TAKE CARE OF YOUR POCKETS, for the day, just now, contains some of the light and airy gentry, professional pickpockets. We have heard of two victims to their skill, one a loser to the tune of five or six dollars, the other to between fifty and sixty. The "civilization" ought to be satisfied with the progress (if) of Salt Lake City now-a-days. Drinking, dancing, the score, pin-ball, and now pickpocketing. What next? We trust the last named class, will soon find Salt Lake City a hot bed for them, and that they will speedily be induced to seek "fairer fields and pastures new."

THINK IN A MESSAGE for John Schneider, at Deseret Telegraph Office.

THE ABEL COMBINATION LOOM.—On Saturday, upon invitation of Mr. Clark, Agent of the Abel Combination Loom, we visited King's building, Second South St., where this loom is on exhibition, and saw its performance. To say that we were delighted is but to express a part of our feelings in witnessing its performance. They are wonderful. We timed it while Mr. Roberts, who is in charge of the loom, ran it. In one minute it made four and a half inches of cloth. It is claimed that it will weave two hundred and fifty, and some even say three hundred yards daily. The motion of the machine is the of knitting and weaving combined. The warp and weft being not only interwoven, but also interlaced. The cloth is composed of loop stitches, the cloth will not ravel or fray at the edge, nor can it be torn in either direction. The cloth is made on a cylinder. On this cylinder there are two separate systems of reel and harness wheels, each one doing its work distinct from all the others. The cloth being made circular like a stocking, or a sack, there are two or three needles left out where the seam is desired, and at that part it is cut. We examined the cloth, after being fully dressed, and found it of very superior quality.

THE WAY THE MONEY GOES.—There is a class of people in this community who appear to be at a loss how to spend their money. Apparently not being able to get rid of their surplus cash by the ordinary methods, they seek illegitimate channels in which to direct it. Of course people have a perfect right to use their money as they please, yet a little friendly advice to those not acquainted with the ways of the world may not be out of place at the present time, when so many "unlucky" persons, heretofore unknown in Utah, are being imported. We are induced to offer it from having seen the great number of people which poured in a continual stream into a certain lottery concern on First Temple Street on Saturday.

With people possessing an ordinary amount of good sense, all that would be necessary to convince them that patronizing such places is not profitable would be to consider the object of those having such concerns. We presume that no one will dispute that it is to make money, and it is a notorious fact that men engaged in schemes of this description make money much faster than those carrying on a legitimate, steady business. If they make money thus quickly, we would like to know how it can be profitable to people investing their means in such affairs. It is easy to decide as to who gets the benefits arising from concerns of this kind. And aside from these considerations the illegitimate nature of the business ought to be a sufficient argument against it. It takes means that should flow through the proper channels into trade, and turns it in directions that are inimical to true business interests, and the more such things are encouraged the faster will they increase. The same spirit that induces people to indulge in gambling of any kind attracts them to lottery concerns. The hope of making a "big raise" out of very little capital. It is needless to say that the result of every hundred dollar invested in getting anything like the shadow of a return for the means they invest in such a way. "A hint to the wise is sufficient."

"FIDELITY TIME"—Look out for this great sensational play at the Theatre, to-morrow night. This piece has been in preparation for some time and will be produced in good style.

FRANK WALL, there is a letter for you at this Office. Command get it.

ABOUT BEAR LAKE.—Bishop William Budge, of Rich county, who has just arrived from that part for the purpose of attending Conference, called on the following morning. From him we learn the following concerning Bear Lake Valley. The poles have all been put up for an extensive line of the Deseret Telegraph from Franklin, Cache Co. The line passes through a portion of Bloomington Canyon, the timber in which, a few days after the poles were erected, took fire, and it is supposed several miles of the poles have been destroyed. Nearly five miles in length of the timber was thought to be in flames at one time, and the conflagration is still raging. There is also an extensive fire in the timber of Paris Canyon, and one has been burning in Charles Canyon for the past three months.

As before stated in the News, the crops in Bear Lake Valley were an utter failure this year, having been entirely destroyed by grasshoppers. Notwithstanding this the people are feeling well and have plenty of breadstuffs to last them until another harvest, for as soon as the brethren found they would be short, some made their way to this city, some to Soda Springs, where a great amount of wheat has been raised the past season, and by laboring in various ways, succeeded in getting the necessary supplies of the "staff of life" for the coming year. There are a few planing machines also a lathe and shingle machine in operation there.

Improvements are the order of the day at Bear Lake. Messrs. D. P. Kimball and H. Duffin are finishing a fine livery at Paris, which will soon be in working order. There are a few planing machines also a lathe and shingle machine in operation there.

Altough Bear Lake Valley, at its present rate of progress, bids fair to become a very desirable place in a few years.

MILITARY.—Two companies of the 13th Infantry, from Fort Steele, passed through the City yesterday on their way to Camp Douglas, where they will probably remain all winter.

DELIGHTFUL.—The atmosphere is really enjoyable now. The slight rain in the valley and snow on the mountains, which fell last week, reduced the temperature to a satisfactory point, and now there is no chance in walking out morning, noon or afternoon, for the days are beautiful and the atmosphere agreeable.

Special Notices.

LOST.—This morning, on First South Street, between West Temple and the Railroad, a linen cuff with eagle stud. Finder please leave it at this office.

\$50 REWARD.—Lost between Dayton's and Phoenix, a self-closing Pocket Book containing \$100 in currency and a letter addressed to Mr. Carlson, Fairview; also other money, amount unknown, together with valuable papers. The finder will receive the above reward by returning it to

ANDREW BURT, at the City Hall.

LOST.—On the 29th inst., on Commercial St., a Pocket Book, containing Currency and Papers valuable to the owner only. The finder is requested to leave Pocket Book and Papers at this Office and he may retain the money.
