

## JAPANESE PUBLIC REALLY INDIGNANT

Now Treaty is Ratified Agitators' Energy Will be Concentrated in Attack on Cabinet.

### PLEDGES WERE NOT FULFILLED

Special Session of Diet Was Not Called as Promised—Exchange of Treaty Ratifications.

Tokio, Oct. 5, 11 a. m.—In passing the peace treaty yesterday the privy council has clearly impressed upon the anti-peace agitators the impossibility of a refusal to ratify it. The energies of the latter will now likely be concentrated on an attack upon the cabinet.

Public demonstrations expressing the national indignation against the peace treaty will, it is believed, cease, but this outward suppression of feeling will only create a strong undercurrent of disaffection which if allowed to grow will swell the popular rage. Unwise resistance and any attempt to suppress popular opinion may, it is feared, give rise to acts of violence.

Well informed people, while appreciating the wisdom of putting a stop to the war, are indignant at the half measure policy of the government as exhibited for instance, in the partition of the island of Sakhalin.

The public is keenly intent awaiting an explanation from the government but the promise to convene a special session of the diet immediately after the conclusion of the peace, not having been fulfilled, it is growing impatient.

### EXCHANGE OF RATIFICATIONS.

Washington, Oct. 4.—Ratifications of the treaty of Portsmouth will be exchanged at Washington between Baron

Rosen, the Russian ambassador, and Mr. Takahira, the Japanese ambassador, as soon as these important documents are received from St. Petersburg and Tokio. The ratifications will contain the French and English texts of the treaty. This was decided at a conference today between Baron Rosen and Mr. Takahira which began in the Russian ambassador's apartments and was concluded at the state department. Mr. Takahira called on Baron Rosen this morning to find out from him the usual form of the Russian ratification. In order that the minister might inspect a copy, they went to the state department where Mr. Aden, the third assistant secretary of state, received them and showed the ratification of the treaty. Minister Takahira will inform his government fully on the subject so that the ratifications may conform. The special powers to be conferred on the two plenipotentiaries enabling the exchange of ratifications will be identical in scope.

The approval of the treaty by the

privy council at Tokio in effect ratifies the convention, and it is expected the formality of the emperor's signature will follow shortly. As the treaty becomes effective as soon as ratified, the exchange of ratifications is only a formality.

Japan will be ready to exchange as soon as the emperor's signature is affixed, and the formal ratification can be prepared and delivered at the legation here. It is not believed that the Russian ratification will be long delayed. Diplomatic relations between the late belligerents have been resumed at Washington. Returning the courtesy paid him in New York by Baron Rosen, who called several times on the Japanese plenipotentiaries, Mr. Takahira made his call this morning personally as well as official, and the two envoys have corresponded frequently since the treaty was signed.

No arrangements have been concluded for the ceremony of ratification, but it probably will be an even more simple ceremony of the signing of the treaty at Portsmouth. The chief difference between the two ceremonies will be the presence of President Roosevelt, who will be invited by the two envoys to witness the exchange. It is probable that the president will place the White House at the disposal of the envoys on this occasion.

## ROOSEVELT IS IN DEAD EARNEST

He is Still Determined That Railroad Rate Legislation Shall be Enacted by Congress.

### SO DECLARES REP. TOWNSEND.

Senate Committee on Interstate Commerce is Expected to Prepare a Bill.

Washington, Oct. 4.—"President Roosevelt is dead in earnest on the question of railroad rate legislation, and is just as determined as ever that railroad regulations shall be enacted looking to federal supervision of the freight rate situation."

This statement was made today by Representative Townsend of Michigan, one of the authors of the so-called Esch-Townsend railroad rate bill.

Representative Townsend called today to talk over the general subject with the president, and of the necessity for the making of changes in the measure which he and Mr. Esch proposed last winter. Mr. Townsend did not have opportunity to go fully into the subject with the president today, but the president requested him to call again tomorrow.

"I have no authority to represent the president's views as to railroad rates," said Mr. Townsend, "but I can say that he entertains now the same views in principle as he expressed in his message last December. The crux of the whole matter is not that the commission should fix the rates, but that it should have the power to substitute a reasonable rate for one found on investigation to be unjust. Without such authority the evils complained of could not be reached."

"Have any suggestions been made of changes in the Esch-Townsend measure?"

"Some changes may be made," re-

plied Mr. Townsend, "but they will be for the purpose of making the bill clearer on certain points. It is intended, of course, to include in the regulations private cars, refrigerator and terminal charges. We thought they were covered by our measure, but in order that there may be no question about them they will be included in the bill in a definite way. One thing is quite certain—there will be no narrowing of the scope of the bill nor modification of the principles involved."

Mr. Townsend said it was expected that the senate committee on interstate commerce would prepare and report a measure to regulate railroad freight rates. While he did not have a definite idea as to the scope of the senate measure, he regarded it as doubtful whether the members of the senate committee would agree with Senator Foraker that the proposition involved only a question of methods.

### OHIO POLITICAL SITUATION.

Chairman Dick Has Conference With President About It.

Washington, Oct. 4.—Senator Dick, chairman of the Ohio Republican executive committee, had a conference with President Roosevelt today relative to the political situation in that state.

The president is particularly interested in the approaching Ohio election and told Senator Dick he would do everything in his power to insure the success of the Republican cause there this fall. Senator Dick is anxious that as many members of the cabinet as possible may make speeches in Ohio during the campaign and it has been agreed tentatively that Secys. Taft, Shaw, Wilson and Bonaparte and Atty.-Gen. Moody will participate in the campaign.

### CHARGED WITH SWINDLING.

An Attorney and a Business Man Locked Up for It.

Bridgeport, Conn., Oct. 4.—Charged with swindling Henry G. Wheeler, a wealthy

farmer of Stratford, out of \$17,000 Frank L. Rodgers, an attorney of this city, and D. K. Tripp, a New York business man, are locked up at police headquarters in default of bail of \$10,000 in each case. A warrant was issued tonight for the arrest of William Sulphur of New York and to be Tripp's business partner. Sulphur is alleged to have had a hand in the operations, which Mr. Wheeler says cost him over \$17,000. Wheeler says that Rodgers and Tripp gave him a bundle of worthless securities in return for his endorsement of checks. Rodgers and Tripp deny the charge.

# GLAD TIDINGS TO SHOE BUYERS

## FRIDAY MORNING, OCTOBER 6, AT 9 O'CLOCK

### THE SHOE MARKET

Salt Lake's newest and greatest Shoe Store opens wide its doors and extends the right hand of fellowship to the many thousands of shoe buyers who have grown weary of paying extravagant prices for footwear. This city is indeed fortunate in being selected as Western headquarters for Eastern Shoe manufacturers, who use this method of disposing of surplus stocks and stocks upon which they have had to foreclose; this store is one of 26 which are in operation in the principal cities of the United States. And what will be the result? No more will people here be called upon to pay enormous prices for shoes. They now have the first chance ever offered in Salt Lake to buy shoes at manufacturers' cost. Competition will tremble with the opening of the doors of this greatest of Western shoe emporiums, for it means the complete annihilation of prices and the introduction of the nation's best footwear. But what do you care for the other fellow? It's shoes that fit, at a great saving of money, which interests you.
