FOR INDEPENDENT POLITICAL ACTION

What Union Labor and United Federation Have Done For It.

CONDITION OF WAGEWORKER

No Improvement in It During Past Year—Moyer Tells Convention What It Can Do.

Denver, Colo., May 28.—President Charles Moyer's annual report to the Western Federation of Miners, which is now holding its convention in this city, was made public this afternoon. In opening he said that at no time since its inception had the organizations been more prosperous than at present, and added:

"The American labor union and the Western Federation of Miners in declaring for independent political action, have done more to encourage the members of your organization, and the laboring people in general than have the combined promises and useless resolutions of organized labor since the inception of the trades union movement.

"Notwithstanding the wonderful increase in the ranks of organized labor during the past year, we find no improvement in the condition of the wageworker. While true that a few have received a slight increase in wages, thousands have been engaged in a fierce struggle to even maintain their present condition, and many have gone down to defeat."

Referring to the anthracite coal miners' strike and the results of arbitration in that case, Mr. Moyer said: "Can the leader of this army of men expect to hold his organization intact, when he advises them to continue a policy which offers nothing for the future but strife and destitution, and commends the findings of a board of arbitration selected by the representatives of capital which binds the chains of slavery more securely around his membership and deprives them of even the privilege of appealing to their masters for a period of three years? John Mitchell need not be surprised should his membership turn their faces to the west, seeking affiliation with organizations which have sent out their message to the world, that as labor produces all wealth, such wealth belongs to the producer thereof.

"While organized labor is forced to the strike and boycott in order to secure even a share of that which is rightfully theirs, just so long will strife and discord continue.

"After fully considering the conditions surrounding us at this time, I believe that the most important action which you can take during this convention will be to reaffirm the policy adopted by the tenth annual convention."

Mr. Moyer referred to the failure of the Colorado legislature to enact an eight-hour law after the adoption by the voters of a constitutional amendment having such an enactment in view, and said this should be sufficient warning to laboring people to disregard the promises of the Republican and Democratic parties.

"I believe the time has arrived," said Mr. Moyer, "when the Western Federation should declare for the eight-hour workday, and that this convention should specify a definite date for the establishing a universal eight-hour law throughout your entire jurisdiction.

President Moyer recommended the holding of biennial instead of annual conventions and an amendment to the constitution defining the authority of the executive officers in regard to calling strikes ,their right to do so without the consent of the local union involved having been disputed. He antagonized the practise of locals entering into time contracts with corporations. That ample provision should be made for organizing purposes was urged, also that a plan be devised to place the Miners' Magazine in the hands of every member of the organization.

President Moyer renewed the suggestions of last year that provision be made for securing control, by purchase or lease, of mining property and for establishing headquarters in Denver.

On the subject of strikes the report says: "At this time about 2,000 members of your organization are on strike, with every indication that the number will be greatly increased in the near future. Employers of labor are organized throughout the entire United States. They are carefully outlining their plans of campaign before making a determined assault upon your organization. When the order is given you need look for no quarter. The battle begun with annihilation for its purpose, must be met by the Western Federation of Miners with intelligence, determination and united action. The duty devolves upon you to outline a policy for your officers during the coming year, and after the adoption of that policy there should be no faltering in the ranks, for only through unity of action can you expect to retain the few privileges granted to you by your masters."

Years

Of Suffering From Heart Disease.

I Would Not be Alive Today

But For Dr. Miles' Heart Cure.

Do not neglect the warning symptoms of a weak heart. Palpitation, smothering spells, swelling of feet or ankles, pain in and around heart; oftentimes affections of the stomach, lungs, liver, bladder, kidneys, etc., arise from heart weakness. A weak heart must be helped. It cannot stop to rest. It must be strengthened and regulated. The blood must be enriched, the heart nerves strengthened and the circulation improved by the great heart and blood tonic, Dr. Miles' Heart Cure. There is positively nothing to equal this wonderful medicine in its beneficial influence upon hearts weakened from any cause.

"I am very grateful for what Dr. Miles Heart Cure has done for me, as I am confident I would not be alive today had I not learned of its wonderful virtues and taken it before it was too late. I had been a sufferer from valvular heart disease for many years, in fact ever since I was a little girl and for three years before I began using Heart Cure I was in very bad shape. I could not sleep on my left side at all and would frequently have the most dreadful smothering spells. At times my left side would swell up. I had pain in my head all the time from which I suffered greatly. Nothing I took did me any good until I used eleven bottles of Dr. Miles' Heart Cure which removed all these distressing symptoms and made me feel well and strong."—MRS. H. C. CRUSE, San Francisco, Cal.

DISCREPANCY IN CUBA.

Between Reports of General Wood And His Financial Secretary.

New York, May 28.—Regarding the statement that there is a $3,000,000 discrepancy between the reports of Gen. Leonard Wood and his secretary of finance of the total disbursements of the American military government in Cuba, it is stated on the highest authority, says the Tribune's Havana representative, that the discrepancy will be accounted for before the national settlement between the war department and Senor Quesada, Cuban minister at Washington.

Lives With Bullet in His Brain.

Glens Falls, N. Y., May 28.—A case which is exciting the interest of the medical profession in northern New York is that of Joseph Bailey of Glens Falls, who since November, has lived with a 22-calibre bullet in his brain. Bailey, who is 19 years old, was shot in a street fight. He was taken to the hospital and after a month had recovered his health, but his mind was a blank and he is an imbecile.

Dr. W. C. MacDonald of the city hospital, will take Bailey to Albany where an attempt will be made to locate the bullet by means of the X-rays. If removed it is predicted that Bailey will recover his reason.

GLAD HE IS NOT SO RICH.

Jno. D. Long Would Not Exchange His Freedom for Morgan's Gold.

Rockland, Mass., May 28.—"I am glad I am not a rich man. I would not exchange my freedom, home life and content of heart for the wealth of a Morgan or a Carnegie," said John D. Long, ex-secretary of the navy, at the Rockland Commercial club banquet at which he was the guest of honor.

In speaking of Socialism, Mr. Long said there had been respect for the rights of property in the past and there always would be. If the reward were taken away there would be no incentive to work.

"Our mothers and grandmothers worked like slaves," he continued, "but the life of the people of today is rendered much easier by the accumulation of wealth. We live better and have more advantages than they had.

"We are living in an age of Socialism, as I understand Socialism. I fear no theories, no fanatics and no millionaires, but I do believe in and trust in the judgment of good everyday people of this country to work out these problems. Wealth is all right, but it is not to be compared for a moment with a clear mind, good health and a clear conscience. The advances that are being made will work for the benefit of mankind."

FERRYBOAT CAPSIZES.

Ferryman and Eleven Children Are Drowned.

Posen, May 28.—A ferryman and 11 children were drowned as the result of the capsizing of a ferryboat on the river Warthe near Dembro.

Ordnance Tests at Sandy Hook.

New York, May 28.—Tests were made yesterday at the Sandy Hook proving grounds of two pieces of ordnance which have been under consideration by the United States army and navy boards for some time. The weapons tested were the McLean automatic one-pound gun, and the Lugar automatic pistol. The McLean gun can fire 800 shots a minute, each pull of the trigger discharging 25 one pound projectiles.

After dark a test was made of big guns which discharged what appeared to be huge balls of fire. The army officers at Sandy Hook refused to furnish information regarding the night tests, but it is understood that experiments were being made with an illuminated shell intended for night use.

Marcel Renault is Dead.

Poitiers, France, May 27.—Marcel Renault, the well known racer and maker of automobiles, who was injured by the overturning of his machine during the first stage of the Paris-Madrid race, died suddenly after midnight at Couvevrac. Renault never recovered full consciousness from the time he was found beside the roadway.

Want Mss. Books Examined.

New York, May 29.—The Tribune announces that a new demand for an examination of the books of the Metropolitan street railway has been made by Eugene G. Philbin as counsel for Henry J. Braker or John F. Doyle or both. Mr. Philbin repeats many statements made in his previous requests for information declaring that the report of Mr. Teele has not explained the alleged discrepancy to which Mr. Emery called attention and demanding, on behalf of the stockholders, the right to examine the books to determine the truth. Alleged discrepancy is found in the reports to the state railroad commissioners and to stockholders.

One of Philbin's statements regarding these is that "By carrying forward a false balance of $3,000,000 the company has entirely avoided accounting in detail exactly $3,000,000 of the expenditures claimed to have been made on leased lines."

BABY'S FUTURE

Something for Mothers to Think About

Lives of Suffering and Sorrow Averted

And Happiness and Prosperity Assured by

Cuticura Soap, Ointment and Pills When All Else Fails.

Every child born into the world with an inherited or early developed tendency to distressing, disfiguring humours of the skin, scalp and blood, becomes an object of the most tender solicitude, not only because of its suffering, but because of the dreadful fear that the disfiguration is to be lifelong and mar its future happiness and prosperity. Hence, it becomes the duty of mothers of such afflicted children to acquaint themselves with the best, the purest and most effective treatment available, viz., The Cuticura Treatment.

Warm baths with Cuticura Soap, to cleanse the skin and scalp of crusts and scales, gentle applications of Cuticura Ointment, to allay itching, irritation and inflammation, and soothe and heal, and mild doses of Cuticura Resolvent, to cool the blood in the severer cases, are all that can be desired for the speedy relief and permanent cure of skin tortured infants and children, and the comfort of worn-out parents.

Millions of women use Cuticura Soap, assisted by Cuticura Ointment, for preserving, purifying and beautifying the skin, scalp, hair and hands, for annoying irritations and weaknesses, and for many sanative, antiseptic purposes which readily suggest themselves.

Sold throughout the world. Cuticura Resolvent, 50c. (in form of Chocolate Coated Pills, 25c. per vial of 60), Ointment, 50c., Soap, 25c. Depots: London, 27 Charterhouse Sq.; Paris, 5 Rue de la Paix; Boston, 137 Columbus Ave. Potter Drug & Chem. Corp., Proprietors.

Send for "How to Cure Baby Humours."

SLAVERY IN ALABAMA.

Investigation Into it Develops Some Queer Conditions.

Chicago, May 29.—A dispatch to the Tribune from Montgomery, Ala., says:

The investigation into the forced slavery of negroes in this state yesterday developed death from ill-treatment and the arrest of an agent who is accused of plotting to sell negroes into peonage.

Witnesses before the federal grand jury testified that death resulted from the punishment accorded a negro woman who was sold in servitude on one of the farms. The woman, accused of being rebellious and because she could not pile the brush for burning cut by a dozen men, was laid across a log and given 100 lashes. Still showing a rebellious spirit, her hands were tied and the rope thrown over the limb of a tree and pulled up so as to leave it barely possible for her to reach the ground. The woman died two days later.

F. M. Pruett of Gooodwater was arrested charged with conspiracy to sell Ed. Moody, a negro, to J. W. Pace.

Windiest Place in the World.

San Francisco, May 29.—Point Reyes has the undisputed record of being the windiest place in the world. It bases its claim to distinction in this respect on statistics which are now in the hands of Alexander McAdie of the weather bureau. These statistics show that for three days during May of last year the wind blew for three consecutive days at the rate of 72 miles an hour. The total blow for the three days was 4,701 miles of wind. The highest velocity attained was 102 miles an hour.

During this month for nine days, commencing May 14 and ending May 22, there were 11, 223 miles of wind, or enough to extend almost half way around the earth. The average velocity per hour for the nine days was 52 miles.

Train's Condition Alarming.

Stamford, Conn., May 29.—The condition of George Francis Train, who is suffering from smallpox, while not alarming, is such as to cause his physician much uneasiness. Mr. Train announced to Health Officer Borden, who is attending him at the isolation camp that he would hereafter take nothing more to eat and would refuse medicine.

After laboring with him for a long time, however, his physician and nurse finally induced him to reconsider his determination. In doing so the patient imposed as a condition that his daughter and her child must abstain from all animal food. Mr. Train's daughter agreed to follow the wishes of her father. The patient was at last reports said to be a trifle more quiet. The crisis of the disease has not yet been passed.

Ambassador Meyer Slightly Hurt

Rome, May 29.—U. S. Ambassador Meyer was slightly hurt through an accident to his automobile while coming from Citiva Vicchia to Rome at 20 miles an hour. Mr. Meyer on passing through a dust cloud found himself confronted by a long line of wagons on one side of the road and heaps of stones on the other, not leaving room for the automobile to pass. He tried to stop the car but it ran on to the stones. None of the occupants of the car were hurt except Mr. Meyer, whose face was lacerated.

THIRTY YEARS AWAKE.

Then He Quit Coffee And Found Refreshing Sleep.

Coffee causes insomnia and physicians are agreed that this is one of the most distressing of all nervous complaints. It is seldom indeed that a man who has reached the advanced age of 81 years is entirely cured of insomnia of 30 years' standing. An old gentleman of Phila. says: "I have been a great sufferer for many years from insomnia. I am 81 years of age and can truthfully say that until I quit coffee and commenced the use of Postum Food Coffee I had not known real refreshing sleep for more than 30 years.

"Postum was prescribed for me by my doctor who made me quit coffee. I have now used Postum for more than 2 years and its good effects are both wonderful and permanent. I regard it as a good friend not only as a remedy for coffee ills but as a pleasant and nourishing food drink with a fine flavor. Several of my friends are using it to great advantage and think it much superior to coffee.

"When the directions for making it are followed closely it cannot fail to give satisfaction." Name given by Postum Co., Battle Creek, Mich.

Such evidence supports the scientific theory on which Postum is based. There is a reason.

NO MORE INFANT DAMNATION.

The Presbyterian Assembly Adopts Revision of Creed.

POSITIVELY REVOLUTIONARY

Held as a Church Doctrine of Belief That All Who Die in Infancy Are Saved.

Los Angeles, Cal., May 28.—The Presbyterian church of the United States, in general assembly today finally disposed of the question of revision of creed that has been before the last three general assemblies, and which agitated Presbyterian circles for the past 15 years. The assembly today by unanimous vote adopted the revision of the confession of faith as prepared by the committee appointed by the general assembly of 1901.

Besides clearing the calendar of this important question, the assembly disposed of the "Tennessee overture" in regard to "separate presbyteries in the same territory" which was commonly known as the "colored question" of the Presbyterian church, and the report of the special committee on divorce and remarriage. Several minor reports also were heard during the day which on the whole has been the busiest of the assembly's sessions.

The fact that creed revision was to come up at this morning's session attracted the largest crowd that has attended any meeting since the opening. After disposing of some business of minor importance Moderator Coyle announced that Rev. Dr. Henry Van Dyke of Princeton, N. J., chairman of the committee on bills and overtures, would submit the report of the committee on revision. Before reading the report Dr. Van Dyke stated that two protests, one from the presbytery of Lehigh and the other from St. Cloud presbytery, tending to obstruct action on the revision question, had come before the committee, and it was recommended that the assembly vote to throw them out. The assembly so ordered.

Dr. Van Dyke then proceeded to read the report of the revision committee. He read the detailed vote on each one of the 11 overtures, which showed that no one overture had received more than 10 negative votes. These overtures were voted upon seriatim and adopted. But one voice in the negative was heard, and this only on overtures Nos. 5, 6, and 7.

A declaratory statement which precedes the changes in the confession of faith was read and adopted by the assembly as follows:

"While the ordination vow of ministers, ruling elders and deacons, as set forth in the form of government, requires the reception and adoption of the confession of faith only as containing the system of doctrine taught in the Holy Scriptures nevertheless seeing that the desire has been formally expressed for a disavowal by the church of certain inferences drawn from statements in the confession of faith, and also for a declaration of certain aspects of revealed truth which appear at the present time to call for more explicit statement, therefore the Presbyterian church in the United States of America does authoritatively declare as follows." Then follows the text of the report.

By the adoption of the 11 overtures, important additions, amplifications and amendments are made to the articles of the confession of faith. Of these one of the most vital is the erection into the church doctrine of the belief that all who die in infancy are saved, which is embodied in the declaratory statements regarding chapter III of the confession of faith and chapter X, section 3.

"That concerning those who are saved in Christ, the doctrine of God's eternal decree is held in harmony with the doctrine of his love to all mankind, his gift of his Son to be the propitiation for the sins of the whole world and His readiness to bestow His saving grace on all who seek it. That concerning those who perish, the doctrine of God's eternal decree is held in harmony with the doctrine that God desires not the death of any sinner, but has provided in Christ a salvation sufficient for all, adapted to all, and freely offered in the gospel to all; that men are fully responsible for their treatment of God's gracious offer; that His decree hinders no man from accepting that offer, and that no man is condemned except on the ground of his sin.

"Also that it is not to be regarded as teaching that any who die in infancy are lost. We believe that all dying in infancy are included in the election of grace through the Spirit, who works where and how he pleases."

For section 6, chapter XXV of the confession of faith the following is substituted:

"The Lord Jesus Christ is the only head of the church and the claim of any man to be the vicar of Christ and the head of the church is unscriptural, without warrant in fact, and is a usurpation dishonoring the Lord Jesus Christ."

Three additional chapters are added to the confession concerning the "Love of God for all men, missions and theory spirit."

At the afternoon session the "colored question" was disposed of promptly and without a flurry.

Rigorous Winter at Unga Island.

San Francisco, May 29.—The schooner Pearl, first of the codfishing fleet to arrive here from the north reports the most rigorous winter at Unga Island, Alaska, experienced there for many years. The mercury dropped to 30 degrees below zero and refused to rise for weeks. Three men were frozen to death, and all the inhabitants suffered terribly from the cold. Fred Anderson, a fisherman, was frozen to death while out hunting. Edward Handel was drowned. Owing to the severe weather the codfishing for this reason is small.

OUTRAGES ON JEWS.

Senator Cullom Will Call President's Attention to Them.

Peoria, Ill., May 28.—Samuel Woolner, Sr., in his capacity of president of the Union of American League of Jewish Congregations, in a personal interview at Springfield with Senator Cullom, chairman of the committee on foreign relations of the United States, laid the matter of atrocities against the Jews by the Russians fully before him. Mr. Cullom promised that he would personally bring the matter to the attention of President Roosevelt, who will be in Springfield in a few days.

Ohio Endorses Roosevelt.

Cleveland, O., May 28.—The Republican county convention today adopted resolutions endorsing the administration of President Roosevelt and recommending his renomination and election in 1904. Senator Hanna addressed the convention and paid a high tribute to President Roosevelt and his administration. He said in part:

"I have nothing but commendation for the record of the president, who from that awful day in Buffalo, when in the presence of his cabinet he registered a vow and called as witnesses the whole American people that it would be his duty as well as his pleasure to carry out the policies of William McKinley.

"That utterance gave him a high place in the hearts of the American people and to the best of his ability he has labored honestly to carry out that pledge."

To Revive Vice Admiralty.

Washington, May 28.—Rear-Admiral Taylor, chief of the bureau of navigation, is making plans to revive the grade of vice admiral in the United States navy. Secy Moody will take the matter under consideration when he returns to Washington and will probably insert a recommendation in his annual report.

The importance of having vice admirals on such stations as the north Atlantic and Asiatic is appreciated by every naval officer, not only of the American, but of foreign service. Rear-Admiral Taylor bases his recommendation upon the number of ships the officers will have to command. The administration of such large fleets requires that officers of the grade of vice admiral should be in charge.

Sheepherder's Body Found.

Great Falls, Mont., May 28.—Guided by one of his dogs, searchers from Saco have found the body of Burt Annsley, one of the sheepherders lost in the blizzard last week. One dog came into Saco to seek help while the other remained to watch over his master.

BABY'S VOICE

Is the joy of the household, for without it no happiness can be complete. How sweet the picture of mother and babe, angels smile at and commend the thoughts and aspirations of the mother bending over the cradle. The ordeal through which the expectant mother must pass, however, is so full of danger and suffering that she looks forward to the hour when she shall feel the exquisite thrill of motherhood with indescribable dread and fear. Every woman should know that the danger, pain and horror of child-birth can be entirely avoided by the use of Mother's Friend, a scientific liniment for external use only, which toughens and renders pliable all the parts, and assists nature in its sublime work. By its aid thousands of women have passed this great crisis in perfect safety and without pain. Sold at $1.00 per bottle by druggists. Our book of priceless value to all women sent free. Address

Walker Brothers Dry Goods Co.

$500 Reward!

FIRST—A reward of $250.00 will be paid by the Utah Light & Power Co. for information that will lead to the arrest of the party or parties who, this Wednesday night, caused a short-circuit on its electric high tension transmission line, through interference in some manner with said lines near said company's street railway's sub-station, Salt Lake City.

SECOND—A reward of $250.00 will be paid by the Utah Light & Power Co. for information that will lead to the arrest of the party or parties who, this Wednesday night, entered the high-tension transformer house of the street railway sub-station in Salt Lake City and maliciously threw a switch, cutting out the fan-blast motor serving the high-tension air-blast transformers located therein.

Salt Lake City, May 27, 1903.

UTAH LIGHT & POWER CO.,
By R. S. Campbell, Manager.

An act making it unlawful to injure, obstruct or destroy any line erected or constructed for the transmission of electrical current or appurtenances or appliances connected therewith; or to remove, injure or destroy any house, top, building, or other structure, or machinery connected therewith; or to set any fires that shall result in such injury or destruction; or to prevent the removal of any obstruction to such lines, and prescribing punishment therefor.

Be it enacted by the Legislature of the State of Utah:

Section 1.—It shall be unlawful for any person willfully or maliciously, to take down, remove, injure, obstruct, displace or destroy any line erected or constructed for the transmission of electrical current, or any poles, wires, conduits, cables, insulators, or any support upon which wires or cables may be suspended, or any part of any such line, or appurtenances or apparatus connected therewith, or to sever any wire or cable thereof, or in any manner interrupt the transmission of electrical current over and along any such line; or to take down, remove, injure or destroy any house, shop, building or other structure or machinery connected with or necessary to the use of any line erected or constructed for the transmission of electrical current.

Section 2.—It shall be unlawful for any person willfully or maliciously, to set any fire that shall result in the destruction or injury of any line erected or constructed for the transmission of electrical current, or any poles, conduits, wire, cables, insulators, or any support upon which wires or cables may be suspended, or any part of any such line, or appurtenances or apparatus connected therewith, or any house, shop, building or other structure or machinery connected therewith or necessary to the use of any line erected or constructed for the transmission of electrical current, or to set any fire that will in any manner interrupt the transmission of electrical current over and along such line.

Section 3.—Any person or persons, who shall willfully or maliciously violate any of the provisions of sections 1 and 2 of this act shall, upon conviction thereof, be punished by a fine not exceeding one thousand dollars ($1000), or by imprisonment in the state prison for not more than five (5) years, or by both such fine and imprisonment, in the discretion of the court.

Section 4.—This act shall take effect upon approval.

Approved this 23rd day of March, 1903.

(Signed) HEBER M. WELLS, Governor.
