# Read These A's and O's

Then Mind Your P's and Q's.

Chat H. Withers

Q When you are sick and require the ser-vices of a physician do you get esti-mates from several and engage the lowest bidder?

A Not much. You camider the most skill-ful as being none too good; you even think not of price, but sugage him

A No. The "gilt edge" overland flyer is none too swift and sure, if the tare IS a little more.

Q When about to engage in a lawsuit, do you procure bids from various lawyers, disregard ability and price, and engage the lowest bidder?

A No You trust your case only in the hands of one you are sure will render you mediate and valuable service.

Q When you are seeking a good invest-ment, do you select stocks and real estate for the least money, with little or no re-gard for value? A No. You set wisely and invest only in such as are sure to produce the best re-sults for your money.

Q When you are having printing done, is your method consistent with the answers given in the previous questions?

A No. You get prices from printers who do IGOOD work and from those who do INFERIOR work and often accept the lawrest list.

A ND RIGHT THERE IS WHERE YOU make your mistake. The best drawing card for businesses of all kinds is good prutting in all that the words imply. There is anamony between type, paper, ink and good workmanship that you should not disregard. No hob too large; none too small; prices right printing "gilt edge". Only first-class workmen engaged in our office—men acquainted with the very latest and best styles.

Our name comes LAST, but it should be the FIRST to be considered when printing is to be done.
