# BEARS RULED THE DAY ON 'CHANGE

The Attack,

DALYS WERE HIT HARD. CHEAP POWER FACILITIES

Lost Some of the Advances Made Yesterday - Wabash and Little Chief Came to Front in Better Tone.

There was a reaction in the Daly stocks today. The stiff prices of yesterday were not maintained and it was evident that the bears were getting in their work. Plenty of Daly-West stock was offered in big lots at inviting figures, but no one wanted the security in large quantities. A few small lots were handed out at prices ranging from \$41 down to \$40.80. The closing bid for the stock was \$40.50. Daly opened weaker, a 200 block fell out of basket at \$3.75, followed by a drop to \$3.76; but a raily was noticed at the close. Daly-Judge, which reached the \$11 mark yesterday was found selling about the pit as low as \$10.55, and closed 15 cents lower than that price, or 60 cents under yesterday's highwater mark. Lower Mammoth was slightly in the dumps. Some one wanted South Swansea, and a block of 1,500 was let oose at 17% cents. Uncle Sam found a buyer at 23 cents, while California did

kewise at 26 cents. New York in sympathy with others ame forward weaker. Little Chief appeared in better tone and so did Wa-bash, notwithstanding the pending as-sessment. About the only improvement shown on the blackboard, compared with its appearance yesterday, was in the two latter stocks. It was an off day for the others.

Anunal Meet of Stock Exchange May be Postponed.

Next Saturday afternoon, at 1 o'clock, s the time set for the annual meeting of the members of the stock exchange, but it is very probable that the meeting will be postponed, possibly two weeks. The committee on rules derives a little nore time in which to frame its report, which is to be presented and read at

the forthcoming meeting.

Broker James A. Pollock, one of the nbers of the governing board, also on the committee, returned from the east only a few days ago, and has not had time to thoroughly familiarize himself with the proposed changes; be-sides it will be quite impossible to have the report ready for the meeting should it take place on schedule time. The committee on rules will ask for a post-ponement of the meeting.

# MINING IN BEN CASWELL

Nearly All Stocks Suffered From | Silver City on Eve of Some Impor- | Discovery of Dewey Mine Tells an tant Developments. Interesting Story.

WHAT BELLE MINE SHOWS.

An Advantage Over Many Other Camps -A. F. Stevens Tells of Conditions The Ton. In the Northern District.

One of Idaho's prominent mining men s sojourning in Salt Lake for a few days, having come upon an important business errand. The personage is none other than Mr. A. F. Stevens, manager of the Addle Consolidated and Owyhee Gold Mining companies, operating at Silver City, Idaho. At the Knutsford last evening Mr.

Stevens expressed the opinion that his camp is on the eye of making some important developments. He expects that much new energy will enter that old Idaho mining district this year. The camp is gradually coming to the front again after a period of sluggish ness lasting over a period of a number of years, when the Trade Dollar mine was practically the only active property in the district. Now there are several in successful operation.

The district was never in a more inviting condition for investors than at present. The installation of electric power, generated from the Swan Falls plant on the Snake river, has reduced the cost of milling to a minimum. This power is furnished to operators at a moderate cost. The Addie company is using it at the present time and by doing so is enabled to mill its ores with a 5-stamp plant at an expense of less than \$2 per ton. The Addle company is treating ore of an average value of about \$35 to the ton at the present time.

about \$39 to the ton at the present time. The Whisky mine, owned by the Owyhee Gold Mining company, is a late producer in the camp. Fifty tons of ore piled upon the dump, which was extracted during the sinking of the shaft, was recently taken to the mill without any sorting and yielded returns of a little better than \$20 to the ton.

Mr. Stevens is an enthusastic ad-Mr. Stevens is an enthusiastic ad-mirer of the Silver City country and staked his faith in it a number of years staked his faith in it a number of years ago, since which time he has made a careful study of the geological conditions of the camp. He states that it is his experience that wherever values are found upon the surface along the fissure veins, which lie in a granite formation, they invariably retain their values with depth. # ON THUNDER,

Is Said to Have Sixty Feet of Ore Run ning as High as \$100 to

Ben Caswell, one of the now wellrown Caswell brothers who discovered the famous Dewey mine in the Thunder Mountain mining district, Idaho, is down from Boise and registered at the Cullen. When the Caswell boys," as they are called, although they are full grown, tough, hardy fightiersmen sold their mine to Col. \$160,000 spot cash and the Sunnyside and some others for as much more, they, like any sensible people, invested

a good portion of their money in Bolse eal estate, and their foresight is now being well recompensed. Hen. Caswell is the leader of the firm and travels a good deal, being a fre-quent visitor to Salt Lake, which he predicts will become a large city. He be'd last evening that while he had not been at Thunder Mountain slace last September, he had within the past 10 days met Bert Day and Curley Beaver, who had just come out from there and reported things to be looking fine The Belle of Thunder Mountain is said to have 60 feet of ore, some of which runs as high as \$100 to the ton and is far beyond the expectations of the owners. The Dewey mine is a close corporation and no outsiders are mitted inside, so no one can tell how hings are there. It is said that the nine looks good and is being developed things are there. as fast as men and money can do it. The Fairview is better than ever. Big

Creek, 30 miles from the town of Reosevelt, is opening up remarkably The Caswell Brothers, who still own The Caswell Brothers, who still own much property there are not working any men this winter owing to the fact that they were delayed in getting in their provisions. As a proof of what Ben. Caswell thinks of Thunder Mountain, he says he has just invested \$10,000 in cash in the district. There are about 150 miners at work in the various properties and about 200 or 400. various properties and about 390 or 400 people all told in and about the town of Rossevelt. The mail route delivers the mails once in two weeks, and sometimes more frequently, so that the listrict is not cut off from the outside world as it was last winter. Mr. Caswell says that what the district most needs is one or more roads and they seem to be assured next summer. Until this is done, no machingry can be brought into the district, mills are the main thing needed to make producers. He says there is not like y to be a stampede this year and that should not start before the 1st of June if the season is early or the 1st of July if it is late. There seems to be no doubt in his mind as to the merits of the district and its future out-

Lather of Latoila and allow it to re main on over night. For itchings and irritations is has no equal. Chafing cured by its use. Latoila is a perfect flesh food, sup-plying the oil it demands to prevent dryness, chapping and other unsightly effects. It supplies to the hair the oil

required to make it soft and wavy, in-stead of dry, stiff and unmanageable. Barbers and hairdressers are delighted Miss Marie Schultz, the Celebrated Contralto, Says:

"My hair has been coming out so rapidly that I was greatly worried. Nothing I could find that was recommended for the hair did any good. After three shampoos with Latolla is stopped comgone and my hair was in fine condi-tion. I recommend it to everyone, man or woman, for the hair and bath." Latolla is used and recommended by roves its merits. It is unequaled,

Salt Lake City Appreciates Always When Promises Are Kept.

Every time you read about Doan's Kidney Fills you are told they cure every form of kidney ill, from back-ache to urinary disorders. How are our promises kept? Ask any citizen who has tried the treatment. Ask the man Mrs. John M. Child, John M. Child, etired, of 25 north 5th St., West, says: My back ached so that I could not so till without placing my arm across m loins and leaning against it for the slight relief this makeshift or position afforded. If I awoke at night I dreaded to change position for I knew the moment I attempted to turn agony fol-lowed. I had little confidence in Doan's Kidney Pills when they first came to my notice for I had tried plasters and kidney remedies unstintingly without r iving any satisfaction so when a bo of the preparation procured at the P J. Hill Drug Co,'s store brought relief and a continuation of the treatmen was followed by the greatest improve ment in my condition it is little wonder that I very emphatically endorse the
