arrangements to Meet the First Presidency of the Mormon Church This Afternoou.

A tall, huge-boned gentleman, dressel carelessiy in a brown business suit, and stroking a somewhat scraggy beard, stepped from a private car in Sait Lake this morning, followed by a charming young lady, dressed in brown, exhibiting a rosy complexion, such as is associated with the cheeks of the daughters of Albion's fair isle, From the depot the party drove to the Knutsford, where they registered as H. Rider Haggard and Miss Angela R.

Haggard, In a few minutes it was noised around the lobby that the famous auther of "King Solomon's Mines" and "She" had arrived in the city to study colonization as practised in Utah.

Later when a representative of the Descret News sent up his card to Parlor A, the quarters invariably given to dignitaries, millionaires and prima donnas, Mr. Haggard expressed himself as perfectly willing to submit to an interview.

Before the reporter had entered the room preconceived ideas of "stand-offishness" and "side," so frequently associated with Englishmen "en tour" were scattered to the four winds. First and foremost Mr. Haggard is endowed with a huge hand that grasps as though the possessor was really glad to see a stranger. Then again he is likewise mdowed with that happy faculty that makes the stranger feel at home at

"FIRE AWAY!"

"Glad to see you; beautiful morning; fre away. What is the percentage of Mermons in your lovely city?" That was the keynote to Mr. Hag-gard's interview. He evidently be-

fixed plan to uphold Turkey in Morocco and create "a Mussulman peril," which is German's answer to Great Britain's "yellow peril." The paper expresses the belief that it will result in strengthening the bond between Great Britain and France, the embiliterment of the feeling between France and Germany and increasing armaments, but that there is no possibility of war since Berlin fully comprehends the m aness of a condict with Treat Britain and France allied.

France allied. In the discussion of peace propects several papers refer to the Associated Press dispatches which have been re-telegraphed from New York, laying special stress upon the statement that the negotiations were originated by Russia but avoid any extensive dito-

clations. The trip is being primarily made to enable the president to attend the re-union of his old regiment, the Rough Riders, which is to be held at San Antonio, Texas, next Friday, and to hunt big game in Oklahoma and Colo-rado. Incidentally, the president will hunt big game in Oklahoma and Colo-rado. Incidentally, the president will deliver notable addresses at several places en route. His first important stop will be made at Louisville, Ky., tomorrow, morning, where he will be the guest of the city for a few hours. He will go directly to St. Louis and thence via the Missouri, Kansas & Texas rail-road to San Antonio stopping at sevvia the Missouri, Kansas & Texas rail-road to San Antonio, stopping at sev-eral places on the way, among them Sherman and Dailas, Texas. After leaving San Antonio, the presi-dent will go to Oklahoma for a wolf hunt, and proceed thence to Colorado

PREPARING FOR PRESIDENT.

The Vinita Commercial club met last

A GREAT WOLF HUNT.

In order that the plans maye be car-ried out it will be necessary to get con-

sent of the president's manager, who has decreed that during the president's

seclusion amid the fastnesses of the

Indian reserve, troops of cavalry from Fort Sill will patrol the fences and per-

southern Oklahoma,

leved in reciprocity. about was fair play, so both went into the interviewing game. In brief Mr. Haggard said: "I am

awfully sorry that I cannot spend a longer time in Utah as I am very much Interested in the people here and what they have accomplished, but I have to be in Canada to meet Lord Grey on April 14, and have to make some vestigations on the way, so it w necessary for me to go on to Colorado tonight where we are due to visit Fort Amity and look into the Salvation Army colony there. I had the fortune to be detained at Yuma, I had the misfor three days in a beastly washout which has had the effect of disorganiz-ing our plans considerably, otherwise I would have liked to have spent some

THE WONDERFUL WEST.

"Yes, as you say, it is a stereotyped uestion. What do I think of the res, as you say, it is a strength of the west? Well, you have a wonderful country here, with pienty of elbow room. This sagebrush country is not unlike the Karoo of South Africa. I was very much taken up with California and its great possibilities. I believe that there are only approximately 2,000,000 people there. California is essentially the Italy of America, and Italy, I believe, has over 40,000,000 people. I look for California to have that number after awhile."

HIS MISSION TO AMERICA.

Upon being asked the nature of his in to America on which he WAS sent by the British government, Mr. Haggard dismissed it with a wave of hand, "Simply to report," he said, "simply to report." "Is it the intention of the British

government to ship its surplus popula-tion to its colonies so as to give all a chance

"I do not know anything of the intentions of the government, I simply am observing conditions here and will re-port," he answered.

POPULATION SPONGES.

"I see, however, that conditions here are somewhat the same as we have them," he added, "the cities are like sponges, they absorb the surplus lation. That is the trouble everysurplus population everybody flocks to the cities. and the backbone industry, the pursuit of agriculture, is retrograding and be-ing neglected for a chance to get into towns and cities."

HUNTING FOR SOLUTION.

"What is the English solution to this was asked. That is just what I am out here

for he answered. "I am to report, and it is for the government to find the

Mr. Haggard, unofficially, went on to state that state that it was not at all a bad idea to build up the British colonies with the surplus population of the mother country. When asked for an opinion as to which was the best ly from the standpoint of affording the greatest opportunities for the emigrant he unhesitatingly stated Canada, where the Hooligan could find an outlet for his superfluous energies and indicated for his superfluous energies incidentally evolve into a sterling cltizen.

CONCLUSION OF "SHE."

Coming down to his books Mr. Hag-Bard informed the "News" that he was how engaged on another story that would be the conclusion of "She." The The His book will be known as "Ayesha." His latest story, "The Bretheren, A Tale of the Crusades." has just been issued the Crusades," from the press, has just been issued

books have you writincluding Miss Haggard, laughed as be sold, "Oh, I don't know, I never counted tham."

Mr. Haggard was then asked as to I town.

tending the 21 franchises of the Utah Light & Railway company, has been drawn up by Assistant City Attorney W. H. Bramel and will be looked over by the municipal laws and special wacommittees this afternoon and submitted to the council tonight for action

It is very probable that a number of amendments will be offered to the fran-chise when it comes before the council for consideration and an attempt will be made by the members opposed to it to lay it over. There is some question as to whether or not it will be passed as it is customary to read the franchise once when first submitted and the place when first submitted and then place it on its second and third readings at the next meeting of the council. However, there are those who favor

pasisng it without delay and an effort may be made to put it through tonight. There is one important change made in the matter, which is not quite satisfac-tory to the company. It proposes to give a rate of eight fares for 25 cents for the workingmen who ride between 6 a. m. and 7:30 a. m. and between the hours of 6 and 7 p. m. Commutation books would have to be issued for such rates. The company has agreed to make the rate applicable in the mornings, but

it objects to extending such a rate in the afternoons from 5 to 7 o'clock. They the atternoons from a to 7 octock. They claim that everyone would wait until after 5 o'clock to go home from work and the result would be that all could take advantage of the cheap rate.

TWO NEW BANKS.

Commercial of Spanish Fork and State Bank of Beaver-Other Companies.

Copies of the articles of incorporation of four new companies, two of which are banks, were filed in the office. of Secretary of State Tingey today. Rather a strange coincidence in connec-tion with them is the fact that the capital stock of each is the same, namely,

5,000. They are as follows: The Commercial Bank of Spanish \$25.000. Fork, with shares of the par value of \$100 each. Henry Gardner is presi-

cated at Beaver City, with shares of the par value of \$100 each. The officers are, J. F. Tolton, president; E. S. Sawyer, vice president; N. P. Ipson,

cashier The Panguitch Co-operative Mercan-tile Institution of Panguitch, with shares of the par value of \$10 each. A. D. Clark is president; James Houston, vice president; D. L. Heywood, sec-retary; W. H. Tibbs, treasurer.

The Wheelwright Construction Com-pany of Ogden, shares of the par value John Wheelwright is pres B. Wheelwright, vice presiof \$10 each. dent; G. M. Wheelwright, secretary treasurer.

CASHIER MILLER DENIES.

Declares Most Emphatically That Wells-Fargo Bank Will Not be Sold.

Cashier Miller of Wells-Fargo Banking company has returned from his week's trip to the coast. He says there is abolutely nothing to the rumors and reforts that have been circulated over the country as to any possible or impossible selling out of the Salt Lake branch of the company; and that the bank, for all that he knows, will continue doing busi-mens at the old stand. Mr. Miller says San Francisco is growing remarkably, and the retail district is extending from Montgomery and Kearney streets clear from Market street up to Grand avenue. The building is going on all over the town. country as to any possible or impossible

and copper distributed among the visitors. ore to be used in the concentrator come from Utah mines. Only

the mines paying dividends will be asked for ore. The concentrator complete will weigh 40,000 pounds. There will also be a collection of the different ores and minerals mined in Utah. To the front of the proposed build-ing there is a gradual slope of the ground to the water. This will be devoted to landscape gardening. Lom-bardy poplars will be planted. Sego lilies, the Utah state flower, will also be transplanted. Gov. Cutler and his party will be the guests at the Commercial club at

noon today. The members of the Com mercial club and the business men of this city will give the governor and his companions a reception preceding the luncheon. The reception will be informal. Gov. Cutler will visit Portland some time during the summer when the exposition is in progress.

NAN PATTERSON'S SISTER.

Mrs. Harriet P. Lowell Refuses To be Interviewed.

Washinton, April 3.-The Post says: "Mrs. Lowell declines to be interviewed the and has nothing for publication," was the response newspaper reporters re-ceived yesterday at the Patterson residence at 1462 Howard avenue, Mount Pleasant, They had gone to ascertain if Mrs. Harrolet P. Lowell, sister of Nan Patterson and of Mrs. J. Morgan Smith, is the author of the letters signed "H. L." found in Mrs. Smith's possession when arrested in Cincinnati nd to get what explanation she might have of their contents. Mrs. Lowell was in the house, but none of the newspaper fraternity was permitted to It was admitted that she is related to the Pattersons.

ANDREW D. WHITE.

Ex-President of Cornell University Has a Narrow Escape.

New York, April 3.-Andrew D. White, former president of Cornell university, and ex-ambassador to Germany, has had a narrow escape from death while returning to this city from New Haven. He was severely cut by glass from a broken window, and only escaped by the narrowest margin from losing the top of his head. The silk hat which he wore was cut across as if by a knife,

scarcely more than one-eighth of an inch from the top of his head, Mr. White had a seat in a Pullman, Mr. White had a seat in a Pullman, two cars back from the engine. Near him sat a woman and a child. The train was running at a high rate of speed near Rye, when it passed a fright train going in the opposite di-rection. Suddenly there was a crash and a shower of glass and bits of wood fell on Mr. White, who had been read-ing. His hands and arms were severa-

fell on Mr. White, who had been read-ing. His hands and arms were severe-ly cut while a plece of plate glass had cut his silk hat almost in two. The for-mer diplomat was dazed by the sud-denness of the crash and is still suffer-ing from the shock. The woman pas-senger slitting near by was slightly burt and when the train reached New

senger sitting near by was slightly hurt, and when the train reached New York she was sent home in a cab. Examination of the car showed that something had hit the double window opposite where Mr. White was seated. Glass from that side apparently had been hurled across the car with such force that the window beside the for-mer diplomat was demolished. The train was stopped, but no cause for the accident could be found nor was there evidence that anything had been svidence evidence that anything had been thrown at the train. Trainmen reached the conclusion that a car door on the passing freight train caused the trou-

al comment. MANY VERSIONS OF SPEECH.

London, April 2.—Many versions of imperor William's utterances at angier continue to circulate in Paris and Berlin but nothing official con-cerning the speech has been issued. According to one French report According to one French report Emperor William expressed a wish to conclude an agreement with the sultan of Morocco as an absolutely free sovereign in order to safeguard German interets and urged the necessity of the sultan proceeding with great precau-tion in the projection of reforms. A telegram from Tangier to a news agency gives a report that the sultan lready communicated to the minister to Morocco his reply already RR the French proposals, in which re ply he expresses regret at his ability to accept the whole of the in. dent will visit. program. The sultan, the disform patch adds, agrees to institute reforms at coast ports, but claims the right to raise loans wherever it is most con-venient for the country's interests. tions are being made here for the en-tertainment of visitors who will come here Wednesday morning to see Presi-

dent Roosevelt as he passes through here on his southwestern trip. Berlin, April 1 .- The Lokal Anzeiger in a dispatch from Tangier says that in replying to the members of the Ger-man colony Emperor William said he was glad to make the acquaintance of night and made arrangements for receiving the president and also for entertaining the excursionists and other eers of Germany in Morocco the pioneers of Germany in Morocco and to tell them that they had done their duty under the emperor's protec-tion. Germany had great commercial interests in Morocco, her trade was advisitors. Lawton, O. T., April 3.-Although the president seeks isolation from the interests in Morocco, ner trade was ad-vancing gratifyingly. He, the emperor, would make it his husiness to promote this trade which was only possible on the assumption of the equality of all the powers and the sovereignty of the sultan and the independence of the world in planning to hunt wolves for a week, on the 480,000 acre pasture reserve that section of the territory have manded that he shall view and partici-pate in one of the rousing, stupendous wolf drives for which the southwest country is noted. To this end arrangeand the independence of the His visit was a recognition of nd. this independence. ments are now being made for the big-

The speech, the Lokal Anzeiger adds, created an immense impression in the gest drive zince the historic southwest. The president will be given a horse and will take part in the final rush after the wolves have been corraled. foreign colony at Tangier and especial-ly among the natives who now refer to the emperor as the protector of the independence of Morocco.

BOY BURGLAR'S FATE.

Young Man Sentenced to State Prison For Three Years-Pathetic Case.

Charles Cromar, who was found guilty of burglary on Thursday, was today sentenced by Judge Armstrong to three years in the state prison. Owing to the previous good character of defendant, his youth and the fact that the goods stolen were all recovered, the court said that he would only pass a

light sentence on the prisoner. Cromer burglarized the barn of the Salt Lake Livery & Transfer company on the night of Jan. 5. and stole five sacks of oats. He formerly worked at the place. The other charge of grand larceny against him was continued for the term. It is said that he is responsible for the theft of several bicycles nd the city.

Judge Armstrong gave the young fellow permission to go and see his par-ents before being taken to the penitentiary and he accordingly left the court room in company with Deputy Sheriff Sharp to bid them goodby. When sen-tence was passed upon him he broke down and cried and was still weeping when led from the court room

FOSTMASTERS APPOINTED.

(Special to the "News,")

Washington, D. C., April 3.-Postmas-ters appointed: Utah-Clear Creek, Carbon county, Hannah Hunter, vice George Martin, resigned. Wyoming-Rudefeba, Carbon county, W. G. Rogers, vice G. O. Clement, re-

| signed.

to hunt big game in the mountains. Un-less it should be necessary on account came to a ditch about 150 yards south of came to a ditch about 160 yards south of the park and 150 feet west of Seventh East street, he noticed a package of common brown wrapping paper lying in the edge of the water. He picked it up and unwrapped it, and found the child, which was little more than six inches in length. of the unforeseen circumstances tail the trip, the president will be absent from Washington about two months. Definite plans for the trip after he shall leave Oklahoma have not been made, the purpose of the presi-dent being to adjust his plans to the He left the parcel where it was and at once telephoned to Sheriff Emery about the matter. Deputy Sheriff Sharp conditions as they may exist at the time. While he expects to be in the

All the tracks leading to the place were traced out, but without results. It was thought that perhaps by means of couriers to the nearest telegraph station, with Washington, and thus will be enabled to attend to such important business as may de-mand his personal attention. Dr. some one might have brought the pack-age down on a Calder's park car late Saturday night and left it there, as the Lambert, who accompanies the presisaturday hight and left it there, as the indications were that it had not been there very many hours, so the street car men were questioned as to any pas-sengers with a bundle answering the description of the one found. No indent, is his physician, and has hunted throughout the country which the presiformation was received from that Vinita, I. T., April 3 .- Great preparasource.

After running down all of the theo-ries thought of in connection with the affair, the deputy buried the remains in the field upon the advice of County Attorney Christensen and marked its burial place so that it can be found should it be wanted. Seven men were present when the burial took place, so that there is no danger of not being able to locate the grave if desired.

AN OLD SALT LAKER.

Lincoln J. Carter, Author and Playwright, Recalls Early Days.

For several seasons there has been an axiom at the Grand that however other attractions in theatricals fared, the melodrama was sure to pay. And of all the melodramas those that were surest to count on have born the name of Lincoln J. Carter. His "type" melodrama has been inseparably 1 link ed with stage realism, and thrilling scenes of murder, fire, and shipwreck. Saturday Mr. Carter was a visitor in Saturday Mr. Carter was a visitor in Saturday Mr. Carter was a visitor in Saturday in the saturday and found much to recall his early youth here. It was as call boy in the Saturday apprenticeship he utilized so skilfully afterwards, and it was an accident of 8 years ago in a local printing shop where he was press kicker that turned his ambitions to the stage. His mother was an access in stage. His mother was an actress a Salt Lake theater stock compa

during the playwright's residence here BIDS OPENED TODAY.

Those for School Property Much Lower Than Anticipated.

The committee on buildings and grounds of the board of education, met this afternoon and opened bids for the sale of school property as follows:

Thirteenth ward school located on Second South, east of the Grand thea second South, cast of the Grind thea-ter, with frontage of 125 feet, including a right of way of 18 feet. Only one bid was received, that of the Houston Real. Estate Investment company of \$173 per front foot, making the for the entire property of about \$1 Longfellow school, 10x10 rods total \$14,493 ground, the Anderson Real Estate com-pany, \$5,000; M. S. Woolley, \$5,500; Houston Real Estate Investment com-

Houston Real Estate Divestment com-pany, \$4,500.
Whittler school, 6½x10 rods, William McLachlan, \$5,500; S. G. Skilris, \$3,000;
Houston Real Estate Investment com-pany, \$2,437.50.

Irving school 10x10 rods, no bids, The bids received for the property are lower than expected by the con mittee and a meeting is being hel nittee afternoon, to further consider the

A CANAL WITH LOCKS.

"The act of Congress evidently con-templates a canal with locks, the cost which shall be in the neighborhood \$200,000,000, including the money already expended. It is quite within the bounds of possibility that the best form of canal will be a sea level canal with a tidal lock only at one end of it and that the cost of it may exceed the \$200,000,000 in the mind of Congress by

at least \$100,000,000 more. WORK OF ENGINEERS.

"The work of the engineering department of the present commission has been largely devoted to obtaining the data upon which the plan of the canal must be determined. These data inelude topographical measurements, borings, the character of the soil, the flow of water in the rivers-all stated with sufficient exactness to secure the closest calculations by experienced engineers, though not on the ground. It is probable that within the next few months these data will have been so fully ascertined by the chief engineer, Mr. Walace and his assistants, that they may be submitted to a board of engineers of the highest standing for

engineers of the highest standing for recommendation as to the best plan upon which to proceed with the work. "It also has been made apparent, by the reports of Mr. Wallace and by the commission that whatever plan is likely to be adopted, work of excavation and construction which would have to be done under such man margan be done under any plan may proceed without waste of energy for a period quite long enough to enable you to decide which is the best plan.

ADVISORY BOARD.

"I suggest, therefore, that the first ork to be done is the appointment work to of an advisory board of engineers, say seven or nine in number, to be selected from the engineers having especial knowledge of hydraulic engineering and canal construction, to whom shall be submitted all possible information with respect to the projected Panama canal, respect to the projected Panama canal, both that obtained by the French en-gineers before our purchase of the plant and the data obtained by the chief engineer of the present canal commis-sion, together with all projects sug-gested for the solution of the problem which the canal commissioners deem reasonably possible or practicable; that the advisory beard be invited to Wash-ington for the purpose of agreeing on its recommendations in the premises, and that if possible such recommenda-tions be made before the regular meet-ing of Congress in December; that the ing of Congress in December; that the recommendations be sumbitted to the that the canal commission as then constituted for its approval or modification and with the recommendations of the canal commission be submitted to the presi-dent for his action and transmission to Congress. As already suggested, this work of securing the best plan and its approval by Congress need not delay in any way the preliminary work adapted to any possible plan, or the highly critical work of sanitation, the extreme importance of which has al-ready been emphasized in your previous instructions to the sanital completion astructions to the canal commission.

THE OLD COMMISSION.

"It is conceded, even by its own mem-bors, that the present commission has not so developed itself into an executive body as to give hope that it may be

A. Lyon, who has had much to do with the president's visit to Texas and with the arrangements of the itinerary of the trip, left yesterday for St. Louis to meet and escort the party to this city. He was accompanied by his wife, who goes to Florida on a visit. Fire in Alvarado, Cal. Alvarado, Cal., April 3.-Fire which broke out in the second story in a sa-loon late last night wiped out five buildings and was only checked from de-stroying the entire town by the tear-ing down of the next structure that

lay in its path. The loss will amount to between \$25.069 and \$30,000, which is only partially covered by insurance.

PRINCE OF WALES

Undergoes an Operation at Marlborough House.

London, April 3 .- The Prince of Wale underwent an operation today at Marl borough house, the nature of which was not divulged in the official statement, subsequently issued. The public was assured that nothing serious was the matter by Sir Francis H. Laking and Sir Frederick Treves, the court physi-clans, whose signatures are appended to the statement as follows:

"Owing to a slight operation this morning, the prince will be confined to his room for a few days. As his con- | matter.
