A POSTROPHE TO SALT LAKE.

BY JOAQUIN MILLER.

Thou "City of Saints!" Of antique men,
And men of the Desert as men of old!
Stand up! be glad! When truths are told,
When time has cleared his truths and when
His hand has lifted the things to fame
From the mass of things to be known no more;
When creeds have perished and have passed away,
Opinions that lorded their little day—
A monument set in the desert sand,
A pyramid reared on an inland shore,
And their architects — shall have place and name.

Of sea, land lost! Of desolate land,
Made brown with grain, and made green with bay:
Let nook who will, gainsay it who may,
No little thing had it been to rear
A resting-place in the desert here,
For Fathers bound to a fatherland;
No little thing with a foe at hand
That has known no peace, save with these strong men,
And the peace whereon with the blameless Penn.

Let the wine be just, let the brave forbear,
Forgive their follies, nor forget their care.

EASTERN DISPATCHES.

NEW YORK, 9.—The *Herald's* Washington dispatch says a scheme is on foot for the impeachment of the President. The subject was under consideration in the Democratic Congressional committee yesterday and will be further pursued at a meeting next Wednesday, it is believed. Montgomery Blair is said to be at the bottom of it. The charge will be for violation of international law, usurpation of extraordinary powers, with attempted annexation of San Domingo.

KINGSTON, Ont., 9.—The steam tugs *Highlander* and *Hercules* were burned last night. Loss forty thousand, insured. One man was burned to death.

NEW YORK.—The leaders of the Internationals to-day sent the following to Governor Hoffman at Albany: "Can we parade?" No answer has yet been received. They will turn out if the answer is favorable; if not, they will postpone till next week.

TERRE HAUTE, Ind.—The entire east side of the public square of Rockville the shiretown of Park County, was totally destroyed by fire last night. The details are not yet reported, but the loss is heavy. The north side of the same square was burnt about a year ago.

LAWRENCE, Kansas, 9.—The motion for a new trial in the Medlicott case was denied by Judge Bassett at Garnett today and the prisoner, Dr. Medlicott, was sentenced to be hung on the 26th of January. A bill of exceptions was filed by the prisoner's counsel, and the case will go to the Supreme court which meets in Topeka early in January. The general impression among the lawyers is that the supreme court will grant a new trial.

CHICAGO, 9.—The bark *Board of Trade* which left here on Saturday last for Buffalo was obliged to turn back on account of the severe cold, and arrived here this morning. The crew suffered terribly from cold. All were frost-bitten and taken to the hospital. It is feared some of them will die.

A terrible murder was perpetrated in a low saloon on Archer avenue last night. Jeff. Keating, of Jamestown, and a young man, quarreled over a game of billiards, and during the fight which ensued, Keating drew a pistol and shot Townsend through the head, killing him instantly; the murderer was arrested.

Gov. Hoffman has made arrangements to forward to the law institute of Chicago, in behalf of the State of New York, a complete set of the session laws and revised statutes of this state, with the state reports from the beginning, and digests of the last edition of Kent's commentaries. This contribution is made on the individual authority of Gov. Hoffman, who trusts that the legislature will confirm his action.

The president of the mail steamship company between New York and Havana, says the refusal of the company to carry New York papers to the latter place was in consequence of the wish of the Spanish authorities in Cuba to suppress incendiary documents there.

The *Tribune* asserts that Connolly assented on Nov. 29th, at the instigation of Commodore C. K. Garrison, whom Connolly was anxious to become his bail, to make restitution to the city in the sum of one million, but Charles O'Connor would not consent to the arrangement, his proposition being an assignment of property by Connolly, to this amount, to await the decision at the trial, and it consequently failed. If the proposition had been acceded to, Connolly was to have turned State's evidence. Mrs. Connolly, in whose name the Connolly property all stands, was the principal negotiating party, and governed herself wholly by Garrison's advice.

The Flak-Mansfield case was again postponed to-day.

The jurors who tried the recent Black Friday case, and of whom it is alleged certain members have been bribed, are being examined to-day by Judge McCunn, who states that if the evidence is sufficient he will send the case of the cul. rits before a grand jury.

The motion for reduction of bail in the case of Connolly was argued today before judge Learned, at Albany.

NEW YORK, 9.—Bank statements show an increase in loans, specie and circulation, a decrease in legal tenders and deposits, and an increase in specie of over five millions. Sterling & gold closed rather dull; government's strong; stocks opened firm; closed weak. W. U. T., 68½; Quicksilver, 24½, Pacific Mail, 47½; W. F., 89½.

LONDON, 1-30, p.m.—The feeling on 'change is better to-day. Consols for money 91½; account 92. Bonds '62, 92½; '65, 93; '67, 95½; 10-40's, 96½.

PARIS, 9.—Rentes 56 fr, 60c.

The members of the International society to-day denounced the order prohibiting their parade to-morrow. They asked the governor at Albany, by telegraph, if they could parade, but no response has been received up to to-night. The parade will probably come off some day next week. The police are all ordered on duty to-morrow to prevent any display of the procession. Eight hundred men will be under orders at headquarters.

At the meeting of the society to-night, a dispatch was read from Governor Hoffman, saying that the law placed the matter of parade in the hands of the police authorities.

The action of the authorities prohibiting the procession was strongly denounced. There was much discussion about changing the day for the parade from Sunday, as a specific objection of the police commissioners was on account of the day. A motion was carried to have the parade on Christmas day, and it subsequently was decided to refer the matter to the federal council for approval. One member, after delivering a violent denunciation of the police authorities, expressed his determination to be present to-morrow at the place from which the parade was to start, and with his red flag and sash march over the route himself.

Seven new cases of small-pox have been reported since noon on Friday and five deaths, making thirty-six cases and fourteen deaths for the week.

Intelligence from Washington is that several influential Pennsylvania congressmen are in favor of speaker Blaine for Vice-President in 1872.

Revision of the mint laws will shortly be brought before the senate.

At the woman suffrage convention to-day the usual resolutions were adopted, demanding the rights of the sex.

Col. Davis, of Gen. Pope's department, reports that the placing of the Apaches upon their reservation would be unwise, and that for the present they should be kept where they are.

One of the suits against the Erie railroad, in the Jersey courts for over charges has been decided against the company. One hundred and fifty-nine additional suits are to be commenced at the next session of the circuit court.

TORONTO, 9.—At the informal opening of the Ontario legislature yesterday, the Lieut. Governor congratulated the province on its great prosperity. He animadverted strongly against the conduct of the province of Quebec in protesting against the award by arbitration for the settlement of the liabilities of the old provinces to Upper and Lower Canada, when merged into the new domain. The school system of Ontario is productive of the best results and the emigration into the province is satisfactory.

BOSTON.—Alexis left for Lowell this morning, he will prolong his stay in Boston until Wednesday or Thursday.

DETROIT.—The schooner *Crosthwait*, which has been drifting about in the ice of Saginaw bay two weeks, was supposed to be lost until last evening, when the first mate and six of the crew reached the Bay city, having left the vessel on Thursday. The captain, second mate, and cook remained on the vessel and will starve unless soon rescued.

ANNAPOLIS, 9.—Evidence in the Wharton case to-day was chiefly of the medical character as to the effects of certain kinds of poison in the human system. Dr. Chew and Professor Miles were sworn.

Medical testimony was further given by Professor Wm. E. Atkin, of Baltimore, who said he was called upon to examine the stomach, said to be that of Gen. Ketchum, but found no trace of strychnine.

WASHINGTON, 9.—The secretary of the interior has decided that the 4th section of the act of July 23d, '66, to quiet land titles in California, secures to the State as swamp and overflowed, all lands represented as such and approved in the plats of the United States surveys made prior to July, '66, or that should thereafter be made; that the surveyor general is required to construct and approve township plots according to the State segregation maps when he finds that such maps conform to the United States rectangular sytem. In all cases where the townships had been surveyed by the United States prior to July 23d, '66; and that the surveyor general in examination of said State segregation maps, and where there was no adverse claim, could not under the law take into consideration the quality of the lands, but should treat them as swamp, whether they were so or not.

EUROPEAN DISPATCHES.

LONDON, 9.—The Prince slept some last night, exhaustion unincreased, and his general condition was somewhat more favorable. The princess and children have been summoned and are hastening to Sandringham. The feeling on change is better, but the rumors continue gloomy and represent his case as hopeless.

The strike of telegraph operators is becoming general and extending to all the large cities and threatens to cause much inconvenience.

PARIS, 9.—The Orleans Princes waited an interview with Thiers yesterday, and consented to delay their return.

LONDON, p.m., 9.—The following bulletin has just been posted—

"Sandringham.—The Prince passed the morning tranquilly. The Roman paroxyms are subsiding, there is no increase of exhaustion. The Princess Beatrice and Prince Leopold, his youngest sister and brother, and the children of the Prince have been called to his bed-side and are hastening to Sandringham. The duke of Cambridge has already gone there in response to a telegraphic summons. The Archbishop of Canterbury requests the clergy to pray for the recovery of the Prince. The excitement is intense now that there is a beam of hope.

The *Echo* says that France will soon renounce her commercial treaty with Belgium.

Twenty-eight lasts have been manufactured in the university of Edinburgh during the present term.

Sir Charles Dilke informed the deputation which presented him an address, that he should suspend the delivey of public lectures until he had addressed his constituents in Chelsea.

P. M.—The latest official bulletin dated Sandringham, ten p.m., says that the Prince has slept since noon, but there is no improvement in his symptoms. Many public dinners and other projected festivities have been postponed in consequence of the Prince's illness.

PARIS, 9.—There was an exciting scene in the assembly to-day. Deputy Ordinare attacked the commissioner of pardons for refusing the appeals of the Communists. His speech called forth demonstrations of dissent, which were met by the cheers of his friends. The disorder was so great that the proceedings were temporarily suspended. Quiet was finally restored and the session was resumed and the subject dropped. Pourier Quertier, minister of finance, introduced a bill extending the legal limit of the circulation of the bank of France to three millions.

Before the adjournment of the session to-day, the chamber passed a resolution censuring M. Ordinare for his intemperate and unparliamentary language.

Extraordinary cold weather prevails here. Mercury thirteen degrees below zero. The river Seine is frozen over. A compulsory military service bill and a decree of general amnesty will be introduced in the assembly next week.

BERLIN, 9.—Herr Delbruck presented a bill in the diet the object of which is to lighten the burden of taxation on the lowest classes. It abolishes grist and slaughtering taxes and makes important reductions in others.

ST. PETERSBURG, 9.—The knights of the order of St. George, founded by the Empress Catharine on the 7th of December, 1769, celebrated their anniversary on Thursday. In the evening a grand banquet was given, at which the Czar and first dignitaries of the empire were present. The Czar, in toasting the Emperor of Germany, said he hoped the intimate friendship existing between that monarch and himself would last as long as they lived, and be carried down to future generations, that the fraternity of the armies of Germany and Russia would be perpetual. Thus would be constituted the best guarantees for the maintenance of law and order in Europe.

CURTIS MODELS—PRICES REDUCED TO MEET THE TIMES!—The merits of this system for Cutting all kinds of garments worn by Ladies, Gentlemen and Children are known by scores of ladies in this City and Territory, but the sure way is to prove it for one's self which may be done without charge. This system removes all anxiety regarding the FIT of garments, as all its directions are absolutely positive. There will be no altering—no taking up or letting out, which not only injures the material but destroys the proportions and often ruins the garment. The system is very simple and can be learned in a few hours.
