From His Mission.

Elder John Anderson, of Fountain Green, Sampete County, called on us Timely Suggestions Respecting today. He left on September 7, 1886, on his mission to Scandinavia, where he labored in the Stockholm Conference. He met with good success in his labors; and was able to preach the Gospel to a great many people. He baptized sixteen new members into the Church. The people generally treated him with kindness. Last winter Elder Anderson had a severe attack of pneumonia, and at one time his life was despaired of, but he rallied, and in a izing life, limb and property. But in few weeks regained his usual health. 116 term of missionary work has been an excellent experience to him, and he values it highly. He reached this city morning, traveling from Kansas City via the Union Pacific. He will continue his journey homeward

cases were heard by Judge Judd. People vs. Alva Caldwell: grand inroeny; plea of not guilty. Six United States and one Territo-

of the "Rose of Castile." The plot is prettily worked out in the opera as given by the Abbott company last evguing. The music, while it is bright and sparkling in places, is not by any City: means equal to that of the "Bohemian Girl," by the same author, and to which it has been compared—but not to advantage. The andience was larger last evening than that which witnessed "Martha" the night before, and seemed better pleased, because there was less languor on the part of some members of the company. Mr. Broderick's rich voice was given full opportusity. Michelena also did well. There was not much work for the others, except Miss Abbott, whose singing was of course bott, whose singing was of course warmly applauded. Her costumes, as the queen, were very beautiful, and greatly admired by the ladies.

Tonight "Faust" will be sung, and will hold its regular meetings in the "Norma" will hold the boards on Fri- Fourteenth Want Assembly Rooms, at

The police inquired what I had done or said to merit such treatment, but no accusations were made other than I was a Mormon By energetic efforts on the part of the police they succeeded in rescuing me. My hat, which was knocked off in the disturbance trampled under foot and Dr. Potts' Lectures.

At the Presbyterian Church last evening Mrs. Dr. Longshore Potts ad gator of the mob (Mr. Barnfield), I was informed, subsequently wore the

Forsey, who does business on the premises; he was obliged to seek police protection, and his wife and child were sheltered and his wife and child were sheltered by a neighbor. Brother Forsey's stock is much damaged, his business is stopped, and the violent proceedings have affected his mind to such an ex-tent that he is at this date quite de-litious and dangerously ill. You are aware of the recent results of Jarman's nfamous lectures in Swanses, and that he was there bound over to keep stically vile manner. He is now in Merthyr, and has succeeded in creating considerable disturbance at our office; and we are even now under police protection.

This persecution has aroused the Saints to a sense of their duty, and the emissaries may drive a few of the scattered sheep back into the fold.
President Williams and the Elders are enjoying their usual health, and feel assured the Lord will everrule all things to his honor and glory.

FASTENING TEAMS.

Bitching Posts in the Streets.

SALT LAKE CITY, Oct. 26, 1888. Editor Deseret News:

I am pleased to notice an effort on the part of the City Council to check the number of runa way teams, which, in a majority of cases, are the result of carelessly leaving them in an unfast ened condition, and thereby jeopardnoticing the very meagre provision throughout the city for the accommodation of those who have teams, and of necessity doing business, not only on Main Street but is all parts of the city, and also observing quits a few whose teams were left for a moment (yet observed by an officer) were taken before an alderman and fined, these considerations forced me to the conclusion that a few angestions might not be out of place.

First—If the owner of every team is to be held responsible, and light to make for leaving his team unhitched white delivering or doing business, there should be a hitching post in front of every state and private house where teams are wont to go, or a fine inflicted where no such provision is made. To omit this would be not only unjust to the owners of the teams, but the multiple connection between the

In return for these concessions to the government, the Bock Company were granted certain advantages, among which was the exclusive right to take building material from the three sections, the fee of which the company was re-transferring to the government, and from three other sections contiguous thereto. Thus the lake Park. Rock Company possesses, by virtue of this grant from the government the exclusive right to take building material and minerals from six sections of land in and near Red Butte Canon, a right

which was secured in return for a valmable consideration, and under an act of Congress.

The Rock Company also secured, at the same time and in the same manner, the right to construct wagon roads railroads and trails on those six sections, but these sections were withdrawn from the market, and are not subject to disposal to private parties. The withdrawal from sale by the government of these six sections of land of course obliterates any and al squatter's or other rights which private parties may have acquired in, to, or Notwithstanding that the Salt Lak

Parties who, for many years past, have been in the nabit of hauling rock from Red Butte Caffon, naturally feel put about at being deprived of the privilege of doing so any longer. But they have no legal right to exercise that privilege, in view of the contract existing between the government and the Rock Company; nor can they justly blame the latter for insisting that its
rights be respected. In order to mitigate as much as possible the inconvenience which may be experienced by
parties who have hitherto earned a ivelihood by working the Red Butte quarries, the Rock Company is trying to turnish employment to them in preference to other laborers, and as a matter of fact, a much larger number of men are being emyloyed at the quarries now than ever before.
