CONDITIONS AT PIOCHE.

Development of Susan Duster Property Delayed for Lack of Timbers.

Anthony H. Godbe returned yester Anthony H. Godhe returned yester-day afternoon from a brief business and pleasure trip to Los Angeles. He was exught on the other side of the wash-outs on the Sait Lake road and was compelled to come home by way of the Southern Pacific. Going, he stopped off at Caliente and took a side trip to Ploche, to note the progress being made with developmen

progress being made with developmen on the properties of the Ohio-Kentuck progress being made with development on the properties of the Ohio-Kentucky Mining company. Work on the Susan Duster clain, Mr. Godbe reports, has been somewhat delayed on account of the lack of mine thibers which have been difficult to get on account of the bad condition of the reads; which have been, in fact, in such a frightful shape that it has been almost impossible to exet teamsters to bring in supplies of any kind. Sinking has been resumed, however, and it is the intention of the management of the company to send the shaft to the deep as rapidly as pos-sible and thereby open up the large permanent or bodies. While in camp Mr. Godbe saw work started on the Independent velo, which is the first step taken by the Ohio Kentucky company towards the devel-opment of the famous black ledge. The retimbering of the old Picobe West shaft over which a new steam hoisting plant is being erected is pro-

P. I then wrote Durand for a copy of the complaint describing verbatim the style of the case, and he returned me this letter be-fore me which says: "No such case on file in my court." Which shows you Luke carries on the justice (injustice) court in his office in Salt Lake City. Another client called the other even-ing whose wages for the past month of January are held in total by Luke on a nine-year-old debt of \$3, and he de-clares that no summons was ever served on him personally nor left at his house, and that he knew nothing of the suit until he called for his pay at the mine office and found it gone over to Luke. These things radiate all over the state and many attorneys and collectors copy his methods. I have before me an ex-ecution levied by the sheriff against my client upon a local stock of \$6,000 of merchandise here without summons, garnishment or interpleader, as the first paper in the pleadings against them, and where no debt was shown to exist, and it came under the hand of a person of no less dignity than your colleague Braxton Barnett as justice of the peace of Mammoth precinct, Juab county, and was sued out by N. A. Robertson an at-torney at law and collecting agent of Salt Lake City, exparte, and without any knowledge whatever on the part of the ones whose goods were taken by Sheriff Whitehead of Juab county. It is now a matter of record in the district court in a damage suit for the purpose of restoring the property. I attribute this kind of practise di-rectly to the influence of the Luke court, the methods of which are sometimes employed by a better class of men, as for instance, some of the above named These things radiate all over the state
