# IOD POISON

W HE CUREN

I didn't find out I had contracted Contagious Blood Poison until it had made considerable headway. I had heard a great deal of the value of S.S.S. as a blood medicine, in fact had a friend who had cured himself of the same disease through its use, so as soon as I discovered the nature of my trouble I began taking it. I got along splendidly from the very first and my recovery was steady. When I first began the use of S. S. S. my face was so full of sores and eruptions that I could not shave. Other parts of my body were similarly affected, but there is now not a blotch, pimple or any other sign of the disease. I was cured by S. S. S. and I know I am cured to stay cured as this was several years ago. There is nothing that equals S. S. S. for Contagious Blood Poison and I always recommend it in such cases. WALTER WEBER.

No. 43015 Fourth St., Evansville, Ind.

The acknowledged virtue of S. S. S. as a blood remedy induced Weber to commence its use when he found he had contracted ontagious Blood Poison. The good results he obtained is just nother demonstration of its value as a cure for this disease. Contagious Blood Poison is the most powerful and destructive of I blood disorders. Its virus permeates the entire circulation and this Aplains why any one afflicted with this malady usually finds its symp-oms manifested in every portion of the body. From head to foot the neidious poison breaks forth. The hair and eyebrows come out, the bouth and throat ulcerate, skin eruptions and sores and ulcers break all on the body, the bones ache, glands in the groin swell, and requently the nails on hands and feet are affected.

The only possible way to cure Contagious Blood Polson is to nove the cause by purifying the blood. This is just what S. S. S. oes; and it is the only medicine that absolutely and thoroughly eanses the circulation of every particle of the germs and virus of the sease. Mercury, Potash, etc., are often used by despairing sufferers the hope that such strong treatment will kill the poison. But this anot be done; the disease may be checked temporarily and the symptoms improved, but the old poison is slumbering in the blood, and then the treatment is left off the disease always returns.

The ability of S.S.S. to cure Contagious Blood Polson comes an its blood purifying properties. It goes into the circulation and moves every trace of the poison, makes the blood pure and healthy, indleaves no dregs of the virus to break out later on. S. S. S. is made untrely of roots, herbs and barks, each of which has a direct and

specific effect in purifying the blood. S. S. S. does not contain a particle of mineral in any form to upset the stomach, affect the bowels, or inflame any of the delicate membranes of the body. It is Nature's blood purifier, potent and healthful, and so valuable are its tonic effects that when S. S. S. has rid the

lation of the Contagious Blood Polson the entire system is left in
