

ANTI-MORMON CAMPAIGN LOST

Attempt to Defeat Hopkins in Illinois Was a Signal Failure.

VOTED FOR SENATOR SMOOT

For This Bigots and Fanatics Sought to Arouse Religious Prejudice.

Foss and His Friends Making Claims About Popular Vote Not Being Binding on Legislature.

Chicago, Aug. 10.—Such returns as were available early today in addition to those obtained last night confirmed the Republican nomination of Charles Deneen for governor and gave the Republican endorsement for United States senator to Albert J. Hopkins. From figures at hand which, however, are incomplete, the majority vote of Deneen over Yates is probably not far from 15,000 to 10,000.

The vote for United States senator shows that Hopkins has about 15,000 plurality over Foss, but it is not certain that this estimate will hold. The returns from some counties may reduce Hopkins' lead materially. It is, however, considered certain by politicians, that Hopkins will receive a strong plurality on the popular vote.

It is certain that Foss will carry the fight into the legislature and a warm contest will ensue when the body meets next winter.

Foss and his managers claim that he has carried a majority of the senatorial districts, and that the chief strength of the Hopkins vote, especially in the city of Chicago, has been in the Democratic wards. It is claimed that the vote is not binding on the members of the legislature and therefore Foss and his friends declare that even if defeated on the popular vote he will have a majority of the legislature under instructions for him.

The Hopkins managers deride this claim and assert that the vote of the state at large is the only thing that carries with it the party endorsement. The returns today seem to indicate that J. C. Olesby has been nominated for lieutenant governor on the Republican ticket and that J. L. Pickering has been chosen by the Democrats as their candidate for clerk of the supreme court. These were the only returns of which the result was last night in doubt.

The returns from the country precincts continue to come in slowly. Precise figures are most difficult to obtain on many of the votes, particularly those on the Democratic ticket. Because of the general interest felt in the struggle for the Republican gubernatorial nomination and for the Republican endorsement for senator, the election judges generally counted the votes of that party first. Enough figures are obtainable, however, to show that Lawrence B. Stinger of Lincoln, has received an overwhelming majority for the Democratic endorsement. Charles F. Johnson, a former vice president of the National Association of Manufacturers, has been nominated for governor.

The Republicans throughout the state seem to have turned out to vote in the primary election in greater force than the Democrats. This is generally attributed to the interest felt in the Republican contests.

FLAG OF U. S. CONSULATE AT TABRIZ SHOT DOWN

Washington, Aug. 10.—The flag of the United States consulate at Tabriz, Persia, has been shot down by loyalists, according to a dispatch received at the state department today from American Consul Dwyer at that place. The consul also reports that the flag was shot down near the door of the consulate of the United States.

GEN. FUNSTON.

Announces Command of Department of California to Col. Maus.

San Francisco, Aug. 10.—Gen. Fredrick Funston today turned over the command of the department of California to Col. Marion P. Maus and will leave this week for Fort Leavenworth, Kan., where he will take charge of the cavalry school.

Maus, the new commander of the department of California, has a brilliant record as an Indian fighter, having won the Medal of Honor for his gallantry in the campaign against the Apaches, particularly against Geronimo, in 1886. He was then in command of the American detachment, and all the other officers were killed. Lieut. Funston was the only survivor of the five hours and drove them from the camp. For gallantry in this action he was awarded the congressional medal of honor.

AUTOMOBILE EXPLODES KILLING TWO PEOPLE

Painesville, Ohio, Aug. 10.—Mrs. Mary Wade, 55 years old, and Mrs. Rose Wade, aged 43, were instantly killed by an automobile explosion here today. The car, a Buick, was driven by Mrs. Wade, 45 years old, and her daughter, 16 years old, who was sitting in the front seat. The car was traveling on a highway when it exploded, and the occupants were killed. The cause of the explosion is not yet known.

ENTERTAINING ATLANTIC FLEET

At Auckland Government Gave Banquet to Admiral Sperry and Officers.

TOAST KING AND PRESIDENT

Each a Born Ruler, Richly Endowed With Common Sense, Each a Peacemaker.

Auckland, Aug. 10.—The government gave a banquet to Rear Admiral Sperry and the officers of the American battleship fleet now anchored in this harbor at the Drill hall tonight. The affair was carried out on a magnificent scale. The hall was tastefully decorated with flags, the Union Jack and the Stars and Stripes being everywhere conspicuous.

The prime minister of New Zealand, Sir Joseph George Ward, proposed a toast to King Edward and President Roosevelt during the course of which he said: "Each is a born ruler, richly endowed with common sense and a great ardent lover of his country and people. Each is a peacemaker. The American navy were the great and the ardent friend of the world. We are proud of Admiral Sperry's visit and no fleet except a British one is so welcome."

When the commander-in-chief rose to reply to the prime minister's toast he received a tremendous ovation. In his speech he said that while the navy floated no enemy could reach New Zealand's shores. He recalled the time when the American navy were told they had the strongest navy in the world—when they had seven rotten monitors. He was very hopeful now because so many gallant young officers were growing up in the American fleet, the admiral said, had developed homogeneity and by its present cruise had enlarged the benefits of naval training. He could safely say there was no other navy in the world.

The illuminations in Auckland tonight were brilliant, the town and harbor being ablaze with lights. After the sun went down a fireworks display was held on shore in conjunction with the illuminations and searchlights. The fireworks were of a variety of colors and patterns, and the display was a most successful one. The city itself was beautifully lighted, incandescent lamps of various colors being utilized to bring out the architectural features of the buildings and the harbor.

A grand review of the Auckland troops was held on the military field this afternoon and it was a brilliant affair. The New Zealanders distinguished themselves as light horse in South Africa. Included in the review were many veterans of the Boer wars which raged in North Island from 1899 to 1902.

On Tuesday 1,000 sailors from the battleships will land at Queen's wharf to spend the morning sightseeing in Auckland. After lunch they will return to the ships.

In the afternoon a reception will be tendered to the officers by A. M. Myers, mayor of Auckland at the Drill hall at which editors in the city and other citizens of Auckland will be present. In the evening Lord Plunkitt, the governor of New Zealand will give a state ball at Government house to which the officers of the fleet have been invited. For the sailors of the fleet arrangements have been made to hold smokers at the various halls of the city.

BRUSH ASIDE TECHNICALITIES.

Melbourne, Aug. 10.—Referring to the refusal of the New Zealand authorities to sanction a rifle match between teams made up of sailors from the American battleships and the Dominion volunteers on the ground that the regulations forbid the landing of armed parties of foreigners, Hon. Thomas Thomson, ending, commonwealth minister of state for defense, states that he will not allow those technical regulations to interfere with the rifle matches of a similar nature that have been arranged as a part of the entertainment during the battleships' call at ports in Australia.

NO TRIAL OF BALDWIN'S AIRSHIP TO BE MADE TODAY

Washington, Aug. 10.—It is not expected that the official speed test of the Capt. Baldwin's dirigible balloon will be held at Fort Myer today as has been announced. Glenn H. Curtiss, the builder of the motor, who went to Hammondsport, N. Y., on Saturday to get four carburetors for the motor, wired Capt. Baldwin last night that he would probably be unable to start for Washington until today. The failure of Capt. Baldwin to attempt the test today is due to the fact that he had announced that he would indicate that he could not make the speed requirement of 16 miles an hour. When questioned Capt. Baldwin said: "It has at no time occurred to me that I would not fulfill the speed requirements. I am satisfied that we will make 22 miles an hour in the official trial."

Our test of the motor and propeller at Hammondsport we found that they had a maximum pulling power of 250 pounds. The shape of my gas envelope reduces the resistance to a minimum. It is compensated for by the tapering of the bag toward the rear end. The skin resistance and the resistance offered by the ropes, the same and the operators is practically all that remains to be contended with. There are any number of things which come into play, but not being a scientist, I cannot explain them. I have learned the theory from practice."

Prof. Henry H. Clayton, the meteorologist, John McCurdy of the Aerial Experiment Association, and August Post, secretary of the Aero club, figured out the speed which Capt. Baldwin's airship should make as 22 miles an hour.

UTAH NATIONAL GUARD AT DALE CREEK, WYO.

BRYAN HARD AT WORK ON SPEECHES

One on Tariff, to be Delivered at Des Moines, August 21. Sent To the Printer Today.

NOW WRITING ONE ON TRUSTS

Delegation of Traveling Men Bring Encouraging Reports of Sentiment For Democratic Ticket.

Fairview, Lincoln, Neb., Aug. 10.—The tariff speech of W. J. Bryan to be delivered at Des Moines, Iowa, Aug. 21, was today sent to the printer, and the Democratic candidate for president immediately began work on his speech on trusts which he will make at Indianapolis, Aug. 25, upon the occasion of the notification of John W. Kern of his nomination for the vice presidency.

Mr. Bryan was an early riser today. His first visitors were a delegation of traveling men who brought with them encouraging reports of the sentiment in various parts of the country for the Democratic national ticket.

The political situation in Illinois was of more than usual interest to Mr. Bryan, but he declined to be interviewed on the subject. He said, however, that perhaps after thinking the matter over he might make a statement some time during the day giving some time to some views regarding that situation.

Representative Henry D. Clayton of Alabama, chairman, and Dr. J. W. McClure of Sedalia, Mo., a member of the notification committee, came out to Fairview in the early morning and were in conference with Mr. Bryan for some time.

Another old man in the person of Harvey W. Hardy, who carried his 83 years well, came out to Fairview today to tell Mr. Bryan that he would leave Lincoln in the morning on a "missionary tour" of New York state. Mr. Hardy voted for the Democratic ticket, but twice for Congress and twice for president.

"It is my intention," said he, "to make speeches in Idaho and Wyoming counties and anywhere else in New York where I may be needed."

Far back in the '50s Mr. Hardy was superintendent of schools in Wyoming county. Mr. Bryan took the greatest interest in his fellow townsman who is a prosperous business man, and thanked him for his devotion to Democracy's cause.

CLAYTON'S VISIT.

The conversation of Mr. Clayton had to do largely with his speech of notification. He, however, repeated to Mr. Bryan his statement given out for publication last night expressing confidence in the success of the Democratic ticket.

Dr. McClure subscribed to that view and assumed the Democratic nominee position. "The people want a change," declared Dr. McClure after leaving the Bryan home. "They are tired of the condition of things and so far as Missouri is concerned they do not want a Republican administration under a Republican administration who should have such times as there are now. It is a conundrum to them."

Statement of Dr. McClure, a member of the notification committee, that he had received instructions from headquarters to vote for himself and Kern.

First Methodist Episcopal church of Osceola, Kan., also talked with Mr. Bryan. Dr. McGuire had traveled through Missouri, Kansas, Oklahoma and Nebraska. Both his father and himself, he said, always heretofore, had voted the Republican ticket, but that this fall they would vote for Bryan. He had talked with many Republicans, but they all agreed that the four states visited by him and stated that a large majority of them were clamoring for a change. The rural people in particular, said Dr. McGuire, come out strongly for the Democratic candidates.

"I have special reasons for knowing that that is true," he declared.

In the course of conversation with these three men the subject of primary elections came and Mr. Bryan was led to remark that "no matter what the results are if the people have what they want that is the best we can hope for."

WANT MARTIAL LAW DECLARED

Many People in Birmingham, Ala., Call on Governor to Enforce It in Mining District.

WOULD DISARM STRIKERS

Dozens of Arrests Made for Shooting On Train Bearing Non-Union Men.

Birmingham, Ala., Aug. 10.—More than three dozen arrests have been made in connection with the shooting into a train bearing strike-breakers and soldiers near Blocton, early Sunday morning in which three men were killed and 15 hurt. Negroes and foreigners are being arrested and many are being taken to the jail at Centerville, the county seat of Bibb county. Many citizens of Birmingham are calling on the government to declare martial law in the mining district so that the strikers can be disarmed and where leaders are giving advice that is inclined to be inflammatory they can be deported from the state or locked up in jail.

The men who were injured in the shooting are progressing nicely except Robert Sigmon, a laborer, who will probably die before night.

In addition to the first regiment of the Alabama national guards, the Third battalion of the Third regiment is on duty in the strike zone.

Several injuries were started today. Sheriff Higdon's early reports to the effect that everything was quiet in Jefferson county last night and today. The reports from Shelby county, where four houses were dynamited Saturday and a negro killed, are to the effect that the deputies are still at work and probably will add to the number of men arrested.

HOLLAND AND CASTRO

Hague Government Anxious to Find Out Attitude of United States in Certain Conditions.

The Hague, Aug. 10.—The foreign minister of the Netherlands had a long interview today with Arthur M. Beaupre, the American minister here, the subject being the dispute between Venezuela and the Netherlands, which resulted in the expulsion by President Castro of M. De Reus, the Dutch minister, at Caracas. The Dutch foreign office is anxious to ascertain the views of the American government and the attitude it is likely to adopt in the varying contingencies that are likely to arise.

\$50,000 FOR BUILDING FOR HARVARD GERMANIC MUSEUM

Berlin, Aug. 10.—At today's session here of the International Historical congress, David Jayne Hill, the American ambassador to Germany, made the announcement that Adolphus Bush of St. Louis was ready to give \$50,000 toward the Germanic museum building at Harvard university. Dr. Hill said:

"On Nov. 10, 1903, the anniversary of the birth of Johann Schiller, the famous German poet, dramatist and historian, there was opened at Harvard a museum in which it was intended to collect an exhibit of works representative of German art culture. This collection has grown to be one of the most complete of its kind in existence. It has received from his majesty, the German emperor, not only assurances of his general interest, but many substantial gifts which were received in the United States with gratitude and appreciation as marks of special friendship."

"The historic value of this collection already has been very great, and it promises to become perhaps the most impressive embodiment of art of the old world to be found on the shores of the new world. It is therefore with great pleasure that I find myself authorized to announce that the well-known American citizen, Adolphus Bush of St. Louis, president of the Germanic Museum association, in a letter to me, offers to contribute toward the erection of a suitable building for the installation of the museum, the sum of \$50,000, which is one-fifth of the amount it is expected the building will cost."

The delegates to the congress at the conclusion of this announcement, applauded Ambassador Hill, who added:

"The museum will constitute new evidence of the information of past times of other lands as exercised upon the new development of civilization, which might be of interest to the congress."

BOY CONFESSES TO MANY BURGLARIES

Protests His Innocence Until the Police Take His Cigarettes From Him.

MYSTERY PROMPTLY SOLVED.

Property Stolen Consists of Fifty Bicycles, Twenty Dozen Glasses, Etc.—Ruse of Detectives Effectual.

A youth's craving for cigarettes caused the arrest of three burglars and the recovery of considerable property, including about 50 bicycles and 15 or 20 dozen glasses, and also solved a problem that has been worrying Chief of Detectives Sheets and his plain clothes men for a number of days.

For the past two weeks complaints have been coming in thick and fast at police headquarters about the theft of bicycles. Wheels were stolen right and left from all parts of town. Many of them were recovered but the police were unable to locate the thief. Then came reports that the Fair store, located at 257, had been broken into and dozens of glasses stolen. The place was broken into five or six times but the police were unable to get a clue.

Bicycle Policeman Dan Grundvig was detailed to work up the wheel end of the mystery while plain clothes men were detailed on the warehouse robbery.

FIRST CLUE.

Last week Officer Grundvig obtained a clue that Lawrence Martin, aged 17 years, and a man named Mike Donald had been stealing wheels and selling them about town. Both were placed under arrest and many of the bicycles recovered. Donald was locked in the city jail but young Martin was sent to the juvenile court. There he told a story that excited sympathy and was released pending his good behavior. No sooner was he out of the clutches of the law than he was up to his old tricks again. Denied the assistance of a friend, he hunted up Percy Peterson, a "hop head" hack driver who had been arrested many times for various offenses, and the pair began to rob the Fair store warehouse. They gained entrance by smashing a lock. Dozens of beer glasses and fancy glasses were carried off and sold to various saloons in town. At 8 o'clock the Ocean bar purchased 10 dozen and several dozen were sold to Roy Cahoon of the Council bar on east First South street.

ARREST THIS MORNING.

This morning about 7 o'clock, an employee of the Fair store, young Martin, trying to get into the warehouse again. He telephoned the police and then nabbed the youngster. Sergeant Roberts and Officers Hinton came hurried to the place in the warehouse and placed young Martin under arrest. He was taken to police headquarters and locked up.

The young man declared that he was not trying to get into the warehouse and swore that he had never been in the place. The police tried every way they could think of to induce him to make a clean breast of the whole affair but he persistently denied all knowledge of the robberies that had occurred there. Finally Chief of Detectives Sheets said to the jailer:

REFINEMENT OF CRUELTY.

"Lock him in the cell by himself and take his cigarettes away from him and do not let him have any."

This proved to be too much for young Martin. He broke down and confessed that he had broken into the warehouse, that he had stolen many bicycles, and implicated Percy Peterson in the warehouse robberies and Donald in the theft of the wheels.

Detective Wilson and Officer Goding hurried out and soon located Peterson in a west Second South street roominghouse. He was brought to the station and questioned. At first he denied all knowledge of the robberies, but later broke down and made a full confession. About 15 dozen of the glasses were recovered and are now at police headquarters awaiting the trial of the boys.

COMES OF GOOD FAMILY.

Young Martin has a home with his parents at 83 I street. His father and mother have done all in their power for him. He was provided with a good home, food and clothing, but preferred to drift about the streets and mix with bad company. Some years ago he was arrested by Detective Sheets for robbery and was sent to the reformatory. He would rather steal than work for a living. He has been making in bad company and wandering the streets late at night in spite of all that his parents could do for him. He takes his arrest in a careless manner and evinces no interest in his predicament until the police threaten to take away his cigarettes.

It is more than likely that the saloon men who purchased the stolen glasses will be arrested for receiving.

WILL GOV. HUGHES BE RENOMINATED?

Rank and File of New York Republicans Will Dictate, Says Chairman Woodruff.

PAYNE IS NOT A CANDIDATE

His Ambition is to be Re-elected to Congress and Help Revise The Tariff.

New York, Aug. 10.—That the rank and file of New York Republicans will dictate whether Charles E. Hughes will be re-nominated for governor was the substance of a statement made by State Chairman Timothy L. Woodruff, who returned today from the Adirondacks. Mr. Woodruff said:

"We have been trying to find out the real sentiment of the rank and file of the Republican party of New York in a choice for a candidate for governor and we are still seeking what the sentiment may reveal. The organization has every confidence in the rank and file of the Republican party of this state to act wisely in the matter and we see no reason to think that the body of Republicans should not likewise have confidence in the organization. We shall be guided by what the party wants in this matter."

Chairman Woodruff announced that the temporary chairman of the state convention will be either Elihu Root or Joseph H. Choate, both of whom have signified their willingness to serve in that capacity. Whoever is made permanent chairman will require the approval of the rank and file of the party. The date of the convention will be selected at a meeting at the Republican club on Wednesday.

Auburn, N. Y., Aug. 10.—Congressman Seno Payne, chairman of the house committee on ways and means, denies that he is a candidate for governor of New York state. Congressman Payne said today:

"I am not and shall not be a candidate for governor. My present ambition is to be re-elected to Congress and help revise the tariff."

SENATOR CULBERSON WANTS MEETING OF THE COMMITTEE

Washington, Aug. 10.—Senator Culbertson of Texas has communicated with Chairman Mark Hanna and requested that the committee be arranged for a meeting of the advisory committee of the national committee of which Mr. Culbertson is chairman. It is expected that the advisory committee will meet in Chicago in the near future.

FIRE IN PITTSBURG.

Pittsburg, Aug. 10.—Fire starting today in the sixth floor of the Phipps power building at Duquesne Way and Cecil alley threatened a congested portion of the business district, created a panic in several houses and required the services of almost the entire city force of fire fighters. Elevators in the big structure were kept running and firemen were rushed in twentieth century bucket elevators to the burning offices, but for which the fire would soon have been under control. Half clad guests of hotels who fled when they saw flames close to them returned to bed after it was safe to do so.

The total loss was placed at \$25,000.

HORSE DERAILS TRAIN.

Walks on to Track and Nearly Causes Bad Wreck.

Engine pulling train No. 14 due from Lagoon at 10:30, was derailed last night by a stray horse which strayed on the track. The horse stepped into the train's path while a speed of twenty miles an hour was being made by the engine. The engine was derailed and the train was thrown off the track. The engine was running backwards and the train was thrown off the track. The engine was derailed and the train was thrown off the track. The engine was running backwards and the train was thrown off the track.

SPEEDSTER FINED \$25.

Judge Whitaker of the city court today imposed a fine of \$25 on E. H. Hagedorn charged with exceeding the auto car speed limit. The man was arrested last week at the instigation of Judge C. B. Diehl, of the criminal division of the city court.

The accused appeared in court, and by his attorney, entered a plea of guilty. Counsel stated that his client was merely testing his machine on the automobile contest of Saturday and pleaded this as extenuation Judge Whitaker said that for such an explanation he would have imposed both fine and imprisonment, but he felt to be somewhat lenient under the circumstances.

Young Martin will not again go before the juvenile court. Now that he is charged with a felony, the criminal division of the city court will have jurisdiction over him. The three men will be charged with burglary and attempted burglary. It is believed that the gang is responsible for a number of robberies reported recently.

TWO OTHER BURGLARIES.

There were two other cases of burglary reported to the police. The Del Lago, owned by the late Del Wilson, situated on Second South and Plum street, was broken into yesterday afternoon between the hours of 2 and 3 o'clock. The thief broke open a side door and made off with \$29.50 in cash which was taken from the register. The front door was left open, which led to the report that liquor was being sold there last evening. The police investigated and found that the place had been robbed.

Mrs. Sarah Mansfield, residing at 1745 south Seventh, east reported that thieves stole a single harness from her premises last night.

SITUATION IN WEST VIRGINIA

Will be Taken Up by Judge Taft With Chairman Frank H. Hitchcock.

CONFERENCE ON WEDNESDAY

Senator Elkins Says He Believes Swisher Will Have Big Majority.

Desire of State Leaders Not to Involve Presidential Candidate in Factional Difficulties.

White Sulphur Springs, W. Va., Aug. 10.—Mr. Taft and party left here early today for Hot Springs, Va. Not being familiar with all of the details of the arrangement by which Elmer Dovel takes the secretaryship of the advisory committee of the Republican national committee, and William Hayward of Nebraska, the secretaryship of the full committee, Mr. Taft said he had no statement to make at present.

JUDGE TAFT ARRIVES.

Hot Springs, Va., Aug. 10.—Judge Taft and party arrived here this afternoon from White Sulphur Springs, W. Va. Frank H. Hitchcock, chairman of the national Republican committee, is expected to reach here Wednesday when the West Virginia situation will be taken up with the leaders from that state. Mr. Swisher, Republican candidate for governor of West Virginia, came here on the same train with Mr. Taft and will remain to see Mr. Hitchcock.

Senator Elkins of West Virginia, who reached here yesterday, had an extended conference with Mr. Swisher today, after which he said he believed Mr. Swisher would be elected governor by 25,000 majority, and that Mr. Taft would carry his state by 35,000 majority.

It was not, he said, the desire of the leaders of his state to involve Taft in the factional difficulties which have arisen by reason of Mr. Schermer's desire to become governor. Practically, he continued, Mr. Schermer had organized a new party and he did not see how the Republican national committee could recognize any but the regular Republican party in its conduct of the campaign of the state.

POLICE COURT ROUNDUP

Judge Diehl hands out justice to customary lot of offenders.

In Judge Diehl's court this morning a fellow giving the name of E. K. Nash, carrying a couple of black eyes, his clothing covered with filth, and giving forth an odor not unlike a stack of old beer kegs, was arraigned on the charge of drunkenness. Nash refused to plead for some time, but finally said he was not guilty. He was tried, found guilty, and being his first offense, was discharged. It was stated to the court that Nash had been on a spree for several days and had terrorized his wife, but he agreed to be good, and was permitted to go.

Emma Johnson, the Murray woman who tried to throw herself in front of a street car last evening on Main and First South street while under the influence of liquor, pleaded not guilty to the charge of drunkenness. She was arraigned on the charge of drunkenness and was committed to the city jail until arrangements can be made to send her home.

The unfortunate woman married several months ago and then learned that her husband was already married and had several children. The woman became discouraged and began drinking to an extent that her mind has become unbalanced.

STOLEN FROM ORPHANAGE.

Three Kooymun Children Forcibly Taken by Their Mother.

Three Kooymun children were stolen from the State street orphanage, where they had been placed by the juvenile court officials, Sunday evening. Mrs. Kooymun, their mother, assumed the responsibility for taking them away from the custody of the orphanage. The mother declares that with the woman at the time were her ex-husband, John Kooymun, later son Coriellus, and daughter Henrietta. It is said that the four went to the institution late in the day, and the mother, being alone at the time, was powerless to prevent them from carrying out their threat of taking the children home.

A short time ago the Kooymun baby was seen from the orphanage by first mother. It is believed that Kooymun was outside at the time to render assistance, if necessary. The taking of the children will be called to the attention of the county attorney, with a view to taking them away from the custody of the mother.

NEW LINE DOES WELL.

The Salt Lake & Ogden railway did a heavy passenger business between Salt Lake and Ogden yesterday. All trains being well filled, both going and coming. Several hundred Ogden people visited Lagoon. President Simon Hammerger, Mrs. Hammerger and Dr. Baldwin, went to the Junction City and Ogden canyon on the 4 o'clock train in the afternoon, visiting Ogden canyon. Several new station houses are to be erected between Farmington and Ogden.
