

CUT-OFF IS NOW BEING OPERATED.

S. P. Runs Trains Today Over 50
Miles of New Track.

ANOTHER O. S. L. CONNECTION

Contract Let to Join With Main Line
North of Ogden-San Pedro
Movements.

The Southern Pacific today commenced to operate 50 miles of its new track for the first time. This stretch of track represents part of the reconstruction of the Central Pacific for which President Harriman has authorized the expenditure of several millions. The new cut-off which has been put into commission consists of the stretch which was built between Wadsworth and Brown station in Nevada, and was built to avoid a bad grade that was a feature of the main line.

Work on the Central Pacific is being rushed all along the line. Word comes to the effect that nearly all the piles on the Lucin cut-off are now driven across to Promontory point and steel will be down to that point within 30 days.

In this connection the Oregon Short Line has let a contract for the construction of a track that will connect the main line just north of the river at Ogden with the Southern Pacific main line. This improvement is being instituted on account of the vast amount of material that is being shipped and brought in over the Short Line for the lake cut-off. The building of this track will do away with the great amount of switching that is now in vogue. When this is completed there will be two connecting tracks with the Southern Pacific in addition to the one already being constructed at Brigham City to Corinne.

ATLANTIC AND PACIFIC

Another Transcontinental Line to
Pass Through Salt Lake.

Dallas, Tex., Oct. 18.—A special to the News from El Paso says:

A high official of the Texas and Pacific railway announces that the recent purchase by that company of the Mineral Wells line means a transcontinental connection for the Texas and Pacific from New Orleans to San Francisco.

The Mineral Wells will be extended to Trinidad, Colo., to connect there with the Atlantic and Pacific. Trains will be forwarded over the Atlantic and Pacific to Salt Lake City, where connection will be made with the Oregon Short Line to the Pacific coast.

SAN PEDRO DEAL.

In Consequence of the Construction of
Branch to Iron Fields Declared Off.

News was released this morning which in many particulars confirms the story that Senator Clark and E. H. Harriman have reached an understanding respecting the building of a line through to Los Angeles whereby the on Pedro will connect with the Oregon Short Line to the patching up of past differences.

The news to the effect that Senator Clark has purchased the famous Las Vegas ranch, the oasis in the desert in southern Nevada, is in itself significant when it is recalled that during the time when the Short Line and the San Pedro were buying up right-of-ways and Senator Clark proposed to purchase the famous ranch the Short Line dispatched a horseman who rode post haste across the desert and secured an option of \$5,000, according to report, on the property. The Short Line apparently has forfeited its option on an incident in itself which would point to the fact that the Harriman road had abandoned the field to Senator Clark.

It is further learned that the Oregon Short Line has broken off all negotiations which up to two weeks ago were progressing satisfactorily in connection with the building of a branch line from the vicinity of Lund to tap the iron country deposits of mineral. It was proposed to build this 25-mile branch, so claim the operators, so that they could ship in 500 tons of iron ore a day to the smelters in this valley.

SIGNIFICANT MEETING.

Judge Cornish Still Tarrys in Salt
Lake and Is Very Busy.

Judge Cornish, Harriman's right hand man and vice president of several of the roads connected with big systems, is still in Salt Lake putting in most of his time in the private office of Vice President W. H. Bancroft, in company with Judge Kelly, counsel for the Union Pacific, and Parley L. Williams, attorney for the Oregon Short Line. From the length of the stay in Salt Lake and the close application to business, to use the trite expression of a local railroad official, it is thought that there is decidedly "a hen on."

BUYS LAS VEGAS RANCH.

Senator Clark Purchases Oasis on
Line of Los Angeles Road.

The Butte Miner says: Senator W. A. Clark, through his agents at Salt Lake, yesterday consummated a deal which, besides giving him possession of the one great "beauty spot" in the Nevada desert, becomes a valuable adjunct to the construction and operation of the San Pedro, Los Angeles & Salt Lake railroad, which will shortly connect the City of the Angels with the City of the Saints.

For a consideration of \$55,000 the Senator secured title from Mrs. Stewart, widow of the former owner of the famous Las Vegas ranch in Lincoln county, Nevada. It is an oasis in the desert, about midway between Los Angeles and Salt Lake. The ranch consists of 1,500 acres of arable land supplied with 500 inches of water for irrigation. The climatic conditions are such and the soil of such peculiar richness that tropical fruits, dates, figs, etc., and the citrus fruits can be produced in a way for rival the most favored sections of southern California.

LIVELY TIMES IN THE NORTH

Idaho's Campaign, the Most Ag-
gressive in Its History.

TOM PITT'S OBSERVATIONS.

Says Both Parties Claim the State and
Are Doing Everything to Make
Their Claim Good.

Tom Pitt, secretary of the Republican state committee, has just returned from a business trip into Idaho. He says the campaign is in dead earnest, and that both Republicans and Democrats are doing everything in their power to win votes, their efforts extending from one end of the state to the other. While the result is very doubtful Mr. Pitt says that sanguine Republicans are betting freely that Hunt, the Democratic nominee for governor, will be defeated. However, there are those favorable to his election who contend that he will win and these people are exerting every energy to that end. Ben Rich, says Mr. Pitt, is working hard for his party and everywhere he goes he is greeted by large crowds. On Thursday night Mr. Rich spoke at Idaho Falls in company with Judge Borah, and last night he spoke at Oxford while this evening he will address a meeting at Blackfoot. He has also been through the Teton basin and has covered as much ground, and as effectively, as any speaker in the state. Mr. Pitt says that Hutchinson is confident of success, the Democratic nominee. "Congressmen are saying that he will win in November with a majority which will make his opponent sweat. John Fife, says Tom, is making bets up there that Utah will be Republican by a majority of 3,000.

DEMOCRATIC CANVASS.

Chairman Warrum Says It Will Be
Completed This Evening.

Chairman Warrum of the Democratic county committee stated today that in all probability they would complete their canvass of the county this evening. It was expected that this would have been finished long ere this, but inasmuch as they were desirous of making it accurate the additional care taken made it a long, tedious job. However, it is expected that its completion will place the committee in a position to work intelligently, to the end that no means may be spared in making every vote count at the proper time. Mr. Warrum ridicules the idea that there are 3,000 new voters in this county, saying that this would mean an increase in population of at least 12,000, a figure which he looks upon as absurd. He says there will be a large doubtful vote as many people have not affiliated with any party and will not pledge themselves to vote either way, preferring to act upon their convictions when the time comes to exercise their elective franchise.

Livingston's Itinerary.

W. D. Livingston, the young Republican orator from Sanpete, has been mustered into the campaign. Beginning on Wednesday next he will make a tour of his own county, this lasting from the 22nd to the 28th. In his tour he will be accompanied by the Robertson sisters, who will conduct the meetings with their sweet singing.
