

The house carpenters' league has joined the People's anti-Chinese Protective Alliance.

The fall of a wall at a fire in Howard St., to-day, caused serious injuries to Welch and Edward Wilhelm, foreman of the engine companies, and a number of other firemen. The loss by the fire amounted to \$37,550.

When Chief Justice Barbour was informed of the death of Walworth he immediately adjourned the court, the gentleman being his nephew. Walworth arrived in the city on Monday to attend to a communication from the grand lodge of the masonic fraternity of the State of New York, which opens here to-day. Walworth was a son of the late Chancellor Walworth, one of the most distinguished citizens of this State and a man identified with the great temperance, tract and Bible societies. A brother of the deceased is a popular and eloquent mission preacher of the Paulists, whose religious house is in 59th St., West Central Park. The family have been largely identified with the most prominent interests in the State.

WASHINGTON, D. C., 3.—The question as to what shall be done with Captain Jack and his followers is to-day privately discussed in military and civil circles. All seem to be agreed that as the Modocs surrendered as prisoners of war, it is not to be expected that they shall be punished by the army, which, however, will hold them in custody until further orders. Gen. Davis will report the facts to the headquarters of the army, and ask for instructions in the premises, and a communication will be sent to the department of the interior as usual in such cases, the Indian murders having been committed while the department was engaged, through its agents, in attempts to carry out the peace policy, the army serving as an aid for this purpose. The entire subject will probably be submitted to the President and cabinet for final determination.

Santa and Big Tree have been turned over by the interior department to the Texas authorities, and a similar course may be pursued with the principal Modocs, namely, remit them to the State of Oregon for trial and punishment.

NEW YORK, 3.—It is reported this p. m., on good authority, that McDonald, the Bank of England forger, was taken direct from the U. S. district court to Fort Columbus, so as to avoid the service of any writ his counsel might obtain. He will, it is stated, be taken to England to-morrow.

Frank Walworth, who killed his father to-day, will be kept at the station house, where he went and surrendered himself after the murder, until after the inquest, and should a verdict be rendered against him he will be sent to the Tombs. He is but 19 years of age, and treats the affair very lightly. He expresses no regret for the murder except, so far as the terrible distress it will occasion his mother and family. At the time of his death Walworth was publishing a serial story in the *New York Weekly*, and had another novel in press.

SARATOGA, N. Y.—Frank Walworth, who is reported to have shot his father in New York City, left here yesterday morning, without informing his mother of his intention. Mrs. Walworth had lately received a number of threatening letters from her husband, Mansfield Tracy Walworth, and it is supposed that young Walworth has intercepted similar letters to her from his father, as she has found in her son's room two empty envelopes to her own address since he left home. The mother says her son had also received threatening letters from his father. Mrs. Walworth was divorced from her husband about two years ago.

WASHINGTON.—The Department of State has received information from DeLong, to the effect that religious toleration in Japan has not been decreed, the laws and edicts against Christianity have not been abolished, but orders have been sent for the return of the banished Christians to their homes, and for the removal of offensive proclamations against Christianity. Those in the government councils favoring religious toleration were said to be in the minority, but it was thought that the time was not far distant when all decrees against freedom of thought upon all subjects would be abolished.

BOSTON.—J. L. Savage, late cashier of the Lechmere Bank, East Cambridge, was to-day sentenced to five years in Lowell jail, for ma-

king false and fraudulent entries in the books of the bank.

PROVIDENCE, R. I.—An extensive woollen mill in Johnston, owned by Charles H. Whipple, and run by F. F. Farewell, was burned this a. m. Loss, \$8,700, mostly covered by insurance in eastern companies.

CHICAGO.—Charles List, a saloon keeper in the west part of the city, last night, shot and killed Thos. Sullivan who, with other ruffians, was stoning the windows of List's saloon.

SPRINGFIELD, O.—The building of Ludlow & Roberts, manufacturers of superior grain drills and champion cider mills, was destroyed by fire this evening; loss \$6,000, insured for about one half the amount.

ST. LOUIS.—Prof. O'Donovan, of the Christian Brothers Academy, in this city, was drowned yesterday afternoon, several miles from town. Mr. O'Donovan was quite a young man, and son of the distinguished Professor O'Donovan of Trinity College, Dublin, Ireland.

NEW YORK.—Additional of the Walworth murder. The *Tribune* furnishes the following: "Mrs. Walworth, a little more than 3 years ago, instituted proceedings for a divorce, and eventually obtained a bill of separation on the ground of cruel treatment on the part of her husband. She received the sympathy and support of the relatives of herself and husband, and all friends who were conversant with the facts of the case. Since her separation from him Walworth has annoyed her in various ways, principally by writing her abusive letters, and occasionally threatening her life. He has also reflected upon her character, it is said, in an indirect way, in one of his works of fiction. Mrs. Walworth was a daughter of General Hardin, of Ill., a military man of prominence in the Mexican war, he having especially distinguished himself at Buena Vista. Frank Walworth, on a commitment made by the coroner, has been removed to the Tombs. Mrs. Walworth telegraphed to ex-Judge Beach: 'See my son, Frank H. Walworth, at once, and attend to his case.' Beach subsequently had a consultation with his client."

General Schofield has ordered all the troops in the Modoc country to be concentrated in camp near Tule Lake, to await further orders. It is thought that the principal part of the Modoc prisoners will be brought to this city.

Complaints are frequent about assaults by boys upon Chinamen in this city, and the police authorities are called on against the outrages.

John Brannan, arrested on suspicion of killing a Chinaman last week, is or pretends to be a victim of emotional insanity. He says the ghost of the Chinaman constantly haunts his cell, and like the notorious Mortimer he affects suicidal purposes.

SAN DIEGO, 3.—The Union's special from Ares says the State authorities of Sonora have complained of not receiving arms, ammunition or pay for soldiers to protect the frontier against the Apaches for months. Twelve hundred Indians, armed and protected by the United States government, have made raids in Sonora, and Safford and Crook are powerless on account of Howard's treaty.

LOS ANGELES, 3.—In the case of Robert Page, under sentence of death, the District Court grants a stay of the execution of the sentence pending an appeal to the Supreme Court.

In San Bernardino county, a few days ago, an immense swarm of green bugs was noticed traveling along the highway near the border. They resemble in shape the tumbler bug. They had wings but could not fly. They covered the ground for three miles.

The Southern Pacific surveyors are locating the line from Florence station to Anaheim. They have run two lines from Florence to Galatin, and they are now at Coyote station, on the road to Anaheim.

HAMILTON, Ont., 3.—The night express train of the Great Western railroad ran off the track at the switch at Capetown, this a. m.; twenty-five passengers were injured, seventeen of whom proceeded on their journey, the others remaining at the hotel.

PHILADELPHIA, 4.—John Brown and Sons' cotton mill, at the corner of 8th and Mountain Sts., was destroyed by fire at 1.30 o'clock this a. m.

MEMPHIS, 4.—For the past ten days a disease, pronounced by physicians cholera morbus or malarial fever, has prevailed here, but no

alarm was felt until yesterday, when physicians generally agreed that it was cholera, some classing it as sporadic, and others as Asiatic. Thus far its ravages have been chiefly confined to negroes and the laboring classes, and in the absence of an organized board of health, it is difficult to estimate the number who have died. The doctors say that the disease, if promptly attended to, yields readily to treatment. Among the latest victims was Geo. Moore, of the Memphis and Louisville Transfer Co., who died last night. Reports from the river towns below here say the disease prevails there also. There is but little excitement here with regard to it.

Jack Rodley, engineer of the Mississippi and Tennessee R. R., was murdered at Hernando, Miss., yesterday, by J. C. Satter, road master, who was captured and jailed.

NEW YORK.—Gen. Van Buren has written another letter, in which he says that a more indefensible outrage than the whole treatment of himself and associate commissioners by the press of this country he cannot conceive of.

The contracts for covering the court yards for an addition to the machinery hall at Vienna, said by a correspondent to have been given on agreement that five per cent. was to have been paid to the commissioners having charge of the job, were awarded by McErath, who sits in judgment on his former associates. He says that all the charges made are baseless falsifications and that neither minister Jay nor his man Hall can wrest from him, with impunity, the spotless reputation of a life.

The defense of young Walworth who shot his father yesterday, will be insanity. An inquest will be held on Friday next. The mother of the lad visited him in the Tombs to-day, in company with Judge Barbour, cousin of the deceased.

PROVIDENCE, R. I., 4.—A large fire is raging in the town at River Point, thirteen miles from here; an extensive factory and other buildings are burned, and the destruction of the entire place is threatened.

PHILADELPHIA, 4.—The woolen mill of John Brown & Sons, on 8th, below Tasker St., burned early this a. m., was totally destroyed. The mill had a front of 300 feet, ran a hundred and seventy-two looms, and gave employment to 300 hands. The loss is estimated at \$1,300,000, insurance \$1,445,000.

ROCHESTER, N. Y., 4.—J. T. Stewart & Sons' boot and shoe factory, Water and Andrew streets, was burned this a. m.; the fall of one of the walls carried away a portion of the bridge over the Genesee river. Loss \$80,000, insurance \$30,000.

EASTON, Maine, 4.—Extensive fires are raging in the wood at Campello, and in the vicinity of Perry and Pembroke; a reward is offered for the detection of their authors.

NEW YORK, 4.—McDonald, the Bank of England forger, sailed to-day in charge of English detectives.

BOSTON, 4.—The Mayor recommends an increase of the fire department, and additional safeguards against fire.

NEW YORK.—The Trustees of the New York Times' fund, for the poor children of this city, held a meeting yesterday, and decided to commence operations on the 21st inst. The first excursion to be given for the relief of the sick children will begin about the same time. The Trustees have now the sum of \$3,488 on hand from last year, besides some fresh contributions recently received.

A hundred and thirty dealers in butter and cheese organized to-day, and voted to establish an exchange. They stated that their interests and annual transactions cover over \$50,000,000.

LITTLE ROCK, 4.—The Attorney General concluded his argument in the quo warranto case, against Governor Baxter, before the Supreme Court this a. m.; this evening the court met and four of the five judges decided that the court had no jurisdiction, Chief Justice McClure dissenting. The decision was received with the greatest satisfaction, and there is general rejoicing to-night. This is regarded as the end of all trouble, and hereafter Governor Baxter will be regarded as governor without a show of opposition.

WASHINGTON.—It is said by the highest military authorities that the Modocs could not surrender as prisoners of war in the sense known to nations, where war is declared in

accordance with constituted forms, and not having been so received they are not entitled to consideration as prisoners of war. The orders issued to the commanding General, directly after the assassination of General Canby and Dr. Thomas, were not to exterminate the Modocs, but it is said that their conduct has been such that their extermination would be justifiable, thus leaving the matter to the discretion of General Davis, therefore, if he had ordered the killing of the Indians he would not be censured by superior authority. As to their final disposition, no one questions that they will be ultimately delivered to the government of Oregon for trial.

BOSTON, 4.—Warrants are said to be out for the arrest of four detectives, named Bangs, of New York, Carson, of Philadelphia, Loomis, of Pittsburg, and Elwell, of Boston, who are charged with arresting Mrs. Dudley, wife of the alleged mail robber, at her residence, at Mattapan, without legal authority, and also with compelling her to assign to them bonds and cash to a considerable amount. Ten thousand dollars damages are claimed against the detectives.

PHILADELPHIA.—The Democratic state committee met this afternoon and agreed upon August 27th as the time, and Wilkesbarre as the place, for holding the state convention. Samuel Randall presided. The chairman was directed to properly express, in his address to the people of the state, a sense of indignation at the course pursued by the administration in the Louisiana trouble.

NEW YORK.—A Vienna correspondent of the *London Times* says the second great settling day at the Vienna Exchange proved better than anticipated; the number of insolvents was increased by about half a hundred, though there might have been among those tolled out yesterday, a dozen who, a week ago were thought to be worth a million. They were without exception men who had been brought to the surface by the tide of fortune. There were men among them who dated no more than four or five years back. This, in itself, is sufficient to set the present crisis in its true light. There had been gambling on the most extended scale, and for months past the Exchange had been flooded with all sorts of new stocks, some of them utterly valueless, while the price of those stocks which had some value, was driven up to a fabulous height. The issue of some new stock, at less than 30 per cent. premium, was scarcely thought to be a stroke of business, while in many instances financial companies which were only beginning business, and had therefore not even a penny, commanded a premium of 50 per cent and even more.

RICHMOND, Va.—Jim Brown, the alleged murderer of the old ladies, Mrs. Johnson and Mrs. Dosier, was captured last night, and to-day he confessed to the sheriff that he beat his victims to death with a billet of wood, and then robbed the house. He also informed the sheriff where the stolen money was concealed. The feeling against him is intense, and it is probable that he will be lynched.

The pension bureau will, this week, issue the first certificate of pensions arising from the Modoc war, in favor of the widow of Lieut. Thomas.

NEW YORK.—The following dispatch has been received here:

"Bismarck, Dakota, 4.—The track of the Northern Pacific railroad has reached the Missouri river, connecting with this place to-day, and the entire division of 450 miles, from Duluth to Bismarck, is open to business. The people are celebrating the event. Connection is made here with the navigation of the upper and lower Missouri. A line of steamers is established between this point and Fort Benton, in Western Montana, and the shipments of both government and private freight are being made by this new route to the north-west."

The railroad surveying expedition with a military escort under the command of Gen. Stanley, will start west on the 16th instant with the intention of making a final and definite location of the line of the road from the crossing of the Missouri to the crossing of the Yellowstone, and along that river to Central Montana, this being the only portion of the route not yet determined. No serious opposition from the Indians is anticipated by those best able to judge.

The Massachusetts Medical Society, at its meeting to-day, voted to

expel the homoeopathic physicians whose trial had been recently chronicled, there being but one dissident.

General Agency for Utah of the

SUPERB ESTEY ORGANS!

What Prof. CHARLES J. THOMAS says: S. L. CITY, U. T., April 5, '73. Mr. C. W. Stayner:—Having an experience of 31 years as a musician, a great share of which time I have been leader of Orchestras and Choirs in Europe and America, and being solicited by you to pass my judgment on the "Estey Organs" for which you are agent, and having tried and examined them thoroughly, I confidently recommend them to the citizens of this Territory for their superior tone, — the Vox Jubilante being a fine imitation of the pipe organ — their nice smooth action and delicate touch, excellence of workmanship in their construction and their general reliability, making them all that can be desired in organs either for church or parlor.

Yours respectfully,
C. J. THOMAS,
Conductor of Theatrical Orchestra.
