**Turkish Bath Compound!**

Used in all Oriental countries, in the bath, and manufactured by us on a license and royalty, in exact style, odor and quality, from the original receipt, as that made in Constantinople, and import duties, pre mium on gold, etc., saved, thus enabling us to sell it at a very low price. By its use a bath becomes indeed a luxury. Very highly scented, and producing miraculous effects upon the skin. It is really worth a trial.

# THE DANFORTH

## NON-EXPLOSIVE

# PETROLEUM FLUID!

THE terrible and fatal disasters, which are almost daily occurring by the careless use and explosions of kerosene oil, should call the serious attention of using it to its deadly qualities and induce them to procure a substitute for it.

Thousands have perished by using kerosene oil, and thousands more will be offered a sacrifice to its death-dealing properties without its use is discontinued or its destructive element done away. If a fluid capable of a far more brilliant light,

**Cheaper, More Cleanly and Perfectly Free from the Danger of Explosion**

can be found, is it not perfectly suicidal to delay for a single day to use it? Such a fluid, by years of patient experiment and the expenditure of over fifty thousand dollars, has been provided by R. F. DANFORTH, of Cleveland, Ohio, and it has been introduced to the public with great success.

For the Danforth Non-Explosive Petroleum Fluid it is claimed:

1st. That it is Non-Explosive and perfectly safe in whatever form used.

2d. That it is entirely free from filth and grease, and will not stain silks or fabrics of the most delicate colors or tints.

3d. That it is entirely free from all disagreeable odor.

4th. That it gives a purer, more brilliant and at the same time a softer light than any oil or fluid in use, and is fully equal to gas light.

5th. That it is (except daylight) the cheapest light ever discovered.

Surely, if the fluid is as above represented, kerosene oil should be discarded in every family where it is used, and the Danforth Fluid used in its stead. Not to use it would be trifling with the lives and property of every member of the family.

**SINGER'S**

New Improved Silent

# FAMILY SEWING MACHINES

ARE

**The Best in the World,**

Because all of them are in constant use, while a very large proportion of other makes are laid by, owing to their being partially or utterly impracticable.

---

**THE SINGER**

# NEW FAMILY MACHINE

Has been brought to perfection, regardless of time, labor or expense, and is now incontrovertibly the best Sewing Machine in existence.

It is *simple, compact, durable, beautiful, quiet, light-running*, and capable of performing a range and variety of work never before attempted upon a single machine; using either Silk, Twist, Linen or Cotton Thread, and sewing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.

The New Improved Attachments for Hemming, (any width) Braiding, Embroidering, Magic Ruffling, Gathering and sewing on (at the same time) Self-Sewing, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are novel and practicable, and have been invented and adjusted especially for this Machine.

**Folding Tops and Cabinet Cases.**

New designs of the unique, useful and popular Folding Tops and Cabinet Cases, peculiar to the Singer Machine, are in every variety of Wood, such as Black Walnut, Mahogany, Rosewood, Satinwood, and from the plainest to the most elaborate pattern and finish. The Machines themselves are plain or highly ornamented with pearl and gold to correspond with their tables or cabinets.

In the Singer the work is fed or passed through the Machine in the natural direction, namely, *from the operator*, permitting her to sit in a natural and healthy position. In many other Machines the work passes from right to left, or the reverse, *compelling the operator to sit in a bent and unhealthy position, and thus causing weakness of the back, etc.*

The Singer uses a SHORT STRAIGHT NEEDLE, which is *not* liable to break or spoil the stitch. Many other Machines use a crooked needle, which *is* liable to break or to miss the stitch.

In the Singer Machine the Shuttle is carried, thus avoiding nearly all wear. It requires no oil, and does not soil the thread or goods. Other Machines *drive* their Shuttles, in a line, thus causing great wear, and *requiring* oil, soiling the thread and goods.

On the Singer, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always available for good sewing, which is not the case with any other. Many so-called cheap Machines are really worthless, and so are many of their new peculiarities and supposed advantages.

**The SINGER is the Oldest Practical Sewing Machine,**

Being about twenty years in the market. Having been constantly improved by the employment of the most skilled ingenuity of the age and unlimited capital, it is now divested of all unnecessary parts and possesses All the Very Latest Inventions and Improvements. It is the only Machine sold on Honest Claims, as all its parts are Practical and will do all that is claimed for them. Some other Machines are Greatly Complicated, to do Useless and Silly things, and thus are rendered Liable to Constant Derangement. The Singer Seldom or Never gives trouble, but is readily and easily managed by those *who utterly fail on other Machines.*

**SINGER'S**

**New Manufacturing Machine**

Claim the same advantages over others of their class as the new Family Machines. These old and well-tried Sewing Machines are *applicable to all kinds of heavy and light manufactures, Cloths, Leather, etc.*, and run in the most perfect and reliable manner without trouble to the operator.

Without any previous advertisement, the Demand for the Singer Machine is so great that we *have been unable to retain even one Machine to exhibit.* **All sold, but a large number are now on the way** from New York, and

**WILL ARRIVE IN A FEW DAYS.**

They will consist of the Different Varieties made by the Singer Manufacturing Company, and we shall sell at Eastern Prices, with addition of Freight only. To accommodate parties who cannot pay all down, we will sell on

**EASY MONTHLY INSTALMENTS**

So that all may possess one of these *Blessings.*

For the convenience of our Patrons we have engaged the services of a gentleman who has had twenty years experience and is one of the most skillful experts in the world *in repairing* and adjusting Sewing Machines. *He will put* each Machine in complete and practical running order before it leaves the Institution and will also impart to purchasers all needful instruction, so that they can at once commence work.

We resort to no trickery whatever to sell Sewing Machines, but **allow their Great Merits to recommend them.** We can do this, as the demand for them is so great that although the Singer Company make more than all other first-class companies combined, they cannot nearly fill their orders, and are compelled to still extend their Gigantic Works.

We having been so fortunate as to secure the

***General Central Agency,***

For this Territory, we extend a cordial invitation to all to come and see the Machines, whether they wish to buy or not. See all **others, but do not buy without you examine the Singer.**
