LOCAL AND OTHER MATTERS.

MISSIONARY MEETING.

All Home Missionaries of this State are particularly requested to meet at the Council House, on Friday evening, the 26th inst., at half-past 7 o'clock.

ASAP M. CANNON, DAVID O. CALDER, JOSEPH E. TAYLOR, Presiding of the State.

Saturday's Entertainment.—The ladies and gentlemen who are to take part in the entertainment on Saturday night are requested to attend rehearsal at the Theatre tomorrow (Friday) evening, punctually at 7:30 o'clock.

COMMITTEE.

At Liverpool.—We learn, through a letter to President Taylor, that Elder Wm. Budge reached England on the 6th inst., in excellent health, after a fair passage from New York of ten days duration. He found the brethren at "42" all well.

Lake Side Excursion.—The excursion to Lake Side, yesterday, under the auspices of the 5th and 6th Wards Sunday Schools, was a decided success. About 350 persons participated, and after an enjoyable time spent in this pleasant retreat, returned to the city at 9:30 in the evening.

Departed this Life.—On Tuesday afternoon, July 22nd, Mrs. Sophia Gould, wife of Abram Gould, Esq., coal agent in this city for the Union Pacific Railroad Company, departed this life. The deceased had the reputation of being a most estimable lady. Mr. Gould purpose leaving for the east on Sunday morning, taking with him the remains of his wife.

Fire.—Last evening, about 7 o'clock, a fire occurred on the State Road, about three miles and a half south of the city, by which a barn and the surrounding pig pens, belonging to Mr. Wm. Howard, and a stack of hay, the property of Mr. James Arnold, were entirely consumed. The cause of the conflagration is supposed to be the careless use of matches, or the exploding of fire crackers, by boys in the vicinity.

A Stirring Time.—The good folks of the 21st Ward celebrated the Twenty-fourth in stirring style. There was firing of guns and exploding of fireworks at 6 a.m.; base ball for the boys at 7. About 9 o'clock the people gathered under the grateful shade of a large bower on the public square. The oration was delivered by W. L. N. Allen, and addresses by Bishop Burt and A. N. MacFarlane. Singing, recitations, music by Capt. Bezzley's martial band, and then a procession. Lunch was the next thing in order, followed by contests among young ladies for prizes, awarded to the most expert in needlework, cooking and other household duties. Foot racing and other athletic sports followed, prizes being also given for the best competitors in that line. The whole concluded with a dance in the evening.

Matinee Benefit.—A fair sized audience assembled at the Theatre, yesterday afternoon, to witness the concert given for the benefit of the new Tabernacle.

The programme, however, was not carried out as successfully as the audience would have wished, though credit is certainly due to those who did their best to please the public.

The Fairy Fountain and the Shadow Pantomime were failures, though the causes which conspired to make them so, were such as are at any time imminent and certainly pardonable. The time light, upon which the effect of these phenomena depends, went out almost immediately after it was lighted. The man whose duty it was to attend to it, had gone away, and there being no time to reconstruct the material, the performance was unavoidably shortened, and the enjoyment of the audience materially lessened.

The managing committee sincerely regret the occurrence, and trust in the generosity of the public to overlook it.

Returned Missionary.—We have received a visit from Elder John Cook, of Mill Creek, who returned from a mission to the States and England on the 18th inst., being the president of the company of emigrating Saints that reached this city on that date.

He left to go on his mission, Nov. 14th, 1895; and proceeded to Ohio, in which State he labored about eight months and baptized five persons. While there he received instructions to go to England, and left for that country, where he arrived June 22nd, 1897. After visiting relatives and friends in the Nottingham Conference, he went to the London Conference, in which field he had been appointed to labor as traveling elder. In the following September, on the departure for home of Elder William Paxman, he was appointed to preside over the London Conference, which position he occupied until his release to return to Utah.

While he labored in that part of England quite a large number were added to the Church, and the prospects were good for a further increase at the time he left. He enjoyed his mission very much. The halls used by the saints in London are generally well filled with attentive strangers.

Base Ball.—A large assemblage gathered at the Square, yesterday, to witness what was generally supposed would be, one of the best games of the season. In this, however, they were disappointed. At the close of the game the audience went away with a mingled sense of relief and disgust, feeling that they had been bored instead of interested, and that their money had been paid for almost nothing. However, the playing elicited one very stubborn fact, one that was apprehended by the general mass, viz: that the Cheyenne Red Stockings are not what they have been represented to be. From first to last they were like children in the hands of the Deserets, who played with unusual excellence, the close of the game finding the score in their favor by a showing of 23 to 2.

The two runs were made by the Cheyennes in their first innings, they going to the bat first, but after that a continuous set of whitewashes was all they had to show.

Mr. Topping, their pitcher, did not enter the field until the fourth inning, when the game assumed a more interesting aspect, but although he is, indeed, a very swift pitcher, the Deserets soon became familiar with his delivery, and continued the terrible battering they had kept up from the beginning. Mr. Barker, of the Salt Lake Red Stockings, who was playing short stop for the Deserets, while at the bat met with a mishap which, to any one of less endurance, would have proved a serious one. A pitched ball, from the hand of Topping, struck him with full force on the left side of his head, and felled him to the ground, where he remained motionless till assisted off by his companions. Some water was applied to the bruised part, and almost immediately he arose to his feet and took his place at the bat. His recovery and pluck were greeted with a loud cheer, as was the splendid bat he made just afterward.

The next game between the Deserets and Cheyennes, will take place tomorrow. The last of the Utah-Wyoming series will come off on Saturday, with the Salt Lake Red Stockings in the field, against the R. D. Stockings of Cheyenne.

City Council.—The Council met on Tuesday evening. Alderman Raleigh presiding.

A petition, signed by James Burgess and 23 others, was received, calling attention to a nuisance which prevails in parts of the city in the shape of ducks and geese running loose and damaging crops and making water filthy, and asking that an ordinance governing the same be passed by the council. Referred to the committee on municipal law.

A communication was received from Councilman James W. Cummings, in which he proposed to perform the duties of superior, warden, and jailer, and to board the prisoners in the city jail at a reduction of the amount at present expended by the city for these purposes. Referred to the committee on streets and alleys and on prison, in joint capacity.

The committee on municipal law to whom was referred the bill for an ordinance providing for levying a special tax for waterworks, reported said bill back with a substitute therefor. The substitute was read and 50 copies were ordered printed in open lines for the use of the members of the council.

The marshal was instructed to furnish, for the use of the Council, copies of the laws passed by the last legislature.

The committee, to whom was referred the petition of Millen Atwood, asking that he be refunded a portion of the money paid by him for a butcher's license, he having quit the business before the license expired, reported recommending that the prayer of the petitioner be granted. Report adopted and \$5.00 appropriated.

The committee to whom was referred the petition of Henry Wagner, asking that a portion of his license which was not used, owing to repairs proceeding in his building, be refunded, reported that they found the statements correct, and recommended that the sum of \$50 be returned to him in compliance with his petition. Report adopted and amount appropriated.

The committee on municipal law reported back the bill for an ordinance relative to the city cemetery and sexton, amended, the bill as amended was read, but without definite action thereon, the Council adjourned for one week.

Cloud Burst.—On Tuesday evening a cloud burst in the mountains east of Farmington, Davis County, letting down an immense volume of water, which divided into two streams, one rushing down Farmington Cañon and the other down a gorge about two miles south of the town. The first stream swept down upon William Glover's farm, damaging it greatly, virtually transforming it into a sand-bank and strewing it with gravel and huge boulders. The farm of Henry Steed also received considerable damage. Mr. R. N. Russell, who is our informant, and Mr. O. F. Atwood, were leaving Mr. Steed's place for the city, and hearing the rumbling of the torrent as it rushed along, turned back, but did not succeed in regaining the house before it came upon them. The roaring stream struck their team and wagon, sweeping them away. Yesterday morning one of the mules was discovered imbedded in the sand, with only his head and neck visible above it. The other was found lodged against a rock a short distance below where it was caught. Both animals were badly bruised. The wagon was swept under a shed and utterly demolished. The rush of water commenced shortly after eight o'clock, and continued about two hours. Mr. Russell informs us that the main road leading to the city is impassable to teams, being blocked with sand, gravel and boulders.

The lower stream swept away a portion of fence around the farm of Hon. William Jennings and carried a large quantity of dirt upon the land. The farm of Mr. Ford was also injured to some extent by it. No lives were lost, but the damage to property amounts to considerable in the aggregate.

An honest man is always ready willing to labor for his bread. He does not ask along, but he will work. Such a man is not a tramp. He is God's nobleman.

Benefit Concert.—The second performance, for the benefit of the Tabernacle, will take place on Saturday evening, at the Theatre. An attractive programme is prepared, and the entertainment will be one of merit and variety. All persons, who are to take part in the evening's entertainment, are respectfully requested to meet at the Theatre to-morrow evening at 7 o'clock, for rehearsal. The management are determined to prepare and produce an array of exercises that will please and satisfy the public taste for literary and musical enjoyment, and we predict that the coming performance will prove, in every way, a complete success.

Visiting Home.—This morning we were pleased to meet with Elder William C. Staines, Church emigration agent, who arrived home on Tuesday evening, on a brief visit, in the interim between the arrival at New York of companies of emigrating saints. He is only in moderate health, having suffered considerably from the oppressive heat which prevailed in the east.

The emigration business of the season has thus far progressed satisfactorily. Elder Staines speaks highly of the efficient manner in which Brother Nibley has conducted the details of that department at Liverpool.

Elder Staines will leave here in the beginning of September, in order to reach New York in ample time to be prepared to meet the next company, which will leave Liverpool about the 12th of that month. The last company of the season is expected to leave England some time between the middle and latter end of October.

Weather in London.—The following "Gleanings" are from the *Millennial Star*, of July 1st:

"June 21st (the longest day) closed the cold, wet season for the present. The following day, traveling to London for the district meeting, the warmth suddenly increased, the sun poured its rays into the carriages of the rushing train more fiercely than felt during our present visiting experience in England. Arriving in due time at '20,' I found the weather as hot as the heat was fearfully sultry and oppressive, which soon broke into thunder and heavy rain. Between meetings it was fair, but the thunder was unusually loud. The afternoon meeting was only just opened, when the peals appeared to come closer and the hailstones rattled, while the rain fell almost in sheets. Singing was necessarily continuous, as in the heat and rattle nothing else could have been heard. The results were astounding to the Londoners; the underground railroad flooded, suspending train and travel until Tuesday; sewers burst and cellars filled, some of the brethren finding four feet of water in the house when they reached home. An immense amount of damage was done, although the rain ceased at the evening meeting after all was good, but the evening meeting was extra, the hall was full, and the interest intense."
