

RUSSIAN LOSS NOT LESS THAN 25,000.

As the Result of the Seven Days' Battle North of Ventai.

JAP CASUALTIES ABOUT 3,000.

In Almost Every Instance Czar's Troops Retired at the First Charge.

With Gen. Oku's Left Army at the Front, Oct. 16, 4 p. m., via Tien Tsin (Delayed).—The seven days' battle north of Ventai was the heaviest blow yet struck the Russians by the Japanese, so far as loss of life is concerned. The left Japanese army during the week buried 4,100 Russian dead left in front of its lines. A village in front of the left wing contains many Russian dead, but the shell fire of the retreating Russians prevents the Japanese from reaching them. Conservative estimates place the Russian casualties at not less than 25,000. Probably many more dead are on the field in places not yet searched. The Japanese report their total casualties at a little over 3,000 killed and wounded. The principal Russian casualties occurred in determined counter-attacks against each village captured by the Japanese. The Russian attacking parties were in many cases entirely annihilated. For the first time the Russians have met the Japanese on an equal footing, not having strong defensive positions to depend upon, and for the first time they attacked the Japanese in their own trenches.

The Russians everywhere fought bravely, but they were unable to drive the Japanese out or to hold their own positions against fierce charges. Almost in every case the Russians retired from their positions at the first charge, then made repeated attempts to recapture them. The Japanese left army, with a front of nearly 10 miles, moved forward about five miles fighting over every inch of ground. The final retreat of the Russians was almost a rout. The Japanese extreme left advanced, driving the remnants of Russians ahead. The Russians covered their retreat well with artillery and carried away much baggage and many wounded. At 3:30 this morning the Russians made a determined counter-attack at Lamulie with two regiments of infantry and two batteries of artillery. They were repulsed, after a half hour's fighting, with heavy losses. The Japanese left army during the past seven days' fighting has captured 43 guns, a large number of rifles and overcoats and 100 prisoners. The strength of the Russians opposed to the left army were three corps and 39 companies of artillery. All but a very small part were newly arrived troops. The Japanese soldiers were practically the same that fought before Lao Yang. Chinese report that heavy works are ready for the Russians along the Hun river. The Japanese are unopposed where the next stand will be made. Details of the operation of the right and center armies are not obtainable.

BRITISH MILITARY. Cannot Understand Significance Of Kuropatkin's Strategy.

London, Oct. 20.—English newspapers and military critics find it difficult to appraise the exact strategic significance attaching to Gen. Kuropatkin's action on the Shinkai river. It is supposed that his success here lies in having kept three divisions of troops in reserve and it is admitted that the at-

All we can do is give advice. Of course that's easy. But our advice is really worth a little more to you than most people's, for we offer to give you the first bottle of our medicine free, if it fails to help you. We could not afford to do this unless our medicine was good. Each an offer, on the wrong kind of medicine, would put a merchant prince in the poor house. All we ask of you is to try Dr. Miles' Restorative Nervine for your complaint. If you suffer from sleeplessness, nervous exhaustion, dizziness, headache, muscular twitches, melancholy, loss of memory, weak stomach, poor blood, bilious troubles, epilepsy, St. Vitus' Dance, etc., we will guarantee to benefit you or refund your money. tack on Lone Tree hill may have been an intentional counter stroke, after drawing out the Japanese from strong positions. The balance of opinion, however, favors the idea that it was a desperate endeavor to cover the retreat of his forces from the Bentshi district, and that the battle of Shinkai may be considered to have ended in a victory, but not a decisive one, for the Japanese, who were too exhausted to follow up their success.

Special dispatches from St. Petersburg make mention of a crushing defeat of two Japanese divisions. There is no confirmation, however, in any reliable quarter of such a report.

According to the Standard's correspondence with Gen. Kuropatkin, who telegraphed under date of Oct. 15, a Russian battalion which crossed the Taitse river has been almost annihilated. While retreating over a pontoon bridge, the correspondent says, the battalion was overtaken by a regiment of Japanese cavalry, which got its machine guns into position, and swept the bridge from end to end.

Teamsters Threaten to Strike.

New York, Oct. 20.—The truck and wagon drivers who signed in May last an agreement for a year with the New York Truck Owners' association, by which a strike against the association was averted, are reported to be on the verge of quitting their jobs. From 1,000 to 50,000 people would be directly or indirectly affected.

Edwin Gould, first vice president of the International Brotherhood of Teamsters said, in discussing the situation: "The agreement, which provided that there should be no discrimination against union men and also for a fixed wage schedule and abolition of the Sunday work, is being violated eight and left. Not only is it violated in all essential particulars, but some employers are trying to get their drivers to sign individual agreements repudiating the union."

President McCarthy of the Truck Owners' association admitted that there may be employers paying less than the prescribed scale, but he asserted that the union could not control its men.

A successful teamsters' strike would tie up all the wholesale dry goods business traffic and all traffic to and from the piers, east and west, south to Twenty-third street. This takes in the district covered by the agreement.

DIVORCE CANON.

Episcopal Convention is Still Wrestling With the Question.

Boston, Oct. 20.—The forces favoring a rigid divorce canon in the Episcopal church and those who oppose them were present in full strength at today's session of the house of deputies, an agreement having been reached yesterday to consider the issue and settle it, if possible, for the present. The subject came before the deputies again on the question of concurring in a resolution adopted by the house of bishops forbidding the remarriage of "innocent parties" in divorce for infidelity.

The action of the bishops was met yesterday by the committee on canons in the house of deputies, which proposed as a compromise an amendment forbidding remarriage within one year after the granting of a decree by the civil court and compelling clergymen to examine the court records before performing the ceremony.

A VETERAN'S SUICIDE.

His Breast Covered with Medals, A. Englehart Shoots Himself.

New York, Oct. 20.—Unconsoled over the loss of his favorite son and an exile from the fatherland, because he had shot and wounded a German officer, who, he believed, intentionally caused his son's death, Adolph Englehart, a veteran of the Franco-Prussian war, today shot himself dead in the hallway of an East side tenement house where he lived. Englehart was 57 years old. He left a large family and, it is said, a prosperous business in Germany when he fled to this country. Before taking his life, Englehart had pinned on his breast all of his five medals received for bravery during the Franco-Prussian war, including one given him for his services at Sedan.

In Englehart's room were found ten letters, sealed and addressed, some to the police, and others to his relatives in Germany. One bore the address "Oh, Dieser Mörder," which, translated, means, "Oh, That Murderer." It is supposed that the letter is Englehart's farewell message of hate to the officer who he believed had killed his son.

TALK OF INTERVENTION.

Parties in Russia that Want Peace Are Insignificant.

St. Petersburg, Oct. 20, 7:55 a. m.—The Novoe Vremya this morning deprecating the renewed talk of foreign intervention in the Russo-Japanese war says:

"Such talk, if based upon the fact that now and again the voicing of an urgent desire for peace is heard in Russia, must reflect the marvellous ignorance of or indifference on the part of foreigners to Russia's true internal condition. The fact is that in Russia as in other countries, there are several parties, each with a different policy."

Free Test Bottle.

We have been watching for years the grand curative results obtained by people throughout the world by the use of Dr. Drake's Kidney and Bladder Pills. From the experience we have had with it, we know what it will do for sufferers from Catarrh of the Bladder, Stricture, Gravel, Gleet, Stomach Disorders, Bladder and Urinary Disease, Thin Blood, Diseases of Women, Nervous Disorders and Weakness, Constipation and many other diseases of the vital organs. But the main point with us is

How can we get you to know what it will do for you?

We want to interest you in Drake's Palmetto Wine in an open, honest way, because we feel positive that we have a remedy of genuine worth for the cure of certain diseases—but even such sincerity, of course, will not necessarily prove what it will do for you.

We are not trying to conceal anything from you. The title itself tells you what the chief ingredient of Drake's Palmetto Wine is, the essence of the glorious palmetto berry—but that does not prove what it will do for you. We might produce argument upon argument that would convince you as to the merits of Drake's Palmetto Wine, and why it is better than other remedies for the same disease, but we would not want to waste your time. We would send you original letters from over 10,000 people singing the praises of Drake's Palmetto Wine—and even that would not prove what it will do for you.

We could present testimonial letters galore, showing that well-known residents say they were cured of every symptom and disease that we claim to cure with Drake's Palmetto Wine—and still that would not prove what it will do for you. Then what will prove it?

We will send a test bottle free to any one—that will prove.

Yes, that is the best and most absolute proof of charge. You are sick and looking for a cure. We claim to have the remedy for you. The thing for you to do is to send us your name and address, stating the nature of your disease, and we will at once forward a test bottle of Drake's Palmetto Wine, free of charge, and include booklets, etc., on the subject, also free. Drake's Palmetto Wine is not a "drugging process"—it is very pleasant to use, and one dose a day is all you take, but so curative is this wonderful Palmetto Medicine that the one dose daily does the work of many—restores your eyes, clears out the liver, stomach and bowels, strengthens the nerves, purifies and enriches the blood, invigorates the muscles, tones the kidneys, bladder and mucous membranes and makes you once again a rejuvenated man or woman.

Let this free test bottle prove all this to you. **ALL WE ASK IS THAT YOU SEND FOR A FREE TEST BOTTLE. DO THAT TODAY AND YOU WILL SOON BE CURED.**

INHERITED SCROFULA

When a child I had a very severe attack of Diphtheria, which came near proving fatal. Upon recovery the glands of the neck were very much enlarged, and after the free use of iodine, the right one was reduced to its normal size, but the left one continued to grow—very slowly at first, until it was about the size of a goose egg, causing difficult breathing, and became very painful. An incision was made and a large quantity of pus discharged. The gland was removed, or as much as could with safety be taken out. For ten years I wore little piece of cloth about an inch long in my neck to keep the place open. During this time I had to have it cut open by the doctor every time I took cold or the opening clogged. In the Spring or early Summer of 1884 I was persuaded by my wife to use S. S. S., which I did, strictly in accordance with directions. I took twenty-six large bottles, and was entirely cured, for I have not suffered since that time.

eral parties; two of these want peace—the extreme reactionaries, because they constitute what was known in the United States during the Spanish-American war, and in England during the Boer war, as peace at any price men; and the other party, the United States and Canada, who are in favor of a humiliating peace which would weaken the present government. But these parties are insignificant beside the great body of moderate progressives, who wish to see Russia's interior economical capabilities developed to their fullest extent, and who realize that only through a decisive Russian victory in the far east can the world be healed, not plastered, Russia has the opportunity for interior development on which their heart is set."

Astoria. The relatives are attacking the sanity of Miss Dolbeer, who made a testament with her own hand by which Miss Etta M. Warren, her traveling companion, is chief beneficiary to the extent of more than \$100,000.

Miss Warren, at a previous hearing, testified that Miss Dolbeer tripped and fell from the window to which she had gone because of the heat in her room. A city detective, Sullivan, said that Miss Warren had told him the same story. Hotel Detective J. E. Smith, has now testified, however, flatly contradicting Sullivan's report of the interview with Miss Warren, at which both men were present.

"Miss Warren told me," said the hotel detective, "that she had been in the room; that Miss Dolbeer complained she was ill on account of the heat and went into the corridor. Miss Warren said she saw Miss Dolbeer open the window, step on the sill and jump."

Smith was sharply questioned by counsel for the executors, but declared his recollection could not be at fault. The hearing will be continued.

IMPRISONED HERSELF.

Fever Stricken Woman Locks Herself in a Springlock Closet.

New York, Oct. 20.—After a fruitless search, which began last Saturday, and had been taken up by the police of the five boroughs of Greater New York, Mrs. Geo. Singer, 29 years old, has been found locked in a closet within less than a block of her home in east New York. She had been imprisoned four days without food or water.

While her nurse was absent for a few moments last Saturday Mrs. Singer, who had been ill for some time suddenly arose, threw on a wrap and fled from the house in a delirium of fever. Seeking refuge from imaginary pursuers, she hurried down the street, ran into an unused building in the rear of a mansion and closed the door. A spring lock snapped behind her and she was a prisoner.

At lunch intervals the woman screamed and pounded on the door, but the neighbor, paid little attention to the sounds. They had continued intermittently four days. Then a woman passerby discovered the source and rescued the unfortunate. Mrs. Singer, who had searched the city continuously for some trace of his wife, arrived just as she was found. She recognized him at once, and it is believed, with recovery.

The queen and her retinue will then proceed to the city hall, where the keys of the city will be received from the mayor to be used in a symbolical unlocking of the four gates of the city. The evening will be devoted to a parade of floats and maskers and an attempt will be made to reproduce the carnival scenes of New Orleans and Italy.
