ment of the property. There are now something like eight or ten tons of approximately \$260 ore on the dump, and this is being added to right along. While the mine is located something like 40 miles from the nearest point on the Nevada North-ern railway, nearly sufficient stock in the company has been sold to take care of all expenses arising in connection with the working of the property until with the working of the property until shipping is commenced. Hyrum Young and Clyde Tilford ar-

rived in the city from the property Thursday night and are enthusiastic in their descriptions of the mine and its possibilities

STRIKES GOOD ORE.

Well Known Nevada Company Encounters Seven Foot Vein.

O. Weiser, superintendent of the White Pine Gold Milng company, with properties located between Ely and Cherry Creek, Novada, sent word yes-terday to the effect that a vein of ore seven feet in width had been uncovered which he estimates will produce values of \$50 per ton in gold.

The property, according to Mr. Wet-ser is looking five and from all indi-cations will some day become one of the foremost producers of the state. 2.12%

WORKING THREE SHIFTS.

Development of Emma Mine to be Pushed as rapidly as possible,

W. M. Wantland general manager of the New Emma combination at Alta, stated just before President Kirby left for the west, that three shifts of m had been put to work on the property and that the work of development would be pushed as rapidly as possi-

The property is said to be looking excellent, and great things are ex-pected shortly in the way of news from excellent. Alta.

DIVIDEND LOOKED FOR.

Rumors That Nevada Hills Will Make Christmas Distribution.

It is said that at this time after de It is said that at this time after de-velopment work of but five months, the Nevada Hills mine at Fairview has something like a quarter of a million dollars in the strongbox and that a Christmas dividend of generous pro-Christimas dividend of generous pro-portions is now under consideration. Ore in the property is exposed at five different points and some of the richest silver ore ever taken from a Ne-vada mine is being sacked every day. This ore comes from the bottom of an 80-root winze which is in shipping rock all the way. Four and a half feet of the ledge is said to assay \$13,060 a ton in gold and silver.

Six months ago this mine was a mere respect, today it ranks among the mong the leading producers of the state.

Mackay mackay pfd

The Furnace Creek Company, with properties in the Greenwater district, James Horvey, manager, is running along in about the same old way. They have discontinued working the drifts on the 250, and all future development is built. This was always the belief of the old prospectors who have watched Ely's growth, but it was not until the McDonald-Ely shaft was sunk that it was proven as a fact that could in this property is centered both in this shaft and on the Copper Matt, says the Greenwater Times. It is said that Mr. Harvey will con-tinue the sinking until he has gained no longer be debated.

no longer be debated. Copper ore was struck in the Me-Donald-Ely shaft at the depth of 76 feet. The shaft is now down 100 feet, and the value of the ore is improv-ing as the miners progress with their work. It was this great strike that caused many of the big mining deals in property adjoining the McDonald-Ely holdings during the past few years. ore which will probably he anyway 1,000 feet. A small four-horse engine has been placed on the Copper Matt and the engineer is having some trouble in making it work, but it is believed that when the rough edges have been worn off that it will be more of a success. The Clark interest is engaged in op-erating several other properties and that which angears more promising years.

The showing at the McDonald-Ely will cause a great wave of mining acwill cause a great wave of mining ac-tivity to the north of Robinson can-yon and has already caused an evolu-tion in the price of property in that direction, as it proves conclusively that the great Ely ora body extends unin-terruptedly in that direction and in as many account way on the worth side vast a quantity as on the south side.

C. F. Cowan, Salt Lake representa-tive Utah-Nevada Goldfield Reduction company, departed for Denver Wed-nesday night on a business trin. He expects to be zway until some time in January.

MIXIMUM RATE HEARING.

St. Louis, Nov. 24.-Richard E. Ber

ger, freight auditor of the Wabash rail-

road, was recalled to the witness stand, today in the maximum freight rate hearing. His testimony developed the

fact that the percentages used by the Wabash in the apportionment of freight

earnings tend to lessen the revenue of

the Missouri division. It was shown that no part of the bridge tolls on

goods routed from Kansas City to Cin-cinnati and points east, or from points east of the Mississippi to Kansas City

is allotted to Missouri. These and oth-er facts are expected by the state to disprove the claim of the railroad that it is losing money on freight in Mis-
