

MILKING, BUSINESS AND STOCKS

LANDS DEEDED TO BOSTON CON. CO.

Property Around Pelican Point In Utah County Passes to Big Mining Concern.

NEARLY FOUR HUNDRED ACRES

Conveyed Through Instruments Filed At Provo—Bodie, California, Power Scheme.

Provo, Utah Co., Oct. 12.—The following needs for land at Pelican Point where it was expected the new mill smelters town of Bostonia would be built, but about the building of which there has lately been considerable doubt, have been placed on record with the county recorder here: Joseph S. Barnes and Sarah M. Barnes, of Lehi, to Boston Consolidated Mining company, 175.90 acres, consideration, \$2,000.

Lafayette Hanchett and Nellie G. Hanchett, of Salt Lake City to the Boston Consolidated Mining company, 222.22 acres, consideration \$1, and other good and sufficient considerations.

C. E. Louse has gone to Bodie, California, on business connected with the electric power plant which himself, L. Nunn, Senator H. Snoot and others contemplate erecting there.

N. A. Nielsen has gone to Los Angeles on business connected with mining property in Nevada, in which Mr. Nielsen is interested.

FORENOON ON EXCHANGE.

Daily a feature of the Open Board Trading. On the floor of the Salt Lake Stock & Mining Exchange this forenoon 7,709 shares were transferred, for which was paid out the sum of \$2,604.

During the regular call, New York Bonanza and Wabash were the only traders, while on the open board Daily offered at 84 cents was taken, 400 shares more went at a cent advance, which was followed by another, at 82 1/2 cents, still another at 83 cents. Mammoth was bought at 81, while there appeared to be no real demand for Grand Central. Some active bidding for Columbia was indicated in, with the sale of 100 shares reported.

The closing quotations were posted as follows:

LONE MOUNTAIN MINES.

Lone Mountain is fast becoming the mecca of the wide-awake miner and prospector, says the Bonanza of Tonopah. New camps are springing up daily and the burro prospecting outfit is omnipresent. The Anacoda-Tonopah has installed a whim and raising is nice quality of shipping ore. A well is also being sunk and as a depth of 85 feet has been reached it is expected that water will be found any day. This is a central point for the district and the discovery of water will be of great convenience and value to those operating on the southern and eastern slope of the mountain. W. F. Keane, president of the Princess Maude, was in from the mine during the week, and reports satisfactory progress being made in the cross-cut from the bottom of the 200-foot shaft; a parallel vein about 40 feet distant is the objective point and when reached good values are expected. The Richards-McNeil lease at the

WABASH MEETING CALLED.

Stockholders Will Gather on the 30th Inst. to Elect Directors.

Notices have been sent out calling for a meeting of the stockholders of the Wabash Mining company on Monday, the 30th day of the present month. In as much as there have been no meetings of this kind held for almost two years, and that no detailed reports bearing on conditions issued during the period, the approaching gathering will undoubtedly be awaited with the keenest interest.

General Manager Treweek promises that some information hereof will be held until released at that time, and that a financial statement will be submitted to the shareholders explaining where every dollar has come from, and to what it has been used.

The attack made on Wabash shares at yesterday's meeting of the mining exchange, the price of which sank several points, prompted Manager Treweek to say something to encourage shareholders who have been loyal during the several years that the Wabash company has been prosecuting its campaign of development.

"I can say with all truthfulness," said Mr. Treweek, "that never in the history of the property has it looked as promising as it does today, and if there is not a great improvement in the price of the shares during the next 90 days or so I shall be very much mistaken. I am firmly of the opinion that there is a mine in the Wabash grounds; the management is determined to find it. I would like to encourage the small shareholders, those who have their all probably, at stake, not to become frightened and throw their stock away every time the manipulators find it to their advantage to break the market. Let the large shareholders, the ones upon whom falls nearly the entire burden of carrying the company's business along, say anything but discouraged."

SILVER SHIELD MILL.

Site Has Been Selected and Construction Will Soon Begin.

Harry S. Joseph, manager of the Silver Shield company, has concluded arrangements with the management of the Boston Consolidated, for the purchase of a small strip of ground near the mouth of the Shield tunnel for a mill site. The deeds conveying the property are now being drawn. In the meantime Mr. Joseph is doing things in the way of getting ready to commence work on the excavations for the new plant, which will have capacity for the treatment of 50 tons of ore per day.

Mr. Joseph says the plant will be rushed to completion as soon as possible.

Old Board Re-elected.

The stockholders of the Lost Packer Mining company met in the offices of the company in this city yesterday afternoon and re-elected the old board of directors, which organized with James Ivers as president, James T. Finley as vice president, E. G. Henry of Evanston, auditor and Henry Welch of Park City, secretary, who with J. A. Cizek, constitute the board of directors.

It was stated during the meeting that the new mine was being probably go into commission sometime next week.

ALLEN WILL BE GENERAL MANAGER

That He Will Become the Active Head of the United States Mining Company is Certain.

MAYBERRY TO LEAVE BINCHAM

Will Become Chief of Staff to Mr. Allen—James Bernard Named as Superintendent of Bingham Mines.

It is expected that something official will be forthcoming from the offices of the United States Mining company before very long bearing on the matter of the appointment of a successor to Walter Fitch, the retiring manager.

It is believed that Managing Director A. F. Holden and the members of the executive committee have settled this matter and that when the announcement comes it will contain the name of Supt. of Mines Clarence E. Allen. There is no doubt about this. Anyway, he is the logical man for the office, and is also a man of the most important position would come in the nature of reserved recognition. It is stated that Mr. Allen's jurisdiction is to extend over all the properties of the company, not only in Utah, but also in Nevada, California, and Idaho, where it has become extensively interested, and has become an important factor in mining and smelting affairs.

The growth of the United States company has been so rapid and it has become such a power in the mining and smelting world that it is said to be quite necessary that Managing Director Allen should spend much of his time in Salt Lake. This is said to be in his intention, and in view of that, he has ordered the fitting up of some spacious office rooms in the Dooly block, which are to be occupied by himself and Mr. Allen. The letter will report to Mr. Holden, just as Mr. Fitch has done in the past.

There is also to be a change at the United States company's Bingham mines, James Bernard, who has served the company as assistant superintendent of the Centennial-Eureka mine, is to succeed Andrew Mayberry, who is to become chief of staff to General Manager Allen, with a neat advance in salary. Mr. Mayberry will be in charge of all the field work of the company. Robert Brown is to continue as superintendent of the Centennial-Eureka mine, and James Bernard, who has served the company as assistant superintendent of the Centennial-Eureka mine, is to succeed Andrew Mayberry, who is to become chief of staff to General Manager Allen, with a neat advance in salary.

Mr. Bernard left Eureka yesterday for Bingham to acquaint himself with the duties of his new position.

At the offices of the company not a word of the change in the foregoing could be obtained, but the "News" has its information from a source that cannot be very well disputed. One of the local officials, when asked about the changes and who was to be named, would not say to him, but finally said, "We are simply gassed, we can't say a thing at this time."

It is understood that Mr. Mayberry will leave for Nevada within the next few days to check up the work of the experts, who have been conducting an examination of the properties recently taken over by the company at Eureka, Nev. The operation of these mines will require the extension of the Eureka & Palisade railroad to a distance of about 20 miles, and is even said that arrangements to that end have been completed.

MR. SEWELL HERE.

Vice President of O. S. & R. Visited Garfield Plant Today.

Barton Sewell, vice president of the American Smelting & Refining company, arrived in this city yesterday afternoon and went out to the site of the company's new Garfield plant during the day, being accompanied by General Manager Charles W. Whitley, Chief Engineer Carl Diers and Chief Staff Officer Carl Diers of the local office. Mr. Sewell is general manager of the Utah Copper company.

Mr. Sewell and party returned during the afternoon. He expressed himself as being very well pleased with the manner in which the work of construction is progressing at the point of the mountain.

Incorporation Articles Filed.

A copy of the articles of incorporation of the Bullock Mining & Milling company of Provo was filed in the secretary of state's office today. The company is capitalized at \$30,000, divided into shares of the par value of 10 cents each. J. L. Bullock is president; W. J. Edwards, vice president; Benjamin H. Bullock, secretary and treasurer. The company owns the Bullock lode and other claims located in the Tintic district, Juab county.

Delegates to Mining Congress.

Gov. Carter has named the following delegates to the American Mining congress, which meets in El Paso, Tex., Nov. 11 to 13: Senators Reed Smoot and George Sutherland, Congressman Joseph Howell, J. R. Twissler of Provo, Alvin Edmonds of Coalville, John C. Sullivan of Eureka, Frank Pierce, William H. Tibbels, D. H. Peery, Caleb Tanner, Gomer Thomas, David Keith, H. S. Joseph, P. T. Farnsworth and Capt. Benjamin Tibbey of Salt Lake.

Tramway in Commission.

The new tramway of the Bingham and New Haven Mining company at Bingham, went into commission yesterday.

Drifting at the Raymond.

J. D. Wood was in Eureka yesterday and while there made an inspection of the Raymond mine. Two drifts are being run from the 1,500 level of the shaft.

CONCENTRATES.

E. C. Clark of Goldfield, Nev., is in the city.

James W. Neill has arrived from a trip to California.

John Deui is inspecting the Uncle Sam mine in Tintic today.

Fred T. McGurrin has gone to Carson City, Nev., on mining business.

Jeese Knight, manager of the Beck Tunnel company was in the city today.

A car load of ore from the Carbonate Hill mine near Morgan is at the sampler.

Manager J. J. Trenham of the Stockton mine of Stockton is at that property today.

S. B. Milner has acquired the iron

MARKET OPENED A LITTLE HIGHER.

With a Few Exceptions Everything Was Very Soon Under Pressure. STOCKS DECLINED QUICKLY. When 'Crowding Down' Ceased Prices Were Bid up Again—Business Became Normal.

LOCAL MARKETS.

All kinds of smoked fish are in the markets today, including the first shipment of hump haddies from Boston, with smoked salmon and halibut from the Pacific coast. Fresh fish are also arriving in good shape, and the market in this line is regular. New pecan nuts and almonds, and oranges are arriving. With prices a little lower in the fruit, and satisfactory stock is being marketed. Bananas have been scarce, but are now plentiful, two car loads having arrived last night, with distribution today. There are reports that Utah fruit and vegetables have been killed off by frost, so that attention is being turned toward imported goods. Apples are in good demand. Receipts of poultry are small, and the market is steady.

Alfalfa is up 20 cents a ton, and Timothy the same. Cheese is up a cent. Eggs have risen 50 cents, but it is not expected they will go higher. Peaches are no more—ditto cucumbers, but grape fruit, spinach, turnips, beets, carrots are in the market. Sturgeon, too, can now be had at 15 cents. The prices prevailing in the local markets today are:
