Edward Introduces Bill Providing For County Schools of Agriculture.

SOME OF ITS PROVISIONS.

Plan is to Prepare Students for the State Agricultural College-School Census.

The bill by Representative Edward, introduced yesterday afternoon, is entitled, "An act to establish schools of agriculture and domestic economy; to provide for the creation of county school boards, and prescribing their qualifications, terms of office, duties and powers; for the apportionment of taxes, and to appropriate money for said purpose.

The measure gives counties the power to establish schools of agriculture and domestic economy, fashioned after those now in successful operation in Wisconsin, and provides that two counties may unite in the maintenance of such a school. County school boards of three members are created to admin-ister such schools, the board to consist of the county superintendent and two members appointed by the board of com-Funds for maintenance shall be raised by taxation in the vacounties.

rious counties. Instruction shall be given in the ele-ments of agriculture, including the soil, plant life, animal life, farm ac-counts, manual training.domestic econmy and such other subjects as may be prescribed. Each school shall have farm of at least three acres in connection. The schools shall be free to inhabitants of the counties contribut-

The state superintendent, with the advice of the director of the experi-ment station at Logan, shall prescribe the course of study, determine the qual. fications of teachers and have general upervision of such schools.

The state is to pay half the cost of instruction in two such schools to be selected by the state superintendent, because of their merit. These are to be known as 'improved schools."

TO CHANGE SCHOOL CENSUS. House bills 37 and 38 by Mr. Fishburn relate to the time of taking the school census, changing the date from July 15 to October 31 in cities and counties.

WOOTTON'S BILL.

In course of preparation is a bill by Wootton dealing with municipal cor-porations, and providing, among other things, that cities of the third class shall be privileged to levy a tax of 75 cents an acre on all lands bearing water rights; also regulating the sale of inalso regulating the sale toxicating liquors to persons other than habitual drunkards, and giving cities of the class named power to tax coal and lumber dealers, and in other ways derive revenue from sources not now so affected.

positions of honor and trust, and in such a manner as to gain the confi-dence and the respect of all good citi-zens; but when I think of the mean, unscrupulous fight which has been made against my candidate, 4t makes me feel that the higher walks of life are treacherous and dangerous, and the lower full of obstacles and impedi-ments, and if any one would be secure in either, it must be by his maintaining those principles which are just, praise-worthy and pure, and which inspire bravery in one's self and confidence in others, and that my candidate has maintained his position so manfully, has taught me to love and honor him the more. And, oh, how I would like to know that every citizen of Utah had learned the lesson so well as he, which is wrapped up in the folds of that dear is wrapped up in the folds of that dear old flag, the red, the white, the blue, which says to us all, "He brave, be pure, be true." As I say, if we all could have learned these things and made them part of our very beings, as the man whom I shall name has done, Utah today would be known as she really is and not as some would have her known. I might go on, bringing to your notice the many, many virtues of my choice, but I think it absolutely unnecessary, but I would have you know that he is one of the truest types of American manhood to be found anywhere in this broad land of ours, and his name is none other than the Hon. George Sutherland.'

THE COUNTRY HEARD FROM. **Outside Members Much Aggrieved**

And Will Stand Together. The country members of the house

are up in arms. They claim that they are not given a fair deal and propose, in future, to see that their rights are not trampled upon by "the big fellows from Sait Lake." In the first place they are not pleased with their places on the committees; secondly, they re-sent the movement to repai the bounty law, and thirdly, they feel aggrieved that the governor, in his message, "ig-nored entirely" the necessity for roads and bridges. These matters were dis-cussed at a meeting held last night at the Wilson hotel, and while no definite action was taken, those present ex-pressed a determination to stand topressed a determination to stand to-gether and "demand their rights." The meeting was called by Representative George M. Miller of Emery, and was presided over by Representative Rob-erts of Cache, while J. A. Anderson of Morgan acted as secretary,

Senate Bill number 9, introduced by Williams, is "to prevent art in Utah from starving to death" for lack of encouragement. It provides that the state step in to the aid of the artists state step in to the aid of the artists by purchasing an art collection to be known as a "State Art Collection," to be in charge of the University of Utah's president, and established at the University. It merges the "Alics Art Collection" with the new collec-tion. The fill carries an annual appropriation of 31,000 to be spent in securing works of a t, and provides for the ap-pointments by the govenor of a board of three resident artists to purchase

"meritorious works of art that have been or shall be exhibited at art ex-hibits of standig." The artists are to hibits of standig." The artists are to serve for a term of three years for no compensation. A final clause of the new bill proposes to repai the act es-tablishing the "State Institute of Art."

Record at the local office of the weather bureau for the 24 hours ending at 6 a. m. today

I spent twenty years in experimenting before I felt satisfied that I had a cer-tain remedy for this dread discusse-remedy which would not only clean out the poison, but one which would stop its formation. Barometer reading at 6 a. m., 25.78 inches: temperature at 6 a. m., 35 degrees; maximum, 49; minimum, 28; mean, 34, which is 8 degrees above normal. Excess of the daily mean temperature since the first of the month, 9 degrees. Excess of daily mean temperature since Jan. 1, 9 degrees. Precipitation since the first of the month, 35 inch, which is .40 inch below the normal.

The secret lay in a wonderful chemical I found in Germany. When I found this chemical, I knew that I could make a Rheumatic cure that would be practical-ly certain. But even then, before I made an announcement-before I was willing to put my name on it-I made more than 2,000 tests! And my failures were but 2 per cent the normal. Deficiency in precipitation since Jan. 1, 40 inch.

This chemical was very expensive. The duty, too, was high. In all it cost mo \$400 per pound.
