A hard, dark day it was for us when the constable took poor Jamie to the jail. He was only a boy, scarce turned off twenty; and, though I'm his mother, that night I felt as if my heart was torn out. I had never seen him so sad, and he looked so much like his father, that I could not help but feel that I was not in the least bit of a comfort to him. He was not in the least bit of a comfort to him. He was not in the least bit of a comfort to him.

"Here's the money, mother, that will buy us our Sunday dinner, and all the good things for next week."

I had noticed from a long time that Jamie and Maggie were very kind of each other, and I was not sorry to notice it, for I knew the boy's time and money were not his own, but his father's, and he was not in the least bit of a comfort to him.

"I was a little girl when Jamie and Maggie were born, and on Sunday night Jamie would clothe himself in his best and walk over there, and when he came back, if I changed to be up, it did me good to look into his happy, contented face, as he raked up the smoldering logs in the fire-place, taking his seat in the chimney corner. I could tell by the half-dreamy look in his eyes that Jamie and Maggie's soft curls and rosy cheeks in the flames, and that he was in love."

One Saturday night, however, when he came home later than usual, there was a troubled look on his face, and he did not smile nor speak any of his pleasant words, but just paced the floor in a nervous manner, and seemed uneasy without or not to tell me something that troubled him.

I didn't question, for I concluded that he had had a quarrel with Maggie, and it was a heart-wound that troubled him, talking about it could but open the wound.

He went to bed very soon after he came in. I was about to do the same, when I heard the door open, and looking out I saw a great shadowy figure in the direction of one of the windows—I was glad our cottage was not situated in the heart of the village, for the fire had become very large, and I saw the newspaper said that there was a gang of men engaged in kindling shanties, and that nobody's property was safe, though it was not a very long time before the shanties and barns and churches and public buildings.

A \$1,000 reward had been offered for the arrest of the incendiaries, but for the time being they were kept out of the authorities.

I don't know how it happened, but as I stood there at the door listening to the loud voices, I saw a man in a long coat, and I could not resist associating my dear boy's name with some of the men. I stood just as I was, and looking at the man, I saw a great shadowy figure in the direction of one of the windows—I was glad our cottage was not situated in the heart of the village, for the fire had become very large, and I saw the newspaper said that there was a gang of men engaged in kindling shanties, and that nobody's property was safe, though it was not a very long time before the shanties and barns and churches and public buildings.
