We are pleased to count the assasain Guiteau among the bitter enemies of "Mormonism." He proposes to squelch the "Mormons" in a short way if the people would give him the power. The verdic' of the jury disposes of him in quite as summary a manner. That is quite right. The anti-"Mormon" fanatics should think on the kind of company they are in.

Newspapers are complaining of the terrible prevalence of crime, and the jail yesterday, as to the propriety state that during the winter months True enough. Yet the howling fanatics who want to crush "Mormonism" pay no attention to the real evils around them, in their an-

For the last few months, writes a correspondent at Port Elizabeth, South Africa, up country settlers and agriculturists have been complaining of the injury done to the country by ostrich farming, and many experienced and influential public men declared it would be the ruin of the country. They have nothing to fear now. Ostrich farming will soon be a thing of the pa t. The banks have called in the "scrip," Irkutak: and several private companies are in Hunt, Secretary of the Navy, liquidation. The lia lities of one extensive farmer amount to upward of \$1,507,000, while several failures of small farmers are of daily occurrence. At one time when everybody was going in for ostrich farm ing and shares, a pair of old birds used to fetch \$1,250, and chicks from \$30 to \$15 each. A pair of old birds can now be bought at from \$55 to \$70, and chicks, three weeks old, from 85c. to \$1.25.

THE Deck-and-lowly Christians of several sects can find no way to oppose "Mormonism" but by blows either from the law or the soldiery. They manifest much the same spirit among themselves when it omes to an internal squabble, especlally in relation to funds. Here are a few utterances from an Episcopal

Mercantile Agency, reports license of merchants in cities and failures throughout the county duthe practice of requiring a heavy license of merchants in cities and none of the same class of traders outside the municipal corporations, appears to us a great injustice to the city salesmen. The dealers in dry goods and other articles of merchan-dise in cities have to pay high rents as well as high licenses, and while the country dealers' rent and other expenses are less, they are exempt from license fees. Why should this distinction exist? Would it not be just as right and proper for merchants in country places to help build up the counties, as for city merch-ants to aid in building up the cities by payment of license fees?
