

MINING, BUSINESS AND STOCKS.

CARISA STOCK IN LIVELY DEMAND

On the Mining Exchange This Forenoon 34,200 Shares Were Sold and Transferred.

STOCK ADVANCES TO 14 CENTS.

Result of Improved Physical Conditions—Business for Week Slightly Improved.

BUSINESS ON 'CHANGE SHOWS AN INCREASE.

During the week on the Salt Lake Stock and Mining exchange a total of 153,287 shares were sold, the same bringing \$73,664.88. Compared to last week an increase in business is shown amounting to \$24,385.25. While the market has been dull the impression prevails quite generally among brokers that the worst is over, and that the increase of the present week gives unmistakable signs of early improvement in the local stock market.

The real feature of the stock market this week was the lively interest taken in Carisa stock yesterday and today. The information reached brokers' room late Friday afternoon that a strike of considerable importance had been made in the mine and later reports received tended to verify the report. On Monday the stock sold at 8 cents and this forenoon it bounded up to 14 cents. Consequently the week fairly firm, until this forenoon when it was quoted several points down. Daily stock during the week low, later stiffening, but closed weaker again. May Day made no change for the better or worse. California ended up practically unchanged. There was a forced sale of Star Consolidated which knocked the price of the stock down somewhat, from which it failed to recover. A sale of United States was made at 30.
