# THE MORMON QUESTION.

The Danites appearing here last In point of fact, there was never such an organization as the Danites. The only gentiles who were those who had to jump the Territory on account of debt, and the only ones who were forced to remain were those who were caught before they could default, and held by the action of the courts until their accounts were settled.

It is a very easy matter to defame and persecute a comparatively unknown religion, and those who deto put up these popular ideas against them, and faist them with prejudicial intent upon the public.

We know little of the Mormons except these facts, and these we know, that on every occasion possible, whether in Illinos or elsewhere, they have been victimized by the set of people whom they call gentiles, and who by humanity are termed thieves.

Their habits and mode of life in Utah are frugal, industrious and honest-far honester than that of any people in any other part of the country. Their crime is that they make honest women of the women they desire, instead, as is so generally the case elsewhere - pros-

> DAVID O. CALDER, Salt Lake City.

The following Cure is probably the most remarkable ever effected by any med!cal preparation for the treatment of Catarrh:

Gentlemen,—I hereby certify that I have had Catarrh for ten years, and for the last six years have been a terrible sufferer. I was rendered partially deaf, had buzzing in the head, pains across the temple, dizzy spells, weak and painful eyes, swollen and ulcerated tonsils, hard and constant cough, severe pain across the chest, and every indication of consumption. My head ached all the time. The matter accumulated so rapidly in my head and throat that I could not keep them free. Frequently at night I would spring out of bed, it seemed to me, at the point of suffocation. I would then have recourse to every means in my power to dislodge recourse to every means in my power to dislodge the nucus from my throat and head before being able to sleep again. For a period of six years my tonsils were ulcerated and so much inflamed that I could with difficulty swallow. I finally consulted an eminent surgeon in regard to a period of six years my could with difficulty swallow. I finally consulted an eminent surgeon in regard to an operation on them, but at his request postponed it. The constant inflammation and ulceration in my throat caused by the poisonous matter dropping down from my head had so irritated and inflamed my lungs that I coughed incessantly,—a deep, hard cough. Meanwhile my system began to show the effects of this disease, so that I lost flesh, grew pale, and showed every symptom of an early death by consumption. When matters had reached this stage, or about six months ago, I began the use of Sanford's Radical Curre for Catarra. After using the first bottle I began to improve rapidly. The first dose seemed to clear my head as I had not known it to be for years. It seemed gradually to arrest the discharges. It stopped my cough in three days. By using it as a gargleI soon reduced the inflammation and swelling of my tonsils, so that they soon ceased to trouble me. The soreness across my chest disappeared, the buzzing noises in my head ceased, my senses of seeing and of hearing were completely restored, and every symptom of disease that had reduced me to the verge of the grave disappeared by the use of Sanford's Radical Curre for Catarra. Of SANFORD'S RADICAL CURB FOR CATARRIL. I have been thus explicit because, as a druggist, I have seen a great deal of suffering from Catarrh. and hope to convince many that this is a great

I have used every kind of remedy and apparatus that have appeared during a period of six years past, and have, while following their use, taken great care of my general health, but obtained no relief or encouragement from any of them. Messrs. WEEKS & POTTER: Gentlemen, - Having for many months past suffered with a very lame side, called by my physician Chronic Pleurisy, caused by a former injury and strain, and for which I used many prescriptions and liniments, as well as the so-called rheumatic cures, without the least benefit, my physician recommended one of your Collins' Voltaic Plasters, which, to my great surprise, relieved the pain and soreness almost immediately, and I have been able to attend to my household affairs ever since with perfect ease and comfort, whereas, before the application of your invaluable Plaster, I was scarcely able to do anything. I consider them inestimable, and shall with pleasure recommend them to the afflicted. Yours. pleasure recommend them to the afflicted. Yours respectfully, Mrs. FRANCES HARRIMAN.
