

# MINING, BUSINESS AND STOCKS

## MARKET ON THE STOCK EXCHANGE.

Bidding Throughout Light and Spasmodic—Columbus Con. is Still Strong and a Favorite.

## ARE INSPECTING THE MAJESTIC.

Officials of Company on the Ground And Planning for Future Work And Operation.

The market on the stock exchange experienced a slight slump today. A larger variety of stocks were dealt in, and a number of the old favorites were noticed. Few sales were recorded, and the prices were somewhat under yesterday's mark. A total sale of 14,690 shares brought a consideration of \$1,703.37. The bidding throughout was light and spasmodic.

Daily-West was still on the decline, with 13.10 bid and 13.50 asked. No dealing was done on the regular call, but the sale of a small lot was recorded on the open board at 13.40. May Day and Star Con. were moderately active; considerable of the former selling at 14 1/4 cents, and the latter slightly weaker at 14 1/2. A small lot of Tetra went at 28 cents and Victor Con. was on the market at 3 1/2 and 15-16. Goldfield-Bonanza sold at the usual figure, and Mammoth at 1.45 and Con. Mercier at the lower mark of 27 1/2 cents. On the open board, Columbus Con. was still strong, with little on the market at the prevailing price. Following are today's quotations and sales:

## INSPECTING MAJESTIC MINE.

Officials of the Company on the Ground And Planning for Future Work.

Special Correspondence.

Milford, Utah, Aug. 29.—President William B. Mucklow, and George Kellogg, one of the directors of the Majestic Mining company, are here looking after company affairs, and are making an exhaustive examination of the various properties included in the holdings of the association. In this work they are being assisted by General Manager E. F. Freudenthal, who since taking hold, has been pushing exploratory work in a manner that has been most pleasing, as several new discoveries have been made under his able direction, and lost ore bodies have been found, some of the credit for which is largely due to the recent visit of Henry Rives Ellis of Salt Lake, to our camp, as this gentleman made a thorough inspection of the mines of the company, and submitted several pointers to Mr. Freudenthal, which, when followed out, resulted most favorably in adding to the value and permanency of these fine properties.

It is understood that the object of Mr. Mucklow's visit here at this time is to determine the ore tonnage in sight in the various mine workings, and that he will take a week or more in making examination along this line, the report to follow to be submitted to the new directors of the company at a later date.

The people of Milford, as well as those interested in the affairs of the company, and its future prosperity, are much pleased with the personnel of the new board, recently elected, and believe that the company will now bring success out of failure, and that in due time the Majestic will have reached a producing and paying basis.

## NEW MAGNETIC PROCESS.

Successful in its Application on Ores From the Old Star Mine.

The Cherry Creek, Nev., correspondent of the Ely News says:

We gather in an interview with one who knows that the new magnetic process at Colorado, that has been testing ores from the various mines of the Glasgow and Western Exploration Co. has proved a great success and the ores worked from that company's mines at Cherry Creek, viz., the Star and Grey Eagle, by the process, worked up to about 94 per cent. This is indeed news

## BIG IRON DEAL IS ON IN UTAH.

Eastern Syndicate is After Bessemer Iron in Bull Valley District in Washington Co.

## THE RED WING EXTENSION.

Fine Body of Good Milling Ore Below Tunnel Level in This Promising Bingham Mine.

Daniel Page of Little Pinto, Iron county, this state, who has been in the city for several days, has returned home, his expectation being, when he left, that he would be back here within a week or 10 days.

The business that called Mr. Page to Zion involved the possible transfer of a big iron proposition in Bull Valley district, Washington county, in which he holds a controlling interest, and the "News" is advised that a representative of a strong eastern syndicate is here who is more than anxious to secure this valuable property for his people, the parties interested in the proposed purchase having no connection whatever with the "Colorado Fuel & Iron company, as some have supposed.

The property in question, it is stated, embraces the largest deposits of Bessemer iron ore ever discovered in the west. As a matter of fact, it is claimed that the deposits are enormous, and that the purchasing party will secure one of the greatest industrial propositions ever yet offered in this territory.

Mr. Page, who is the ore, besides existing in great quantities, goes the lowest in phosphorus, silica and sulphur, and higher in iron than any iron ore yet discovered. The property is a series of acres and not very far from the line of the San Pedro road, and there is plenty of water on it for all milling purposes.

It is anticipated that, upon Mr. Page's return to the city, the deal will be consummated, and that the new owners will begin at once the development and operation of their valuable acquisition.

## CONCENTRATES.

E. C. Parsons has returned from a visit to Boise, Idaho.

George Arbogast departs for Nevada today on important mining business.

W. G. Adamson, of Winnemucca, Nev., the well known mining man, is in the city.

The Maxfield mine, in Big Cottonwood canyon, made a shipment of high-grade ore today.

R. L. Hughes, a director of the Ohio Copper company, at Bingham, is here from the east inspecting the property.

Taylor-Branton ore receipts for today are two cars from Idaho, one car from Big Cottonwood and one car from Tintic.

R. E. Coleman is visiting the Lluvia de Oro mines in Enrique district, Chihuahua, Mexico, in which he is heavily interested.

The South Swamsea of Silver City, marketed three cars of ore yesterday on controls showing values of 25 per cent lead and 30 ounces in silver to the ton.

Frank Wilson, who is heavily interested in the Johnny mine, at Stateline, returned home yesterday from a visit to this property.

The E. & F. mine, of Pioche, was in the market yesterday with an offering of ore that assays 45 per cent lead, 11 to 15 per cent copper and 40 to 60 ounces in silver to the ton.

The mill of the Nampa Mining company, at the company's mine on Miller mountain, in Idaho, is treating 15 tons of ore daily, and is making a saving of 85 per cent of the gold value on the plates.

Word comes from Stateline that in the Crook mine the face of the drift from off the main workings is in a body of ore that averages 40 per cent lead to the ton. It is also stated that an extension of the Crook vein has been encountered in the Johnny mine on the 20 level, east.

It is announced that the Western Ore purchasing company, of Reno, Nev., will soon begin the construction of a large sampling plant, at Mound House, between Reno and Tonopah, and that contracts have been made with the Nevada Electric company for 75-horsepower for the motive power for the plant.

The "News" is informed that M. Burns of Stateline, has made arrangements for the building of a 10-stamp mill on his Wasp mine, at that place. The plant will be erected by E. A. Davidson, in return for which he is to be given a three-eighths interest in the Wasp mine. According to contract the mill is to be ready for operation within a period of six months.

L. L. Nunn, general manager of the Teahvale Power company, whose Utah plant is located in Provo canyon, has an electric exhibit at the world's fair that is attracting a great deal of attention. It is reported that Mr. Nunn has secured large water rights at Niagara Falls, and that he is making arrangements to transmit electric power to Buffalo, Rochester, Utica and Albany.

Wilbur F. Babcock, manager for the New York Giant Mining company, operating in the Deep Creek country, has returned from a visit to New York City, where he has been in consultation with the officials of his company. It is stated that he is planning for the resumption of work in the extensive development of this promising and valuable property.

At a recent meeting of the stockholders of the Majestic Copper Mining company, a new board was elected, as follows: William B. Mucklow, president; John M. Dick, vice president; J. B. Pierce, treasurer; H. W. Robinson, secretary; Frank H. Edson, assistant secretary; Jerome C. Smith, Col. Henry Altman, F. O. Peabody, Dr. H. G. Howe, Prof. C. A. Fiddock, George P. Kellogg and George W. Wilson. A bond issue of a million has been authorized. President Mucklow is now at the company's mines in Beaver county.

The Western Association of Technical Chemists and Metallurgists, with headquarters in Denver, will soon hold its annual election for president and board of control, and voting blanks are be-

ing sent out to the members of this institution. The Utah membership is as follows: William Bunn, of the University of Utah; William Bright, chemist and assayer, Salt Lake; B. W. Deason, assayer, Park City; C. W. Deason, school of mines, University of Utah; C. J. Hainbold, assayer, Kimberley; W. J. Plunhof, chemist, Bingham; A. W. Russell, metallurgist, Kimberley; and Duncan Turner, chemist, Kimberley.

## CONGRESSIONAL CAMPAIGN.

Chairman Babcock Says it is Closest Since 1898.

Washington, Aug. 29.—Chairman Joseph Babcock of the Republican congressional committee today expressed the opinion that the present is the closest congressional campaign he has experienced since 1898.

"What are the conditions which make the congressional campaign closer this year than it has been since 1898?" Mr. Babcock was asked.

"They differ in localities," he responded. "In some the conditions result from the character of the national campaign. In others the conditions are almost entirely local. Then, in some cases, the difficulty is over the kind of men nominated for congress. In Nebraska, where there are six members of the house to fight, the Democrats have abandoned the national campaign. They have fused with the Populists on the legislative and congressional tickets, but not on presidential electors. Nearly all congressional districts in the state are close. We redeemed four of those districts two years ago, but they have been going one way or the other by very narrow margins—not by 200 or 300 or 400, but in some instances by 12 or 15 or 20 votes. Now the congressional committee has to go into them without the usual support from the national committee.

"There is not much interest in campaign literature," said Mr. Babcock. "We are sending out speeches on the tariff and some matter relating to the Panama canal, also a few Democratic speeches, like that of Bourke Cockran on the tariff. But we have not had a real campaign of education since 1898. I have never sent out as many documents in any one year as this.

"We expect to have a good deal of speaking. There are about a dozen of the leading Republican members of the house on whom we are relying. Chief among them, of course, is Speaker Cannon, who is a splendid vote-getter on the stump. He is going to start out soon by speaking in the city and will be accompanied on a part of his trip by Representative Watson of Indiana, and on the rest of his trip by Representative Adair of Minnesota.

Mr. Babcock returned to New York tonight.

## MARSHAL KILBURN DEAD.

Was Shot by Howard Chenoweth While Trying to Disarm Him.

Silver City, N. M., Aug. 29.—City Marshal William Kilburn, who was shot by Howard Chenoweth while trying to disarm him in a fight, died here today. Chenoweth killed Constable Perfecto Rodriguez and wounded two men here he was stopped by a load of shot from a shotgun in the hands of Deputy Sheriff John Collier. A trouble was the result of a cowboy fight.

## Deputy Collector Hathaway Dead.

Helena, Mont., Aug. 29.—James W. Hathaway, one of the postmaster of the house of representatives, died here today. He was a deputy internal revenue collector with headquarters in Helena and had served for several years in the Helena county for two years. He was born in Cortland, O., in 1844.

## Boer Treasure Found.

Johannesburg, Aug. 29.—Mr. Kemp, a cousin of Gen. Kemp, the Boer commander, has discovered beyond Spelonken, in the northern Transvaal, the treasure removed from Pretoria during the entry of Field Marshal Lord Roberts. The value of the treasure is \$1,250,000, of which the government will receive half.

## Murderer Executed in Duluth.

Duluth, Minn., Aug. 30.—William Courand, who murdered his wife at Duluth, was executed here today. He was hanged at Walker, Minn., at 1:37 this morning. He was pronounced dead seven minutes later.

## Albert Vickers Wounded.

London, Aug. 29.—Albert Vickers, head of the firm of Vickers Sons & Maxim, has been accidentally shot by a companion while grouse shooting in Sutherland. His injuries are not serious.

## Negro Shot a Policeman.

Danville, Va., Aug. 29.—Policeman J. J. Hall was shot tonight by Jack Dillard, a negro, for whom officers have been searching for a week. Hall was probably hit. A mob estimated at 1,000 is now looking for Dillard, and if captured a lynching may result.

William Carter, colored, has been arrested. He was shot through the hand. He was with Dillard at the time of the trouble. The negro has been taken to Chatham, the county seat, for safe keeping until today, when he was shot by the negro who shot him, which would lead to the supposition that Carter is the guilty man.

No trouble is anticipated unless Dillard is arrested.

## Veteran of Two Wars Suicides.

Detroit, Mich., Aug. 29.—Maj. F. E. Edmonson, of the Twenty-first and Twenty-fourth regiments of United States infantry, a veteran of the Indian and Philippine wars, committed suicide today in his room by shooting himself through the mouth. Despondency was the cause of the act.

## Editor Whitney of Hawaii Dead.

Honolulu, Aug. 29.—Via San Francisco, Aug. 29.—N. M. Whitney, the founder of the Pacific Commercial Advertiser, is dead in Honolulu from heart disease, aged 80 years. He came to Hawaii in 1849 and in 1856 he started the Advertiser. He was its editor for over 30 years, and was editor of the Planters' Monthly up to a year ago. He was also editor of the Kuokoa, a native newspaper having wide circulation. In 1850 he became head of the island post office affairs, establishing the present system.

## Only Defended His Mother.

Chicago, Aug. 30.—In defending his mother, Robert Scott, a negro, was shot and killed John Costello. Scott was arrested.

According to witnesses the shooting was the culmination of a dispute over the stockyards strike. Costello has been boarded with Mrs. Scott many years, and soon after he returned from work, he and his landlady quarreled. The woman is said to have referred to Costello as a "strike-breaker" and, he is alleged to have knocked her down.

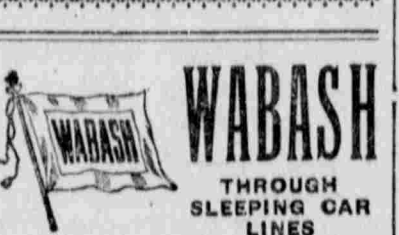

Scott called Costello to account and went to a hardware store, bought a pistol and shot the man.

## TEA

"It takes one out of himself and makes him forget himself."

"What a comfort!"
