

MINING, BUSINESS AND STOCKS.

LITTLE DOING IN MINING STOCKS

Sales of Regular Forenoon Call Amounted Less Than \$1800.

VACATION TIME HAS COME

And Some Brokers Have Gone to the Mountains or the Seashore—Quotations and Sales.

There was not much life to the mining stock market again today. If the brokers had to depend on the amount of commissions received these days to meet their running expenses, the chances are they would soon go out of business. But this is the dull season of the year, and no one expects to do very much. A good many have gone on their vacations, while others are planning to go, so until the heated term expires and cooler weather comes again little else can be expected but flat market days.

The transactions of the regular call this forenoon amounted to less than \$800, only three stocks being marked up among the transfers. On the open board the sales ran up to over \$2,000. Lower Mammoth and May Day were both on the Daily Telegraph. Little Bell participated at \$2.50, while Yankee Con. went for 24 1/2 cents.

The closing quotations and sales were reported as follows:
