

# SENATE PASSES BOUNTY MEASURE

Repents and Relinquishes Its Rigid Provisions of the Last Session.

SPECIAL SHEEP TAX LEVIED.

It calls for 4 Mills on the Dollar and Provides a Fund to Pay One Half of Bounty.

Two years ago the State of Utah was bankrupt out of nearly \$50,000 in bounty money, and when the legislature took the matter up it drew the most stringent rules about the payment of bounties. Today the senate agreed that the rules were too severe, and voted for a bill materially relaxing them.

The financial burdens under the new bill fall partially upon the sheep men of the state who are forced to pay a portion of the bounty on every wild animal killed, and partly on the state which is asked to continue the present appropriations. In the last two years ago the sheep men of the state were the only ones who were not benefited by the allied agricultural and professional men. Today the professionals were benefited by the men of the flock and herds, after the men of the flock had killed a portion of the bounty applying a tax to range cattle and the men of the flock of mountain lions and bears.

## SEELY RETALIATES.

"The mountain lion" declares Seely of Mt. Pleasant, "is the most destructive animal in this state to colts and calves. You cattle men know that your sheep raise a range of the range of southern Utah, but if you won't stand to be taxed, we sheepmen won't stand to pay a bounty to the animals that do the damage. I move to amend by striking out the \$10 bounty for each mountain lion and each bear." The amendment carried.

That leaves a bounty of \$2.50 on each coyote, wolf, jack or wildcat, and a proviso that any money may offer additional bounty money if it so desires. The second clause of the bill levies a 4-mill tax on all sheep to be assessed by boards of county commissioners, and paid to the state treasurer, to become a fund for the extermination of wild animals. From this fund the state treasurer shall draw \$1.25 for each wild animal killed, to be added to \$1.25 taken from the state appropriation. A final clause makes it a misdemeanor to raise wild animals for bounty.

The bill was the only one passed this morning, and the senate adjourned after finishing discussion upon it. The railroad bill, No. 3, at 2:30 o'clock this afternoon. Anticipating consideration of this bill a number of railroad people were present this morning.

John Y. Smith had introduced the bounty measure and was the first to speak in its defense. He was followed by a cross firing of questions and answers between sheep men and the cattle men, in which Clegg, Walton, Seely and Gardner were the principals. As a result the tax of cattle was stricken out and then the sheep men, after the bounty on bears and lions, successfully, Bonner H. Smith and Lawrence attacked the bill on the grounds that it was unconstitutional, but in the final vote they stood with Gardner, Hollingsworth, and Park, and a minority.

Twenty bills are now on the senate calendar, and there is little prospect of clearing them up before Wednesday.

## BOTH SIDES CONFIDENT.

Pro and Anti-Consolidation Forces in House Are Optimistic.

This morning's session of the house was uneventful. The aim preceding the consolidation bill was scheduled for 2 this afternoon prevails. No omnibus mottos are heard, one way or the other, and no marked batteries seem to be found by foe or friend. As far as opinion is concerned, the members might as well vote on the proposition without discussion, as to all appearances their minds are made up. The "anti" side, however, is confident of mustering sufficient strength to block submission to the people of a proposed amendment to the constitution permitting consolidation, and they hope by this action to put a permanent quietus on the whole proposition.

Friends of consolidation, however, are hopeful, and claim enough members will rally around them to permit the decision to go to the people of the state, according to the proposed amendment.

Speaker Joseph took the floor to introduce a bill against lobbying by certain employees of state institutions. This bill will be introduced through the bill room in time to affect the large lobby by present from the educational institutions of the state.

The routine follows:

The house passed the following bills:

H. R. 105, by Randall, making city engineers an office of records for maps, plans, etc.

H. R. 224, by Marks, relating to concurrent jurisdiction of city courts in cities of the first class with district courts.

H. J. M. 7, by Meeks, asking that Utah be allowed to annex the strip lying north of the Colorado river in Arizona, known as the "Arizona strip." The memorial received the unanimous support of the members of the house.

H. R. 225, by Dwyer, providing that cities of the third class or towns may assess a tax for establishing and maintaining public libraries and gymnasiums. This measure is designed to help small towns provide places of entertainment for the growth of such towns outside of saloons.

H. R. 122, by Dwyer, providing for the retirement of public school teachers. Considerable discussion was occasioned by the bill, which provides for the organization of a retirement commission in cities of the first and second class, or in any county outside such cities, which shall have

charge of the retirement fund for the benefit of teachers having served 30 years in teaching. The measure was amended slightly and after explanation by the author, was passed without opposing vote.

S. B. 118, by Walton, providing for an annual convention of health officers, passed after an ineffective motion by Westphal to lay on table.

S. B. 100, by Bonner H. Smith, denying the powers of the board of health to abate nuisances, passed.

H. B. 187, by Hone, providing for the establishment of a laboratory of bacteriology at the state university. This measure passed without dissenting vote.

## GOVERNOR SIGNS.

Governor Cutler sent word that he had approved H. B. 119, by Thompson, which provides the disposal of liquor to minors.

## BILLS KILLED.

H. B. 171, by Kuchler, appropriating \$3,000 for a state exhibit at the national irrigation congress to be held at Sacramento in September, was killed.

H. B. 187, by Hone, providing for the establishment of a laboratory of bacteriology at the state university. This measure passed without dissenting vote.

## AFTER LOBBYISTS.

Speaker Joseph asked unanimous consent and introduced the following bill:

## H. B. 203.

An act disqualifying certain employees of state institutions from further service for pernicious activity in politics.

## READY FOR GOVERNOR.

Communications were received from the senate to the effect that the president had signed H. B. 119, by Taft, providing for raising the American flag upon schoolhouses on legal holidays. H. B. 127, by Robinson, making it unlawful to wrongfully use the name or insignia of certain persons in connection with the sale of goods, was passed by Hott, relating to the wandering Utes. H. B. 140, by Hott, protecting ancient relics in San Juan county. H. B. 141, by Hott, relating to the superintendent of public instruction and the deputy superintendent. H. B. 7, by Pedersen, defining qualifications of applicants for certain offices. H. B. 146, by Marks, relating to the consideration of the governor. The house took a recess until 2 o'clock p. m.

## RHODES SCHOLARSHIP.

Robert W. Hartley of Salt Lake to Represent Utah at Oxford.

Dr. J. T. Kingsbury, chairman of the Cecil Rhodes scholarship, has received word that Robert W. Hartley of this city, having passed the examination, and is therefore eligible to represent Utah at Oxford, providing he is elected for that honor. As the young man is so eminently qualified, there is little doubt that he will be chosen to attend the great English school.

Mr. Hartley resides in Perkins addition, and was graduated from the Salt Lake high school in 1904. He was unusually apt at mathematics that his friends at the high school called him a "mathematical shark." When he entered the U. of C. his ability was at once recognized by Prof. Gibson, who asked him to take charge of some of the classes. He is president of the arts and science club at the University.

In the United States there were 215 students who took the examination, and of this number 138 were successful. Idaho claims two of the fortunate ones, the persons of B. D. Nuggett and Mack S. Marrow.

## POSTMASTER FOR MURRAY, IDA.

(Special to the "News.") Washington, D. C., March 11.—Josephine H. Murray, postmaster of Murray, Idaho, was appointed today. She is the daughter of Clarence L. Landes, resigned.

## Washouts on San Pedro.

Charles A. Hutchinson, leading man in Patrice's little company, which is appearing at the Orpheum this week, arrived in Salt Lake yesterday with additional details regarding the washout situation on the Salt Lake Route.

According to Mr. Hutchinson, the story of the road is having a kind of trouble at the California end of the line also with washouts, cave-ins and kindred happenings associated with the strenuous life of the desert.

Mr. Hutchinson started for Salt Lake early last week over the Salt Lake Route. "It was raining heavily when we started," he said, "and when we got as far as San Bernardino there we stopped throughout the night listening to the rain thumping down on the cars. Next morning we pulled out and I never will forget the first mile walk as long as I live and by the time I got back I was nearly dead."

When I left Los Angeles the railroad was in a state of chaos. People were clamoring for some way to get back east. The Southern Pacific carrying passengers via Sacramento and Carson was slightly swamped. There was nowhere near enough berths and even the chair cars were besieged by people who had to get back east, even if they walked. It was lovely."

In Los Angeles said Mr. Hutchinson, people had heard nothing about the trouble in the Meadow Valley wash, where close upon 100 miles of track is reported to be in a state of ruin. At present the Salt Lake Route is running daily trains from Salt Lake to Nevada, according to the reports from headquarters, and the statement made that trains are only running as far south as Milford is accordingly incorrect. This daily train connects with the 10:30 p. m. or 11:00 p. m. train for St. George and other points in southern Utah.

## LEGISLATIVE INQUIRY INTO PENNSYLVANIA CAPITOL.

Harrisburg, Pa., March 11.—The legislative inquiry into the new state capitol contracts and accounts was begun today. The investigation grew out of allegations that there was gross extravagance, overcharges and duplication of items in the ornamentation and equipment of the building.

The capitol was built under the direction of a capitol building commission at a cost of \$14,000,000. It was furnished and equipped by the board of public buildings and buildings at a cost of nearly \$9,000,000.

The board is composed of the governor, auditor general and state treasurer. The members of the board during the time the contracts were given out were Gov. Pennypacker, Auditor General Snyder and State Treasurer Mathews, all Republicans. Mr. Mathews was succeeded by W. Barry, Democrat.

A year ago, Mr. Barry, who probably will be one of the most important witnesses, claims the overcharges in the capitol exceeded \$4,000,000. Barry has refused to pay several bills contracted by the board before he became a member upon the ground that they are exorbitant and excessive.

J. M. Huston of Philadelphia was architect of the capitol, which was built by George F. Payne & Co., of Philadelphia. The furnishings and fixtures, except the marble lining cases, were furnished by John H. Sanderson of Philadelphia. Sanderson contracted with the capitol building commission at a cost of nearly \$2,000,000.

The investigation is being conducted by a committee created by the present legislature and selected by Gov. Stuart. The attorneys have been working for a month with the representatives of the capitol company of New York in preparation.
