all destroyed and the fire within was still burning at last accounts. Our reporter could not

learn the extent of the damage in figures. The mine at which the fire took place is the only one, among a number owned by the company, that was opened up and being worked.

number owned by the company, that was opened up and being worked.

HOLIDAYS IN THE SIXTERNTH WARD.

We are informed that the people of the 16th Ward had a fine time during the past few days. The amusements commenced with a children's party on the afternoon of the 26th, when the little folks enjoyed themselves in the dance and were well supplied with sweets by the Bishop, the superintendent of the Sabbath School, and others. In the evening another party was tendered to the young ladles and gentlemen. It was conducted strictly in accordance with the rules laid down for the government of such gatherings.

On New Year's morning the teachers of the Ward, assisted by the Relief Society, under the direction of the Bishopric, collected materials for a dinner for those in need, which was duly appreciated by the recipients. Among the other good things donated was a carload of coal by Mayor Win. Jennings. It was distributed where it would do the most good.

On the afternoon of New Year's day all repaired to the meeting-house, where a free entertainment was given, consisting of songs, recitations, etc. When the programme was about half rendered, a short recess was taken, and buns, cakes, apples, etc., were passed around, giving the assembly the appearance of an old country teaparty, minus the tea. The entertainment being over, the people dispersed to their homes feeling that the holidays had been enjoyably spent.

# A DANGEROUS ENEMY.

We cannot too earnestly urge the necessity of using the new Visilizing Treatment of Drs. Starkey & Palen, 1109 Grard St., Philadelphia, in the commencement of Pulmonary trouble and before the disease has made any serious proceds upon the extension of the composition of the compo commencement of Pulmonary trouble and before the disease has made any serious inroads upon the system and reduced its power to contend with so dangerous an enemy. Too many of the eases which come to them are of long standing, and the chances for a radical and permanent cure just so far remote. That their Treatment benefits or cures so large a proportion of these cases is often as much a surprise to themselves as to their patients. If your cough is becoming troublesome, if you are beginning to lose fiesh and strength, and have hight-sweats. don't wait a day before sending to Drs. Starkey & Palen for such documents and reports of cases as will enable you to understand the nature and action of their new Treatment. Take your enemy in time, and the chances are all in favor of your dislodging him.

All orders for the Compound Oxygen Home Treatment directed to 'H. F. Mathews, 606 Montgomery Etreet, San Francisco, will be filled on the same terms as if sent directly to us in Phila.
