

DESERET EVENING NEWS

WEATHER REPORT.

Observations taken at 8 a. m. today, for previous 24 hours:
Salt Lake City, Utah—Barometer, 29.75; current temperature, 30 degrees; maximum temperature, 35 degrees; minimum temperature, 20 degrees; mean temperature, 27 degrees, which is 1 degree below normal.
Accumulated excess of temperature since January 1st, 83 degrees.
Accumulated deficiency of precipitation since first of month, 47 inches.
Accumulated deficiency of precipitation since January 1st, 2.65 inches.
FORECASTS TILL 6 P. M., TUESDAY.
Local forecast for Salt Lake City and vicinity:
Cloudy tonight and Tuesday; slight changes in temperature.
Trib—Made at San Francisco: Cloudy tonight and Tuesday.

WEATHER CONDITIONS.

An area of high pressure, with its center extending from British Columbia southward to the lower Ohio valley, covers the western half of the United States. Temperature ranges from 4 degrees to 20 degrees over the Missouri and upper Mississippi valleys. The coldest point is Winnipeg with a reading of 12 degrees below zero. An unusual feature of the map is that no precipitation has fallen over the area reporting.

L. H. MURDOCH,
Section Director.

LOCAL BRIEFS.

The contest in the Ellison-Barnes case, over the State senator from the Third senatorial district, is to come up on December 12th.
Several "smallpox" flags that have been in the west part of the city have been taken down, the parties concerned having recovered.
Chicken thieves are getting in their work. The police would confer a favor by punishing those dealers who buy stolen chickens, provided they can be caught.
W. H. McCune, the street car conductor, who fell from his car Friday night, is recovering from his injuries. He is now conscious but suffers from a pain in his head.
Albert J. Cliff, a motorman of the Salt Lake City Railroad company, who was beaten by a tough citizen on Saturday, is around again looking for his belligerent friend.
Tom C. Grant, Pacific coast manager of the North British & Mercantile Insurance company, represented in this city by Heber J. Grant & Co., is spending a few days in Salt Lake.

In the grading of Thirteenth East street the water mains on that street have been uncovered between South Temple and First South streets. Superintendent Hines of the waterworks department has a force of men at work lowering the pipes about four feet from the surface.
Permits to marry were issued this forenoon to William F. Brough, 35, of Nephi, and Mary Hannah Hewitt, 32, of Salt Lake; Erik Mattson, 32, and Mary Fors, 20, both of Salt Lake; William Kellendons, 45, of the city of Washington, State of Washington, and Catherine Zemp, 63, of Salt Lake.

Yesterday morning a young lady giving her name as Chloe Buchanan, reported to the police that she had lost her pocket book containing \$12. She believes her pocket was picked. She said that two men followed her but could not remember that they got close enough to her to steal her purse. The officers secured a description of the men and are looking for them.

A fire of disastrous proportions was at 5 o'clock on Jan. 23, 1900, at Walker Bros., about 8 o'clock last evening. Frank Wright was walking up East Temple street at the time stated, and happened to look in at one of the large show windows at Walker's store. The window was filled with new goods of rare quality, and Wright noticed that right in the center of the display there was a small blaze. He immediately notified the night watchman and the fire was extinguished before any great damage was done.

Money to loan on first class security. Interest low. No commissions charged. Zions Savings Bank and Trust company.
LORENZO SNOW President.
GEORGE M. CANNON, Cashier.

UTAH COMMERCIAL AND SAVINGS BANK
Interest paid on savings. W. F. Armstrong, president. P. W. Madsen, vice president. J. E. Caine, cashier.

UTAH COAL.
Castle Gate, Sunnyside and Clear Creek Lumps, \$5 per ton. Winter Quarters and all run had \$4.75 per ton. Anthracite all sizes, \$5.50 per ton. 73 South Main St. Telephone, 429.
D. J. SHARP, Agt.

NEW BURLINGTON DEVELOPMENTS.

Said to Have Acquired St. Joseph & Grand Island Line.

MAIN LINE MAY BE CHANGED

Steamboat Springs Makes a Tempting Bid for Railroad Facilities— Plenty of Business.

In regard to the rumor which is now circulating to the effect that the Burlington has acquired the ownership of the St. Joseph & Grand Island railroad, and that the transfer will go into effect January 1st, the St. Joseph Gazette-Herald says:
"The officials of both the roads deny the story, and state that had such a deal even been contemplated, they at least would know of it. There is one feature which gives the story an appearance of truth. Yesterday on the stock market Grand Island stock went up considerably and there were 4,000 shares of common stock and 1,000 of first preferred stock and 500 shares of second preferred stock sold. It has been said on good authority that the Burlington has been slowly gaining control of the road by gradually buying up the stock, and it is possible that the stock bought yesterday was purchased by the Burlington, which gave that company control."
The "G. I." as this road is familiarly termed at home, is 52 miles in length and penetrates the richest agricultural and fruit growing country of northeastern Kansas and southeastern Nebraska, connected with the Union Pacific, of which it was formerly a branch, at Grand Island, Neb. The accepted theory is that the Burlington, by its purchase of the road, is planning to make a transfer of the "G. I." would be made the main line between Kansas City and Denver, and when its Salt Lake extension is completed, between Kansas City and Utah points.
This paper goes on to state that there is a growing belief that the Burlington is preparing to push into the Laramie plains, and throw out an extension from Laramie to the North Park, and possibly to Steamboat Springs, Routt county, Colo. In this connection and another which need not be mentioned, the following from a Denver daily is significant as well as interesting, as it is known that the rich coal measures in the vicinity of Elk Mountain, and those yet more extensive, in the park, have long held out a tempting bait to the Burlington:
"If any of the railroad people will build to Steamboat Springs, we are prepared to enter into a long-time contract with them to furnish 100 cars loads of coal a day. We are here to talk business, and have the money to back us," said Samuel G. Adams of Steamboat Springs, Routt county, at the Albany hotel last night. "We need a railroad in Routt county, and we are prepared to give a road the business that will make it a success, and if any of those who have been telling us they would come really mean what they say, and want business, we want to hear from them."
Mr. Adams is an oil and coalman, and he has unbounded faith in Routt county, where, he says, there are oil, minerals of all kinds, farm lands and grazing lands that have no equal in the known world. There are three companies boring for oil near Steamboat Springs. The oil district is ninety miles long by twenty-five miles wide, taking in a territory that has many of the characteristics of the Pennsylvania oil fields.

MEET IN ST. LOUIS.
Promoters of the Los Angeles Road May Possibly Amend Articles.
Directors Thomas Kearns, Reed Smoot and C. O. Whittemore of the Santa Fe, Los Angeles & Salt Lake railroad, left for St. Louis yesterday to attend the meeting of the promoters of that road. All the leading incorporators will be present on the occasion and various items will be cleaned up, with the result that possibly the papers will be changed to such extent prior to their being filed in this city at the latter end of this month. It is understood that the pending meeting in St. Louis will be in the nature of a final perfection of the organization.
As soon as Mr. Gibson returns to this city and files the papers with the secretary of state preliminary work will be commenced in the matter of surveying from this end of the proposed line. Mr. McCannery will make Salt Lake his permanent headquarters and ultimately they will begin to fly.

Trans-Continental Rates.
New York, Dec. 10.—Representatives from commercial interests of various sections of the country, principally from the Pacific coast, western and eastern States, will appear before the interstate commerce commission at a hearing to consider the matter of trans-continental rates and the concessions in such rates now being sought by Middle Western jobbers, chiefly grocery and hardware firms. For some time past strong efforts have been made by these interests and several conferences with the railroads have been held to have the latter adopt a system of graded rates. If these efforts are successful Pacific coast rates, under the plan proposed, would always be higher than New York to San Francisco, than to San Francisco from any point west of New York. Eastern jobbing interests are naturally working hard to prevent the establishment of such a system. They will be represented at the hearing today and J. M. Langley, of the Merchants' Association, will appear in behalf of the New York shipping interests represented by the members of that organization.
The western people are advocating graded rates. That is, if a rate from New York to San Francisco happens to be \$1 per 100 pounds, they contend that the rate from Pittsburgh on the same goods should be appropriately 90 cents, from Chicago 80 cents, from Mississippi river 75 cents and from Missouri river 70 cents per 100 pounds, notwithstanding the fact that the rate from New York is a forced rate and not a rate that is result of normal conditions voluntarily established.

Changes on Santa Fe & P. & R. R.
Phoenix, Ariz., Dec. 10.—According to an order just issued by F. M. Murphy, president and general manager of the Santa Fe, Prescott and Phoenix railway, the office of assistant general manager is abolished. Mr. W. A. Drake is appointed general superintendent. In addition, he will act as chief engineer. The office of assistant manager was filled by R. E. Wells, who resigned last week.

Conductors Install Officers.
The Order of Railway Conductors of America, division No. 295, Salt Lake City, has elected and installed the following officers for the ensuing year:

Chief conductor, E. C. McCulloh; assistant chief conductor, N. L. Swartwood; senior conductor, E. B. Smith; junior conductor, Ed Bell; inside sentinel, E. R. Scott; outside sentinel, W. J. Smith; treasurer, C. Hulton; J. M. Moore; S. C. McCulloh; legislature, W. M. Haver; cipher correspondent, E. C. McCulloh; delegate to grand convention, W. E. Yancey; alternate, E. R. Scott.

Advertising Novelty.

The Colorado Midland is doing some heavy advertising as is palpable to everyone who glances at the papers and bill boards in this city and elsewhere. The latest advertising scheme that has issued from the general passenger department comes in the form of a neat little travel rubber stamp which can be used daily for the next six years. The instrument bears on the top of the handle the well-known Midland emblem. The "News" acknowledges the receipt of one of these handy and effective little novelties.

SPIKE AND RAIL.

W. F. McMillan and S. J. Henry left for Denver on No. 6 yesterday.

Traffic Manager S. W. Eccles of the Oregon Short Line returned from the north this morning.

J. W. Travella, freight solicitor for the Rock Island, returned from a recent trip to Niagara Falls and Eastern cities this morning.

Thirty-two western roads have signed an agreement to charge for carrying bicycles, as well as baby carriages. The minimum rate is 25 cents.

W. H. Bancroft, E. E. Calvin and W. D. Cornish are up in Idaho looking at the track improvements on the Short Line and otherwise inspecting the system.

Eastern railroad papers are beginning to devote considerable space, editorially and otherwise, to the subject of the San Pedro, Los Angeles & Salt Lake railroad.

J. W. Furlong, chief clerk of the Missouri Pacific, this morning called on the sixth and seventh floors of the hotel through the medium of the raffle which has been circulating around Railroad Row.

The presidents of the railroads included in the trunk line associations and the Central, Western and Southwestern Traffic associations, have decided to postpone further consideration of the proposition to do away with free transportation until next year.

The last Pacific Mail steamer for Panama sailed on Sunday. The City of Sydney left for all Central American ports and will make her last point of call Panama. Thereafter all the mail company's steamships will drop Panama from the schedule and will ignore the Panama railroad.

Two of the new compound engines for passenger service arrived the first of the week and are now being used on the sixth and seventh floors of the Union Pacific. They are the 1322 and 1323 and are the largest passenger engines ever used on the Wyoming division. They have 70-inch drivers and are giving fairly good satisfaction.

United States Consul Henry at Quebec reports to the state department the completion of the Great Northern railroad from Quebec to Parry Sound on Lake Huron. The line opens up a new Canadian grain route, and the promoters of the road claim that it is the shortest and cheapest route now existing for the transfer of grain from the great lakes to Europe.

With reference to the American contracts for bridges along the line of the Uganda railroad, Sir Harry Johnston, the commissioner for Uganda, in a dispatch to the British foreign office, declares the railroad officials were compelled to send orders to America, owing to the British firms being unable to supply their wants within a reasonable time. The order contained the following bridges, but locomotives and other rolling stock.

California travel started early this year. The Santa Fe started its line between Chicago, Los Angeles and San Francisco on Nov. 7, and the Southern Pacific put on its Sunset limited trains between New Orleans and the same coast cities on the following day. With the big strike on the Santa Fe at present in operation among the telegraph operators of that system a big percentage of the tourist travel will be diverted over the northern route and the Union Pacific and the Rio Grande Western will reach a rich harvest. As it is at the present time both systems have about all the passenger business that they can attend to.

"SMALLPOX" IN THE STATE.
Ten new cases of "smallpox" were reported from Kayville to the State board of health on Saturday last. Dr. W. W. Woodring of Mt. Pleasant writes Secretary Beatty on the subject of "smallpox" as follows: "In November, 1899, I wrote you that as quarantine physician of Moroni I advised the mayor to have all the unvaccinated citizens of the town vaccinated at the city's expense, the city paying for the

Chief conductor, E. C. McCulloh; assistant chief conductor, N. L. Swartwood; senior conductor, E. B. Smith; junior conductor, Ed Bell; inside sentinel, E. R. Scott; outside sentinel, W. J. Smith; treasurer, C. Hulton; J. M. Moore; S. C. McCulloh; legislature, W. M. Haver; cipher correspondent, E. C. McCulloh; delegate to grand convention, W. E. Yancey; alternate, E. R. Scott.

SPIKE AND RAIL.
W. F. McMillan and S. J. Henry left for Denver on No. 6 yesterday.

Traffic Manager S. W. Eccles of the Oregon Short Line returned from the north this morning.

Thirty-two western roads have signed an agreement to charge for carrying bicycles, as well as baby carriages. The minimum rate is 25 cents.

W. H. Bancroft, E. E. Calvin and W. D. Cornish are up in Idaho looking at the track improvements on the Short Line and otherwise inspecting the system.

Eastern railroad papers are beginning to devote considerable space, editorially and otherwise, to the subject of the San Pedro, Los Angeles & Salt Lake railroad.

J. W. Furlong, chief clerk of the Missouri Pacific, this morning called on the sixth and seventh floors of the hotel through the medium of the raffle which has been circulating around Railroad Row.

The presidents of the railroads included in the trunk line associations and the Central, Western and Southwestern Traffic associations, have decided to postpone further consideration of the proposition to do away with free transportation until next year.

vaccine material, while I would do the work, the mayor to have the people vaccinated 481 persons, and 480 of the cases took at a cost to the city for material of \$10.50. I received for my services \$15, and there was a charge of \$3 for assistants in cleaning arms. The result is that there has not up to date been a case of "smallpox" in this town of 1,600 people, and schools have not been interrupted in any way from "smallpox" excitement."

ACTION TO RECOVER SHEEP.

John G. Turnbow has entered suit against Martin A. Beckett and the Utah Commercial & Savings bank to recover possession of 1,400 head of sheep, alleged to be wrongfully held by the defendants. In case possession cannot be had, the plaintiff asks for judgment for \$5,720, their alleged value.

BUYS MORE PROPERTY.

Henry Phipps, the Pittsburgh steel king and capitalist, now has many very valuable Salt Lake holdings. His latest acquisition is located on the south side of First South street, and was purchased from the New York Life Insurance company for \$20,000. The property was part of the Jennings estate, and is just east of the Dinwiddie block. It has a street frontage of 43 feet, and is 165 feet deep, with an alley 10x52 1/2 feet in the rear.

The Best Plaster.

A piece of flannel dampened with Chamberlain's Pain Balm and bound to the affected parts is superior to any plaster. When troubled with lame back or pains in the side or chest, give it a trial and you are certain to be more than pleased with the prompt relief which it affords. Pain Balm also cures rheumatism. One application gives relief.

Worms take refuge in the small intestine, where they can easily multiply. WHITE'S CREAM VERMIFUGE will destroy these parasites. The verdict of the people tells plainly how well it has succeeded. Price, 25 cents. Z. C. M. I. Drug Dept.

Don't use any of the counterfeits of DeWitt's Witch Hazel Salve. Most of them are worthless or harmful to the system. DeWitt's Witch Hazel Salve is a certain cure for piles, eczema, cuts, sores, burns, sores and skin diseases. F. C. Schramm.

Many persons have had the experience of Mr. Peter Steadman of North Platte, Neb. He says: "For years I suffered torture from Chronic Indigestion, but Kodol Dyspepsia Cure made a well man of me." It digests what you eat and is a certain cure for dyspepsia and every form of stomach trouble. It gives relief at once, even in the worst cases, and can't help but do you good. F. C. Schramm.

Help is needed at once when a person's life is in danger. A person on whom cold may soon become serious and should be stopped at once. One Minute Cough Cure quickly cures coughs and colds at the worst cases of croup, bronchitis, grippe and other throat and lung troubles. F. C. Schramm.
