TO BUILDERS AND OTHERS.
TO A SUITABLE NEIGHBOR
I will sell a nice Building Lot on my property in the Eleventh Ward, for a reasonable figure. It is situated about half a block south of the New Catholic Hospital, and the same distance from the First South Street Car Line. Property in this locality is likely to increase in value as it has in the Eighteenth and Twentieth Wards, and is therefore a good investment.

Washington, 17.—Postmaster Gen. Gresham made the following report: "The reduction in the first instance of the domestic rate of postage from 3 to 2 cents, reduced it from the same rate from 4 to 3 cents, and from 5 to 4 cents. Chicago, 17.—Capt. A. H. Bogardus will publish the American Field a card to Dr. W. F. Carter, now in this city, stating that as both hold commissions in the army, the friendship of the world at wing shoes, he is willing to put up both cash and shot three matches to decide the championship, one at 100 yards, 21 yards rise, to the one bar; one at 50 yards of birds, the other rising; and one at 100 yards, London Gun Club rules, 30 yards rise, for \$200 to \$500 a side each. Or he will shoot a single match for \$1,000 a side and the champion will be the winner. The shooting, or for \$1,000 or \$5,000 a side, Burlington rules. Either of these propositions to be accepted within one month. A forfeit of \$250 is deposited with the referee.

Last night, a few miles east of Sulphur Springs, one lady and two children were severely injured; there were a number of other passengers aboard, several of whom were badly hurt. San Francisco, 19.—The Pacific steamer Granada, which arrived from Panama to day, brought a case of yellow fever, Christian Monie, a native of Switzerland. THE WOMAN'S CONGRESS.
CHICAGO, 19.—The closing day of the Women's Congress opened with an executive session, at which the following officers were elected for the following year: President, Julia Ward Howe, Rhode Island; Vice-President, one from each State; Secretary, Ella D. Chapman, New York; Treasurer, Henrietta L. Wolcott, Massachusetts.

At the afternoon session Mrs. Julia Ward Howe, of Illinois, read a paper on Mourning Garb. It took the grounds that it should be dispensed with as unwholesome, mentally and physically, and this opinion was generally conceded in the discussion.

Mrs. Dr. Mary E. Bogg of New York, read an interesting paper on Historic Art.

In the evening, Mrs. Augusta Cooper Bristol, of New Jersey, read a thoughtful and intelligent paper on Labor and Capital.

The last paper was by Julia Ward Howe, on the "Benefits of Suffrage for Women." She said the benefits would be two-fold: to herself and society. The physical weaknesses of women were diluted on. The intellect would give her an independence which would enable her to throw off the thralldom of fashion, which represented her vitality, made her beauty simply a dead beauty, and incapable of producing the best specimens of men and women. Relieved of her chains, her feminine weaknesses would disappear, and the effect on society of her improved progeny would be marked. She made these cardinal points: First, women would have a better world to work in; second, better work to do; third, better ability to do it.
