sage of the Evans bill has taken a club from the hands of the professional agitator in Utah; it has also placed a discount on the services of the sneak. The bill will clear the social atmosphere of Utah; it will drive religion out of politics; it will establish good feeling. Of course we may be wrong and altogether too optimistic in our views, but there are good reasons for our belief. For years one of the principal voca-tions of certain men in Utah has been to make capital of the "Mormon" ques-ton. When they had some sneaking dirty work to perform, which required a screening cloud, they resorted to the tricks of the scuttle fish, and fillall Utah with dark rumors and charges and while the people were thus distracted they gained their purpose. They played this scheme in matters of politics principally. Well, we hope the Evans bill has made it impossible for such indexia is a second to be a second to be a second for such indexia is a second to be a second

for such trickery to be longer made to serve their baseness. Then there is the Peeping Tom-the crawling, low, sneak, We know the Evans bill will tend to make a man out of the spy by taking from him the temptation to prowl around and smell out the odoriferous. Ogden Standard March 13: The pas-age of the Evans bill has aken a club from the hands of the University of the Standard March 13: The pas-base above that of monkey life, so Darwin tells us. If the Evans bill will make the sneak walk upright-like a man among men-then it will accomplished at least one good have result

When the Gentiles come to understand that there is no disposition on the part of the Mormons to deceive them or to retrograde to the polygamous conditions of twenty years ago but simply a desire to be free from the parasites which have persisted in preying on the misfortunes of the people of the dominant Church of Utah by making capital of religiou prejudice, then an era of good feeling and profound peace will be ushered in and happiness will abide in Utah.

But if we, as Gentiles, are in doubt and are not prepared to accept the professions of the leaders of the Mormon people that there is no ulterior motive in the Evans bill, then what should be our course? To cry havor and disgrace ourselves and all Utah? No, but to set quietly to work, with-out hatred or a disposition to stir up strife or cause heart-burnings in this, our home, and ask for a constitutional amendment against polygamy, fornica tion and adultery-an amendment that will reach from Maine to California and which will keep a watchful eye on sinner and saint alike. If Gentiles can stand such an ordeal, no doubt the Mormons will submit without complaint.

The case against him was positive and he was let of with a light fine of \$25, which he promptly a light line of \$25, which he prompty paid. his insults are so badly frightened that they are unable to give any description of him. He has become so bold of late that he even insults ladies on street cars. A few evenings ago a young lady who this morning and told a tale of assault and battery to County Attorney Chrisresides in the eastern part of town, boarded an east bound car, accomtensen, being as follows: On March 1st Mr. Westlund attended a dance at panled by an escort. There was one other person on the car and he was Sandy, and while in the company of a other person on the car and he was none other than the dangerous un-known referred to. The car stopped on Eighth east, and the gentleman who was with the lady alighted first, and as she arose to get off the car the same mysterious creature exposed himse''. Allsop came up in the darkness and dealt him two stunning blows on the jaw, knocking The lady was so badly scared that s a was unable to speak for some time, and the matter was not reported until the next day. The police are doing all in their power him to the ground and leaving him in an unconscious condition, breaking his jaw. Mr. Westlund regained his feet to capture the man, and will much ap-preciate any and all assistance that the then he received two more blows. After this he made his way home, where he has been laid up for several days as a result of his injuries, and today came to this city and had a consultation can render in bringing the fel-

The upper stories to be used for stu-dios for artists and musicians. It looks very much as if Salt Lake will soon have an academy of fine arts.

The second excursion of prominent and wealthy New Englanders, under the direction of Raymond and Whitcomb, came in last night, and the party is registered at the Knutsford. There are fifty excursionists in the party, which will spend the day in Salt Lake, and leave tonight for Denver. They left New York several weeks ago, went the southern route to California and from there came to Salt Lake. The party is under the personal direction of C. W. Smith.

WHY SO MANY FAIL.

The Reason So Many Catarrh Rem edies are Unsuccessful.

There are few troubles, for which there are so many remedies nor which called "cures" as for catarrh and it may be added there are few diseases so difficult to really and permanently

Inhalers, sprays, powders and douches are all applied locally and give tem-porary relief, often for only a few hours, and it is doubtful if anything like a real cure of catarrh was ever accomplished by the use of local applications.

Catarrh is a constitutional disease, it is in the blood like rheumatism and to cure it requires an internal medicine to act upon the blood, to drive out the catarrhal poison from the system en-tirely and anyone can readily see that that a salve or powder or inhaler which sim ply clears off the mucous membrane of the nose and throat can have no effect on the real cause of catarrhal disease The remarkable success of the new

catarrh remedy, Stuart's Catarrh Tab-lets is because it drives out of the sys-tem through the natural channels, the catarrhal polson, the germs of grip, bronchitis and consumption and causes the hawking, spitting and gagging because the excessive secretion is no longer supplied when the blood is made healthy from the regular use of Stu-art's Catarrh Tablets.

The remedy is in the form of large 20 grain lozenges, pleasant and palat-able composed only of wholesome an-tiseptics and so safe to use that little children use them with perfect safety and benefit if the little one is suffering from colds, croup or cough from any cause.

Stuart's Catarrh Tablets have been on the market scarcely one year, ye they have met with such popularity and success that druggists everywhere in the United States and Canada now have them in stock and report a constantly increasing demand for them.

AMUSEMENT'S. Mid-week matinees are institutions as yet unfamiliar to.Salt Lake, and It is doubtful whether they will ever be strongly successful, at least while the

schools are in session. Madame Modjeska's fine delineation of Mary Stuart went yesterday afternoon to many empty seats. The pity

was all the greater that the performance was in many respects the most charming and finished with which Modjeska has yet favored us. The play is by the great poet, Schiller, and has long been in Modjeska's repertoire. It was one of the features of her engage. ment in the Walker Opera House years ago; time has not staled the infinite variety with which she invests it, and she entirely charmed her auditors by she entrety charmed her auditors by her delineation. Another pleasant fea-ture of the afternoon was the strong hit made by Mis Hassett as Queen Elizabeth: her acting was a decided surprise, and in places she quite divided honors with the star: Mr. McLean filled the role of the lover well, and Mr. Johnstone was an admirable Burleigh. "Mary Stuart" will be repeated to-night and should draw a great turn-

Friend to Friend,

It is not so much what the news-papers say, as what neighbor says to neighbor, or friend to friend, that has brought Chamberlain's Colle, Cholera and Diarrhoea Remedy into such gen-eral use. It is as natural for people to express their gratitude after using this remedy as it is for water to flow down bill. It is the one remedy that can alremedy as it is for water to how down hill. It is the one remedy that can al-ways be depended upon, whether a baby be sick with cholera infantum or a man with cholera morbus. It is pleasant, safe and reliable. Have you a bottle of it in your home?
