

CACHE COUNTY PEOPLE PETITION.

Ask That Certain Vacant Public Lands be Set Aside as a Forest Reserve—Mr. Rawlins Asks Immediate Consideration—To Forbid Leasing Indian Reservations.

(Special to the "News.")
Washington, D. C., Feb. 27.—Senator Rawlins today presented to the commissioner of the general land office a petition from a number of prominent citizens of Cache county praying for the setting aside of certain vacant public lands in said county as a forest reserve and urged the commissioner to give it his early and favorable attention.
Senator Rawlins will tomorrow present to the senate a resolution from Ogden Lodge No. 127, International Association of Machinists, praying for the passage of Senate bill No. 2,990 and House bill No. 3,930 providing for the exclusion of Chinese laborers from the United States.
The sub-committee of the committee on Indian affairs, composed of Senators Clapp, Quarles and Rawlins, appointed to make an investigation relating to the leasing of mineral lands on Indian reservations will probably not be able to take up the investigation for a couple of weeks but it is the intention as soon

A PARAGON OF TRAVELERS.

Mrs. Arabella D. Huntington Pays Big Custom Duties.

AMOUNTED TO \$31,800 CASH.

Did Not Haggle or Denounce Government, but She Nearly Staggered The Deputy Collector.

New York, Feb. 27.—Mrs. Arabella D. Huntington, widow of Collis P. Huntington, has paid \$31,800 in cash as customs duty. Officials who frequently have to haggle with women over the tribute to Uncle Sam declared that she was a paragon of travelers.
Mrs. Huntington, who returned from a trip to Europe on the Oceanic, with her son, Archer Huntington, and Mrs. Archer Huntington, staggered the young man who, as acting deputy collector, asked her to make a declaration of her purchases abroad.
It was on board the steamer coming up the bay. Young Huntington had the list carefully prepared. The sum total of his mother's purchases abroad was \$75,000, the largest amount ever declared by a traveler in the port of New York and probably in the world. The duty was also the largest ever paid.
There was a score of large fat trunks containing rich goods bought in Paris, London and Berlin. Most of the tax paid by Mrs. Huntington was 50 per cent on made goods of linen, silk and woolen. There was a large amount of jewelry and precious stones on which she paid 10 per cent. On a lot of perfume 60 per cent and tax on various other items. Her rugs were taxed at 10 cents per square foot and 40 per cent on their value.

Colorado Springs, Colo., Feb. 27.—O'Donovan Rossa, famous for his connection with the Fenian raid in Canada, had his foot amputated, the operation being necessitated by gangrene. Some doubt is expressed for his recovery.

AFFRONT TO THE PRESIDENT

Invitation to Present a Sword to Maj. Jenkins Withdrawn

BY SO. CAROLINA'S LT. GOV.

Reason Assigned is Recall of Invitation to Sen. Tillman to Dine With Prince Henry at White House.

Augusta, Ga., Feb. 26.—Lieut. Gov. James H. Tillman, who is in this city, says that today, in deference to requests by wire from the subscribers to the fund for the sword alluded to, he telegraphed as follows to President Roosevelt:
"A short while ago I had the honor to address your excellency a letter requesting that on the occasion of your visit to Charleston you present a sword to Maj. Michael Jenkins of the First United States volunteer cavalry, of whose gallant service you spoke so highly, your words being engraved on the scabbard. You accepted the invitation, for which I thank you. I am deeply honored by your action. The sword fund, by contributors to the sword fund to ask that you withdraw said acceptance."
JAMES H. TILLMAN.
"Late Colonel First South Carolina volunteer infantry, and Lieutenant-governor, South Carolina."
In explaining the sending of the telegram Mr. Tillman said:
"It is with much regret that I was requested to send the telegram I did, and especially in view of the fact that I am so closely related to one who but a few days ago, was subjected to an affront which seemingly, or at least the people who contributed to the purchase of the sword think, was unwarranted."
BOY PLAYS A MURDER.
Motive Was Revenge for Being Reprimanded.
New York, Feb. 27.—Revenge for reprimands given to Leonard Robinson, a 14-year-old boy of Blue Point, L. I., incited him to plan to kill John F. Dane's 15-year-old daughter, Jessie. He had dug a grave in which to bury her. Leonard told several other boys and a girl his intentions, and when the schoolmaster confronted him he confessed.
Mr. Dane, fearing for the life of his daughter, caused the arraignment of the Robinson boy before a justice. The latter issued a warrant for the lad's arrest on the charge of threatened murder, and the boy was held by the sheriff.
Principal Parry, of the Blue Point school, testified that the boy had made a confession of his plan which he had said that he intended to hide in the woods opposite the home of the girl's uncle and as she passed he meant to shoot her and bury her. He said he had the revolver, with which to commit the deed. He showed the revolver to other children, who told their parents, and the case was presented to Parry for action.
The Robinson boy said the plan was his own, but he intended to let another boy see the gun. He needed help, and he had the revolver, with which to commit the deed. He showed the revolver to other children, who told their parents, and the case was presented to Parry for action.

EVERYTHING TO BE HANDY.

Bed, Board and Baggage Arranged For in Most Extraordinary Manner of Convenience.

Prof. Stephens, instead of using up his energy in persuading people to join the choir's excursion to California, is bending every effort in making places for the applicants. Over 100 additional applications have been made since his return two weeks ago. Through the courtesy of the Southern Pacific officials and the Pullman company he has so far been able to place them all. How long it will continue is hard to tell, but the list may now have to be closed any day, as there must be a limit even to a pleasure excursion. Next Monday he will begin to assign places in the Pullmans, and the task of his life, he says, will be to place every one as desired by the parties. But there is little question that he will come as near to it as a desire to and much experience in pleasing people will aid in doing. Nothing that can be thought of in advance to enhance the pleasure and comfort of the large company has been omitted. A circular of valuable instructions and an exquisite little memento of Hotel Del Monte, illustrated, has been sent to each family or individual booked. And next week the work of mailing them their Pullman cards, and even baggage tags, will begin. This is done to simplify the work of arranging the baggage, and to enable each one to easily find his or her place on the morning of starting. This prepared them need be no confusion or annoyance whatever, where otherwise it would be a pandemonium to place 400 or more people in the space of half an hour in Pullman cars, and arranging their baggage where it could be easily found when wanted.
Under the present arrangement each one with a valise tagged need not hand it to the baggage man at either end of the baggage car, and then look for the car bearing the placard with the same numbers as his ticket and tag. The numbers of the section that he belongs to is there printed, and he scarcely needs the aid of the porter to find his seat. So with their meal tickets: the number needed for the trip will be mailed with the cards. They will be accepted at their face value at either of the three leading restaurants, the California and Johnson's (Market street), and the Popular, Geary street, in San Francisco. All these are right in the central part of the city, and within a block of where they take their street cars for the train at Third street. The tickets will be good at the leading restaurants in all other places where they visit. The tickets are so arranged that anyone orders what he pleases and if he chooses to order more than the ticket is good for he simply adds the extra to it, paying the balance in cash. As to the matter of interest, etc., so as to make the party as independent in their wanderings as possible, and yet keep well in touch with each other. A competent captain will preside over every party. The Pullman company will supply gentlemanly porters, who will take care of the cars and their contents daily in San Francisco, as well as on the road. The Southern Pacific people will delegate Traveling Passenger Agent J. B. Lauck to take charge of the train, and to aid Mr. Stephens in all matters for the welfare and comfort of all on board. Of course in addition to the train there will be a conductor and full complement of train hands.
Mr. Stephens seems to keep up in perfect health and spirit under the manifold load of conductor and manager, attending to every detail himself, and he generally puts the train in a comfortable and unexcited state of the press. The excursion is already the largest ever gotten up in the state, outnumbering even the great world's fair choir excursion.

Found for James.
Judge Hall today rendered a decision in the case of Utah Lumber company vs. William F. James, finding the issues for defendant and assessing his damages at \$2,340. The suit was brought by the lumber company to recover \$470 alleged to be due on the purchase price of lumber furnished Mr. James for the construction of a house.
Mr. James filed a counter-claim, alleging that the company failed to comply with the contract and furnished a very inferior quality of lumber, which would have to be replaced, and asked damages for the replacing of the material in the sum of \$3,000. The court decided that the lumber company failed to keep its contract and found for the defendant on all but two of his items of damage and ordered judgment entered accordingly in the sum above given.

TO ARREST MRS. KIMBALL.

Dr. King Will Have Warrant Issued For Christian Science Healer.
A warrant for the arrest of Mrs. L. H. Kimball was sworn out in Judge Diehl's court late this afternoon. When the lady is arrested she will probably be released on her own recognizance pending her hearing as the court stated he wanted no "exposed" persons about the station. This warrant was sworn to by Dr. King, the city health physician, who charges Mrs. Kimball with being guilty of flagrantly violating the quarantine laws. The case in point is that of the Farnsworth family, a baby member of which languished for several days under the twofold affliction of scarlet fever and diphtheria, while the health officers were kept in ignorance of the situation. The family adheres to the Christian Science faith and as such employed Mrs. Kimball to administer her treatment to the little patient. It did not seem to be efficacious, however. King states that inasmuch as Mrs. Kimball was the attendant of the child he would hold her responsible for neglecting to notify the health officers of the presence of the diseases in the Farnsworth family.

TRIED TO BEAT THE BUTTE POOL ROOMS.

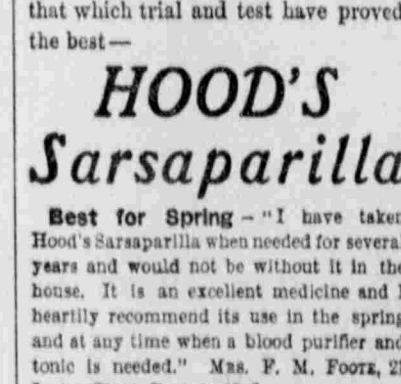

A story is going the rounds of sporting circles here today regarding the working of a neat trick on the Butte poolrooms whereby the conspirators in the secret stood to win all the money available at those betting establishments.
According to the story a few days ago a couple of sporting men from Butte came to Salt Lake and just before the result on a big race at Oakland reached this city the wire to Butte went down. The result of the race was received here and promptly telephoned to Butte to the waiting conspirators at the other end of the line who at once put up all their spare money on the

BUSINESS NOTES.

Today's bank clearings amounted to \$534,626.36, as against \$449,976.58 for the same day last year.
Articles of Incorporation of the Black Knolls Creamery company, Vermillion precinct, Sevier county, were filed in the office of the secretary of state this morning. The capital stock of the company is \$4,000, which is divided into 80 shares of the par value of \$50 each. Samuel Nebeker is president, P. H. Madsen, vice-president and E. H. Dastrup is secretary and treasurer.
The Colorado Iron Works company has opened a branch office at the city at 242 South State street. Mr. H. R. Ayres is their resident manager. The stock carried consists of mining, milling and smelting machinery and supplies.
Further plans for the proposed new business building, the Brighton Young Trust company have been deferred until the return of President N. W. Clayton from the east.
The flour market outside of this city is reported as stiffening up, while quotations in town remain steady and firm. It is claimed that the supply of flour and wheat brought in under the low rate will last until about the first of April.
The same charge, but the same jury that convicted Schints, acquitted the lawyer.
Wedekind's latest indictment was found on complaint of Mrs. Christine Link, formerly Mrs. Feldt who was a prominent figure in the murder trial of Adolph Leutiger. Her husband had died shortly before the disappearance of Mrs. Leutiger, for whose murder the sausage makers was sent to prison for life, and Leutiger's affection for the woman was alleged by the state to be the motive which prompted the crime.
winner. Then a few minutes after the line to Butte was working again, and the result of the race was received. The men who had bet their money on the winner stood to pull down from \$20,000 to \$25,000. But the poolroom proprietors began to sweat when they saw the Danmarks and payments were delayed. Charles W. Clark, a son of the Montana copper king, is said to have found out about the plot and told the poolroom men, with the result that the money of the alleged wire-tappers is still being held.
In local circles it is the sentiment that any betting institution which will take a bet after post time (after the horses have started) takes desperate chances and deserves to lose its money.
Manager Twiford of the Western Union here states that the wire did not work properly on the day of the race, but says that he has taken on steps to find out who tampered with it.
