NO NEGROES IN BRITISH ARMY. NO NEGROES IN BRITISH ARAY. London, July 3.—The British admiralty and war office have both drawn the color line against a youth born in London of a negro father and English mother. On the death of his parents, the appointed guardians took charge of the boy, who has grown up and desires to serve his county, but the authorities refuse to permit him to enlist either in the navy or the army. This banning of a British subject because of his color promises to lead to a lively discussion in parliament, where the matter probably will be brought up.

JAPANESE WILL BOYCOTT. Tokio, July 4.-In well informed quar-ters there is an inclination to smile at the denial of the Associated Chambers of Commerce of an intention to inaugurate a boycott against American goods. While there is no doubt that the chambers of commerce would not, as such take any action of that nature, yet in this con-nection, however, it is necessary to re-member that public bodies like chambers of commerce do not give out positive in-formation in a matter the consummation of which requires great secrecy, also the Japanese capacity to keep screts a fact which was remarkably proven in the late Russian war. It is possible that the pub-lic may be surplised at any time at the sudden appearance of a strong combina-tion, committed to a policy to buy no American goods. The report that the United States would has not attracted much attention here.
