GREENHOUSE BIDS.

Three Referred to Special Committee -The Alcatraz Matter.

Five bids were received by the board of public works yesterday for the construction of the Liberty park green house, ranging in amount from \$4,976 to \$8,669. Two of the bids exceeded the sum of \$5,000, which is the limit of cost fixed by the city council, so they were rejected. The others were referred to a special committee, consisting of Chairman Spencer Clawson and ing of Chairman Spencer Clawson and City Engineer Kelsey, for further consideration. The bilders were: Salt Lake Building and Manufacturing company; Hitchings & Co., New York; Foley & Co., Chicago; J. T. Armstrong, Salt Lake; Lord, Burnham & Co., Irvington, N. Y.

The attorney of the Alcatraz Paving company was present and asked that a date be set for the considertion of the \$7.850 penalty assessed against it by the board for failure to complete the Second South and South Temple. Second South and South Temple-street paving within contract time. It is probable that a compromise will be effected, as it is known that the paving was delayed a considerable length of time on account of the company being unable to secure the curbing stone which the contract called for, and it finally became necessary for the coun-cil to amend the contract to allow other stone to be used.

#### HOUSE PASSES RECARDING THE HAWLEY'S BILL

Gives the Judiciary Committee a Some of the Impending Changes Direct Slap in the Face.

AMENDGRANDLARCENYLAW

Larson's Bounty Bill Rejected-Condon's Measure Relating to Mutual Insurance Companies.

The house got down to business yesterday and although it didn't enact lauch legislation, what it did do was well aired and discussed from every point of view. The first thing that came before it was two reports of the judiciary committee, one being Representative Hawley's bill No. 13 amending the law concerning grand larceny. which at present gives the guilty party from 1 to 10 years, and adding to it the penalty of a fine of from \$50 to \$1,-906. The bill as introduced was referred to the judiciary committee, which consists of two lawyers and one layman, who, after considering it carefully, reported it back with their disapproval and recommended that it be not passed. Then the bill came before the couse, consisting of one lawyer and 41 laymen, who, thought they knew best about it and therefore did not agree with the opinion of the judiciary committee and rejected its report and passed the bill by 30 to 12 against, the only lawyer voting with the majority not being on the judiciary committee and leading in the fight against it. Before it becomes a law, it will have to pass the senate and the governor's possible veto.

BOUNTY BILL REJECTED.

The other senate bill No. 10 by Senaor Larson amending the law in relation to the payment of bounties on wild animais then came up and was discussed and finally voted upon and rejected, leaving the law as it now stands.

CONDON'S MEASURE.

Dr. Condon introduced house bill No. 25 providing for the organization of county mutual insurance companies, such companies being made possible by any number of persons not less than 25, residing in adjoining counties, not to exceed five in number, for mutual insurance against loss by fire of lightning. Companies under the provisions of this act are given special eral law. This bill was referred to the committee on private corporations,

EXPLOSIVE STORAGE BILL. Barratt's bill prohibiting the storage of explosives underground by mine op-erators and others was passed.

NEW MEXICO'S PLEA. A memorial from the New Mexico territorial legislature was then read and referred to the committee on federal relations and memorials. The me-morial is addressed to the legislative essemblies of Arkansas, California, Kansas, Missouri, Montana, Nevada, North Dakota, South Dakota, Oregon, Utah, Washington and Wyoming. recites the fact that in the treaty of Guadalupe Hidalgo, the United States solemnly pledged that the territory coded by Mexico should be incorporated into the Union and the inhabitants given the rights of states, and that the national convention of both the Republican and Democratic parties have repeatedly piedged their support to the admission of Oklahoma, New Mexico and Arizona to the Union.

Referring to the statehood bill now pending in Congress it says: That said bill embodies the hopes and aspirations of the people of New Mexiform of government provided for in said bill, as is evidenced by the fact that New Mexico has made as much educational progress during the last decade as any other part of the na-tion, and has a common school system the peer of any in the nation; that within her boundaries there is taxable property of the value of more than \$200,000,000; that she has a sufficient population, who have manifested their devotion and loyalty to the government of the United States by furnishing more soldiers for the defense of the government according to population, in both the civil and Spanish-American wars than any state or territory in the

# SENATORS ELECT

In Committees.

VACANCIES TO BE FILLED.

Secretary Boot's New Plans for Goyeraing the Philippines - Senator Morgan as a Canal Authority.

Special Correspondence. Washington, D. C., Jan. 21.-Enough senatorial elections have been held to indicate a number of changes of chairmanships of committees when the next Congress convenes. There will be little shifting about either among chairmen or membership on the large and more important committees of the senate, few changes being made among Republicans on any of the leading com-mittees. But by the retirement of some senators there will be several changes in the committees of the second class and of the minor committees which sel-dom hold meetings. One of the more mportant changes is caused by the retirement of Mason, who will surrender the chairmanship of postoffices and postroads, Penrose taking the place The latter leaves a vacancy on immigration, and Dillingham will become chairman. Gallinger will become chairman of District of Columbia, leaving a vacancy on pensions, and McCumber will take his place. Jones of Nevada has for years been chairman of the on audit and control of cimittee ontingent expenses, and Kean will take his place. Bard will succeed Si-mon at the head of irrigation. Foster will take McCumber's place on manufactures, and Kittredge will succeed Pritchard on patents.

PHILIPPINE SUGGESTIONS.

Secy. Root has recommended to Congress that the government build extensive railroad systems in the Philppines in order to aid in maintaining a stable government. In the same mail almost he sent another recommendation from the army asking additional appropriations to complete the barracks and quarters for the troops, stating that because the natives would not work, on account of the scarcity of la-bor and the high prices of materials it was impossible to build the barracks cheaply. It would be interesting to know if this peculiarity of the native would not make railroad building expensive. Also the query is suggested if it might not be well under these cirumstances to admit Chinese laborers to the islands.

THE CANAL SENATOR.

Whenever Senator Morgan intro duces a bill or resolution or presents any business in the senate, every person who is at all interested in isthmian canal matters pricks up his ears, expecting that more literature upon that subject is coming. It is the same when he gives notice of a speech. In fact, the average habitue of the senate would gamble every time that when Rep. Brink of Salt Lake introduced bill No. 26 relating to obtaining food, etc., under false pretenses in hotels and boarding houses. Referred to the judiciary committee. A STORY TELLER RETURNS. Evere since the session began there has been gloom in the Republican cloakroom of the senate. Senators met of business, and, as one senator said, altogether too much "shop." The cigars did not taste as well as they should, and the men who make the cloakroom a place of recreation and relaxation found that their committee rooms were more congenial. Suddenly this was al changed. In a day the cloakroom became the pleasantest place in the senate wing. Occasionally, through the open doors would come roars of laugh-

ter, and a peep inside disclosed the fact that John P. Jones of Nevada was sitting before the fire telling stories. For thirty years he has been in the senate, and during all that time he has never been surpassed as a raconteur. GEORGIA NAMES,

One bocmes skeptical at times concerning names attributed to some seccial document there is odd nomenciature in his state. He has asked for an appropriation to build a road from "Crawfish Springs, Ga., through the Widow Davis' Crossroads and Bailey's Crossroads to Stevens' Gap." In many states the board of geographic names has wiped out such names or condensed them so that they are not very much like the original. How it happenes that this board, which has made so many changes, has allowed these in Georgia to escape is something of a
