May 16, 1879.

EDITORIAL NOTES.

The ginger plant is being sice fully cultivated on moist lands in

ly traced to the use of violet powder, which was adulterated with white amenic.

An infidel lecturer who gave his audience an opportunity to ask questions, in the East, a week or two ago, was rather non-plussed by a woman, who arose and said: "Sir, my bellef has saved my husband from a drunkard's grave and made me and him happy. What has your betlet done for yoa?" The new notice that on Thursday next he would ask the Senate to considbenefits of unbelief are rather difficult for anybody to explain or dis.

Sugar from sorghum, says the Prairie Furmer, is always grape, not cane sugar. But cans sugar may be converted into grape sugar by long boiling, and this may be the process by which the saccarine in the ancehous by which the saccarine the process by which the saccarine ship sarries, could not be realized the process by which the saccarine in the sorghum is converted into that article. Glucose is easily used is it proposed new legislation. Edmunds spoke in opposition to to adulterate cheap sugar, and receiving the amendment. sorghum growers had better use it Wallace reported, with amend-ments, the Senate bill in relation three or four prices for it mixed placed on the calendar. It author-

three or four prices for it mined with came sugar. Ero. Wm. Harrison sends us a note explaining what ingredients are noteenaty to the manufacture of gians. As the needful elements can be obtained within our borders, and gians is one of the absolute ne-consities to our comfort and conve-nience, we ought to have one full-blown gians factory at least in the blown glass factory at least in the Territory, and we believe the manof glass could be carried on with great profit, and at the same time would furnish employment to many persons here who have been acquetomed to the bust-

tion and a mars. They destroy their natural beauty instead of heightening their charms. Any-body can discern the imposition. Natural flesh color is far more at-tractive than the dead, corpsey whiteness the ladies so much affect. And the powder stops the pores, obstructs the circulation, spots the skin and works gradual diafigure. infantry regiments to 15, and these are to be effected by transfers and consolidations. The President is akin and works gradual disfigurement. A healthy action of the

Coal tar applied to fruit trees will sectorally damage and generally destroy them. Experiments made with it as a preventive sgainst the mere copylsts, striving to march in all's department, and inspector with it as a proventive against the ravages of mice, in Massachusetts, resulted in killing more trees than mice, and nearly ruining the orchard where it was applied. Ladies, be cautious in the use of violet powder. An epidemic pre-vailed among young children in London, a short time since, result.

"BEAUTIFUL FOR EVER."

Everybody with any faculty for observation who has visited the British metropolis, must have no-ticed the invitation, extended to ladies by one Madame Rachel, to be made "beautiful for ever." That servation who has visited the be made, "beautiful for ever." That amount of money by playing upon the vanity and credulity of her sex, and in too many instances, it is to be feared, has not only depleted ed their pockets, but ruined their complexions. By means of washes, and baths are in the interview of the interview of the time interview of the interview of ed their pockets, but ruined their complexions. By means of washes, and baths, and ointments, and enameiling preparations, Madame Rachel professed to be able to im-part a perpetual bloom to the faces of her patrons; and as the ingredi-ents used were represented as very costly, abs gathered in many pounds stacling as well as a harvest of victims.

But the "beautiful for ever" ewin-dier has come to grief. A Mrs. Pearce, who is the daughter of Ma-rio, the celebrated opera singer, ofter being cheated out of a great deal of money, obtained from her seem determined to obstruct boa lish enough to place some jewels Madame Machel's hands until

ahe could obtain the cash to redeem m. All that the deluded lady obtained as the reward of her folly and duplicity, was a full crop of simples which spailed what little facial beauty she possessed. And when she tried to regain postention of the impostor, and she has een sentenced to five years' penal servitude; for, English courts have a short method of dealing with such frauds, when the evisuce is sufficient to convict, and the loopholes, and subterfuges, and peculiar modes of American jurisprudence in favor of criminals, have

not yet become engrafted on the

British system. Everybody will say "served her Merilin right," when speaking of the fate of the trader on feminine vanity. But how many moths will be smar-ed away from the candle that burned of May. After baing arrested, the daughter of Mario?, Not many. Another Rachel, under a different title, will arise, and the "beau for ever" business will still go on. How many fair faces are being spoiled, right here in Utah, to-day, by the use of proparations as inju-rious as the "beautiful for ever" compound? Take a look at the compound? Take a look at the ladies in the Theatre, or al any public gathering, and note unnatural, even ghastly, white of their countenances. Go hear enough 'and you can see the powder or paste sticking upon them like plaster upon a walt. And the daughters of Zion insitate the nasty, ugly and injurious style the masty, or y and injurious style amount recommended in the Hauss for committee on appropriation mount distant places of infamy. It is a shame to them. It is also a dain-
