

AMERICA'S PART IN JAPAN'S GROWTH

Baron Shibushwa Tells What it
Was in Commercial Awaken-
ing of His Country.

AMERICANS WELCOME IN EAST

As a Business Man Favors Japanese
Exclusion as Emigration of Cheap
Labor Injures Home Industry.

Seattle, Wash., Sept. 2.—In a statement to the press, Baron Shibushwa, head of the Japanese commercial mission that arrived here yesterday for a tour of the United States, discusses the part played by America in the commercial awakening of Japan and the feeling of obligation held by the Japanese toward the United States, saying that this feeling is universal in his country. He recounts the celebration that took place when the commissioners sailed from Yokohama, citing it as an example of the interest taken by his countrymen in the mission of peace and commerce to the good will. Continuing Baron Shibushwa says:

"It is very interesting to note that while different European nations are talking about the increase of armament and when especially great rulers are exchanging visits accompanied by warships, the Japanese people are perfectly satisfied in sending us plain business men on a peaceful mission to this great commercial country. I have been told that Japan is spoken of as a warlike nation, but that is altogether absurd.

MUST GO HAND IN HAND.

"We are all deeply interested in the development of the Japanese-American commercial relations, which, of all reasons, prompts us to pay a visit to your country. Let us, therefore, work for the extension of commercial relations to our mutual interests. Japan and America only separated as they are by a dwindling stretch of water must go hand-in-hand in the building up of the Pacific trade.

JAPANESE QUESTION

"I have frequently been asked during my voyage what I thought of the Japanese question in America. I am neither a statesman nor a diplomat, but should I be required to comment on the restriction of Japanese immigration to America, which I understand is now being enforced at our initiative, I would say it is a good thing, because such is the logical outcome of the changed economic conditions in our country. Owing partly to the growth of our industry at home but more largely to the exodus of our emigrants there has been a strong tendency toward appreciation of wages which naturally threatened those who have direct interests in our industrial undertakings. Moreover, the demand for our labor has been constantly growing. As a business man, therefore, I regard the sending out of this cheap labor to this or any foreign country a great disadvantage to our home industry."

PREPARATIONS FOR MEETING OF TAFT AND DIAZ

El Paso, Tex., Sept. 1.—President Taft and Diaz will be received in this city and in Juarez on their arrival Oct. 16, not only by a magnificent military display, but by 10,000 school children singing the national anthems of the two nations, and by the two most famous bands of Mexico and by at

least two splendid military bands of the United States army, according to the official program being prepared by the committee of arrangements of the two republics, which are co-operating. President Taft will be met at El Paso, N. M. He will be received here by two regiments of United States regulars with the presidential salute of 21 guns, and large detachments of national guardsmen of Texas on his arrival at 8 a. m. at 10:30 across the river from Juarez and will meet President Diaz in a pavilion in front of the chamber of commerce. After a breakfast at the chamber, the two presidents will proceed to Juarez where Mr. Taft will be the guest of Mexico until 10:15 p. m.

Returning to El Paso, President Taft and cabinet officers with him will deliver addresses and review the parade of 10,000 school children and the troops. At 8 o'clock President Taft with his party and distinguished men of both republics will attend a banquet given in their honor in Juarez by President Diaz, for which the Mexican government is building a \$50,000 addition to their conference house and is also spending a quarter of a million dollars for street improvements.

MINERS AND EMPLOYERS SETTLE DIFFERENCES

Pittsburg, Sept. 1.—The dispute between the miners and operators of the Pittsburg district affecting a coal strike was settled tonight at a conference between the operators and the national executive board of the United States Mine Workers of America and President Thomas T. Lewis.

Notice will be posted in all the mines in the district telling the miners that the recent order of the coal companies that black powder must be used in mining coal is rescinded for the present. To secure this commission on the part of the operators, President Lewis appointed a committee from the miners' organization, which will go to Wilkes-Barre, Pa., tomorrow to confer with Chief Mine Inspector J. F. Rodrick of Pennsylvania, asking that a thorough investigation of the use of black or "safety" powder be made by the state.

DEFICIT FOR AUGUST LESS THAN FOR JULY

Washington, Sept. 1.—There was a deficit of \$4,112,281 in the receipts, receipts and disbursements of the treasury department for the month of August, as compared with a deficit of \$14,102,948 for July. There was also a smaller deficit in the receipts and disbursements for the construction of the Panama canal, the shortage being \$2,076,213 for July, and \$2,094,127 for August.

The public debt less the cash balance in the treasury at the beginning of business today was \$1,945,527,511. This does not include \$1,543,211,569 in certificates and treasury notes, which is offset by an equal amount of cash in the treasury.

The statement of the cash in the treasury shows a total of \$1,722,230,121, divided as follows: Reserve fund, gold coin and bullion, \$180,000,000; trust funds, \$1,345,211,869; bonds, certificates and treasury notes, \$1,543,211,569; in national bank depositories, \$54,022,746; and in the treasury of the Philippine islands, \$5,901,271.

GOMPERS ADDRESSES TRADES UNIONS CONGRESS

Paris, Sept. 1.—Samuel Gompers, president of the American Federation of Labor, addressed the International Trades Unions congress again today. He denounced international strike breaking and declared the systematic immigration of workers in times of depression and strikes in other countries to be one of the greatest menaces of organized labor.

Mr. Gompers' proposal for organizing an international federation of workmen could not be discussed, because the American Federation of Labor is not affiliated with the European unions but a British resolution of the same import was adopted. The conference then passed a resolution against workmen offering their services at times when dockmen and stevedores strike. The conference adjourned to meet at Buda Pest in 1911.

JUDGE JOS. R. CLARKSON TURNS DAY LABORER

Kenosha, Wis., Sept. 2.—Carrying out his determination to become a common laborer, Judge Joseph R. Clarkson, whose strange actions in leaving his home and coming to work in a button factory at Sabula, Ia., caused a sensation a few weeks ago, went to work yesterday as an assembler of brass beds at the plant of a local company. The judge appeared at work in a suit of overalls, wearing an old golf cap and carried his dinner in a common dinner pail.

A NARROW ESCAPE

Edgar N. Baylies, a merchant of Robinsonville, Del., wrote: "About two years ago I was thin and sick, and coughed all the time and if I did not have consumption, it was near to it. I commenced using Foley's Honey and Tar, and it stopped my cough, and I am now entirely well, and have gained twenty-eight pounds, all due to the good results from taking Foley's Honey and Tar." F. TSETSE FLY EGGS IN ROOSEVELT SPECIMENS

Washington, Sept. 2.—Two of the skins sent to the Smithsonian Institution by the President Roosevelt expedition were of the species of rabbit which harbors the tsetse fly, the cause of sleeping sickness. Many tsetse fly eggs were found clinging to the specimens and the Smithsonian scientists hope to hatch these for experimental purposes.

The skins of the rabbits were not taken in traps, as the larger ears were, and it is supposed to be in good condition.
