BY TELEGRAPH.

THE WASHINGTON TELEGRAPH LINE.
AMERICAN.
WIRED FROM WASHINGTON.

WASHINGTON, 19.—Gen. Hansen to-day telegraphed to weather ob-
servers in the West Indies that after
the 30th inst. no more reports on
cyclones can be made, owing to the
failure of Congress to make appro-
priations for the purpose. The sta-
tions there will be abandoned.

Seven hundred recruits are on
their way to strengthen regiments
in the departments of Columbia,
Arizona and New Mexico, with a
view to the possible necessity of an
Indian campaign.

The money withheld from the
railroads by the Post Office Depart-
ment, in pursuance of the act of
1879, and to which the Postmaster
General decides the roads are en-
titled, amounts, in the aggregate, to
about \$300,000.

The Secretary of the Interior de-
cides that the owner of a town lot
under a city title, may be entitled,
as an adverse claimant under the
mining statutes, to demand a stay
of proceedings for the purpose of
bringing suit in court to determine
the right of possession, and all col-
lateral questions, if he shall elect to
come forward and set up his own
title and deny the right of the min-
ing application, although it may,
perhaps, not be incumbent upon
him to do so in order to protect his
own title under the townsite patent
already issued. Second, that the
reservation from the patent to a
townsite of any mine of gold, silver,
copper or iron, or to any valid
mining claim or possession held un-
der the existing law of Congress, the
following language: "The townsite
laws leave out of said patents: such
mines and mining rights as existed
at its date. It is the duty of this
department to aid in the law, and
allow the claims to be preserved,
and the patent to be obtained, lim-
ited to the precise extent of the
reservation and not extended to the
use and operating of the mine. If
the location antedates the townsite
patent, the appropriation, he must
connect himself with the original
claim as actually possessed, and
not in excess of the surface ground
allowed by law, and the local cus-
tom at the date of the townsite ap-
plication. 4th, that such a person
showing has been made *prima facie* case,
the applicant may be allowed to
proceed by publication as in other
cases, subject to the filing of adverse
claims and proceedings in the courts;
and if no adverse claims are filed,
he may have his patent upon com-
pleting his proofs and entry; such
patent to contain the usual reserva-
tions respecting townsites.

The Commission of the General
Land Office to-day decided a con-
tested case involving lands within
the limits of an originally located
line of railroad in Michigan, from
the latter State to the United
States line. The Commission holds
that lands previously certified for
this line, which were relinquished
under the joint resolution of Con-
gress, were by the operation of this
statute restored to the public do-
main, and that the same are subject
to pre-emption, or homestead entry,
or other public land of the United
States. In the case decided to-day
the lands are also within the limits
originally fixed for the defined
sections by the Oklahoma law. The
Commissioner says that no inden-
tity or other withdrawal exists, cov-
ering the land in controversy, and
he therefore awards to settlers first
in time.

Postmaster General Gresham to-
day approved the specifications for
the new postal notes, and adver-
tisements will be issued at once
inviting proposals for printing the
notes.

The Archipelago Hill Investigating
committee to-day's meeting, con-
sidered the charges and issued a letter
asking further testimony and proofs.
The sessions are open to all, and
proofs and testimony may be given
by employees disclosing frauds. Ac-
companying the charges filed by
Mullist is a letter addressed by him
to Secretary Fish from New York,
November 28th, 1881, in which
among other things, he says: "I be-
lieve that I keep strictly within the
bounds of truth when I say that the
government has lost through the
ineptitude and dishonesty of him
and his associates not less than \$10,
000,000, and this can be proved to
your satisfaction, and so clearly it
can't be denied."

Secretary Frelinghuysen to-day
exchanged with the Spanish Minister
the ratification of the trade com-
merce and extradition treaties between
the United States and Spain.

The counting committee to verify
the Treasury cash and accounts, in
the Auditor General's report, to-day
finished the examination of the
money and securities. The com-
mittee found an excess of three
cents in favor of Gilliam.

It is said by the U. S. Office Depart-
ment, that the report referred to in
a recent dispatch from the City of
Mexico, in regard to postal arrange-
ments between the United States
and Mexico, is in regard to the
United States, urged the adop-
tion of daily instead of tri-weekly
mail service from Mexico. Mails reach
frontier daily, and are delayed
there on account of the slow mail
service of that Government. A
change is proposed, in which the
Mexican authorities appear to have
acquiesced, which will expedite the
delivery, and the mails will be forward-
ed as far as possible on the day they
reach the Mexican border.
