WILL PURCHASE THE WATERWORKS

Council Accepts Proposition and Citizens Will Approve at the Special Election Sept. 1.

JUDICIAL DIST. CONVENTION

J. A. Howell Nominated for Judge; N. J. Harris for Attorney—S. L. Worker Honored.

Ogden, July 22.—Ogden City will own a waterworks system in less than a year, if the citizens and taxpayers at a special election to be held Sept. 1 vote in favor of it. This was the result of the special meeting of the city council held yesterday afternoon in the council chamber in the City Hall.

Upon the convening of the council the proposition from the waterworks company for the sale of the system for \$155,400 and the city assuming the \$300,000 bonds, was discussed. An option of 15 days is given for the purchase of the system, which will be turned over to the city Jan. 1, 1909, if the deal is carried.

A resolution was introduced and passed unanimously authorizing the law committee and city attorney to prepare the necessary papers for the transferring of the title to the waterworks system from the company to the city.

A second resolution was passed calling a special election for the purpose of voting to authorize the city to borrow \$350,000 by issuing 450 bonds of the denomination of \$1,000 each, pledging the city's faith and credit to pay the same. The special election is called for Sept. 1, 1908, and submits the question of borrowing the money, to the people. If the election is carried, the deal will be consummated, but if the vote is adverse, the proposition will immediately be dropped.

The action—the city will pay for the system will be \$555,400, which includes the purchase price and the bonded indebtedness. Bonds to the amount of \$450,000 are asked for, as about \$117,000 will be received by the city from the special tax levy of 10 mills, making a total of \$567,000 the city will raise.

As the matter now stands it rests with the people, who will decide at the special election the fate of the question of municipal ownership of one of the biggest public utilities that can be secured.
