Utah Affairs.

Washington, 23.—Judge Emerson of the Utah Supreme Court, has had several interviews with Attorney-General Devens, lately, for the purpose of defending Marshal Nelson from the pending charges of official misconduct. The department has concluded to send a special agent to investigate these charges, and also those which have been made against Chief Justice Schaefler, before taking any further action concerning them. action concerning them.

several weeks to come. The Mail Steamship Service. As the question of subsidizing the mail steamship service will be one of the subjects considered by Congress at present session, an ef fort will be made to have inserted in any bill which may be passed, a subsidy clause compelling the com-pany to have the vessels manned

by American teaman. The atten-tion of Congress will be called to the fact that the Pacific Mail Steamship Co., a!though flying the American flag, has its vessels al-most entirely manned by China-men, and in case the United States should become involved in a maritime war, they would be of no account as a reserve force of seamen.
It will be argued that the object of the Government in subsidizing lines is for the benefit of the people of the whole country, and the em-ployment of American seamen should be demanded, that the Gov-ernment may be enabled to secure experienced seamen in case any

Another Embezzler Absconds.

The vicinity of the police head-quarters was startled, this evening, y the announcement that Excise Commissioner Owen Murphy had absconded with a large amount of excise funds. Murphy was treasurer excise funds. Murphy was treasurer heavy. It is feared that hundreds of the Excise Board, and had full of Turkish prisoners and Russian control of the finances. An account was kept at the German Exchange Bank. Murphy was last seen on Saturday afternoon. Present of Saturday afternoon. Present of Saturday afternoon. count was kept at the German Ex-change Bank. Murphy was last seen on Saturday afternoon. Pre-sident Norton and Commissioner Pattison were looking for him all day, to-day, but could discover no traces of him. Early in the evening Mr. Pattison drove up to the

police headquarters but would not divulge the object of his visit. Later-Norton arrived, and the two were closeted with Inspector Thorne. It was then announced that Commissioner Murphy had disappeared a few minutes after eleven o'clock, last night. The foltowing general alarm was sent out to all the police stations: Arrest Board of Excise. He has abscond-

explained by Inspector Thorne in Murphy drew a check for \$50,000, and had it certified at the German Exchange Bank. He next went to another bank, whose name the inspector did not know, and deposited a check and drew out \$10,000. Where the remainder was drawn is not known. Mr. Murphy was ap pointed to his position in the exche

board by Mayor Wickham, and, with President Norton, formed a de:nocratic majority in the board. After a Gang of Forgers. Efforts to bring to justice a gang of forgers who, last spring, endeavoted to negotiate \$200,000 in forged bonds of Quiney County, Itinois, and St. Louis County, Mo, culminated last night in the arrest of Joel N. Hayes, broker, of New Street, Ferdinand Hertz, bro-

ker, Broad Street, and Wm. Muir, 158 Broadway, who were locked up. The detectives hold warrants for the arrest of four other Wall street operators, but their names, although known, cannot be published until the arrests are made. The police and detectives are very reticent, but it is ascertained that the arrests were made on the con-lession of J. H. Husted and Wm. Carrere. It is understood that The Canr's Reception at St. Peters-

The Herald's cable says the return of the Car to St. Petersburg, on Saturday, was the occasion of great rejoicing. A grand ovation welcomed the Emperor. The reception bore every evidence of genuine reverence and homage. It was said, during the dark days, that the Car dare not return to his capitol until he did so behind bayonets, but after what I have just witnessed I am convinced the Emperor would have been just as royally welcomed by the loyal hearted Russian people if he had arrived upon the heels of a crushing defeat in the field. The correspondent, describing the same says, the crowd breaks all restraint; it envelopes him; the people fall down and kiss his garments. So great is the pressure that it is with great delay that his Imperial Majesty can reach his carriage.

He rode into the market place, last night, and shout-ed for Ex-President Lerdo, and when the police attempted to interfere they were fired on and wounded. After considerable shooting, which created quite an excitement, as it was feared that a portion of the troops had revolted, ernment may be enabled to secure experienced seamen in case any naval warfare should occur.

A Vienna dispatch says it is reported from Paris that a very active diplomatic intercourse has been going on between Paris and London with the view of establishing an understanding on the eastern ques-tion, and that the chances of the accomplishment of this object are rather favorable.

Great distress prevails among the poor of Constantinople. The prices of provisions are rising in conse quence of the depreciation of currency. Difficulties are feared if the price of bread rises higher.
