In the Mozart hall the Democrats held a rally in which Hon, Jos. L. Rawlins was the principal speaker, Mr. Rawlins claimed that the enabling bill only passed the house and the senate after it was promised that Utah should go Republican.

JESSE KNIGHT SPEAKS, Jesse Knight made a speech which in part was as follows:

"Ladies and Gentlemen—I hope I will make the most of you or all of you hear the few words I have to say this hear the few words I have to say this evening. There is no need for me to make any apologies. You all know that I am no political speaker; have never made any pretense at being a speaker, but I could not refuse this invitation on account of it being the ladies who invited me. I have refusell continually to go out and try to do anything in the way of speaking, or say anything in favor of the governor to be, until the ladies invited me. Of course, I could not refuse then and be much of a gentleman, Now, in the first place I would like to say something in favor of the next governor, J. first place I would like to say something in favor of the next governor, J. William Knight. He has been criticized by the Republican party considerably, as you all know, as well as by the papers because he has the misfortune to have a little money. They have seen fit to find fault with him and say that his money was the only thing he had to take him through, but that it needed brains as well as money. A needed brains as well as money. A great many things of this kind we hear from the Republican party, and from men whom I would not think would mention such things.

would mention such things.

"In the first place I want to tell you that Will Knight did not put himself up for this position, but rather than see the Democratic party go down to defeat, as it looked like it might do, because they could not find anyone to accept the nomination, after I refused in the first place, John Dern refused in the second place, and the Lord knows how many in the third place, so as I told you before rather than see the Democratic party be defeated he concluded to accept the nomination. I make this apology for Will because he concluded to accept the nomination. I make this apology for Will because I know he did not accept only because of the Democratic principle, which means Charity always. Now one thing I thought I would mention tonight. I have heard it from a number of sources, but I think it started from the Republican party, and I have heard too that it was started by some of the officials around the bank corner up here. here.

WILL NOT LEAVE PROVO.

WILL NOT LEAVE PROVO.

"It has been reported by a good many that if Will accepted the nomination he would move to Salt Lake City and then take all our business there. They have been telling around town such yarns as that, yarns without any foundation. Now I want to say to you that none of his business or mine, either, will ever go to Salt Lake City. I moved to this town, Provo, on account of this university here being the best school in the world. That school has helped me raise my children, and I expect it will help me raise my grandchildren, and perhaps hundreds and hundreds of grandchildren and great-grandchildren, and therefore you need have no worry, but that Will will come back in four years. He has already told be he would not accept the nomination for another four years for anything. He is not a politician and I know ho will not want another term. If he does, refuse to vote for him for another four years."

At this point Mr. Knight went on to indulge in a review of the history of the Provo Woollen mills and some remarks regarding Senator Reed Smoot. Mr. Knight concluded by saying:

conference was held in the Eleventh ward. Besides President Richard W. Young and Counselors Jos. S. Wells and John M. Knight, there were present a number of high counselors and other prominent members of Ensign stake. Reports from all quorums and organizations showed the ward to be in excellent condition. The evening was also the seventeenth anniversary of the ordination of Robert Morris as bishop of that ward, and he received many hearty congratulations from the assembled throng, which packed the hall to its capacity.

Several months since a vacancy was caused in the bishopric by the death of Charles Livingston, who had been first counselor to Bishop Morris for many years. This vacancy was filled by promoting Second Counselor Isaac Sears to be first counselor, and Elder Arthur W. Brown was chosen and set apart as second counselor to Bishop Morris. These changes in the bishopric were heartily endorsed by the assembly, and give general satisfaction, and there is no doubt the affairs of the ward will continue to be managed with the ability and fidelity which have characterized the entire administration of Bishop Morris.
