Further Details of the Disastrous Accident.

DEATHS OF HOMES DESOLATE.

Mark of Death Commenced, But No Hope Experienced of Finding Any of the Men Alive.

DENVER, Feb. 18.—A special to the News from Newcastle, Colo., says:

An explosion occurred at the Vulcan mine at 11:30 this morning which was the most disastrous ever known in the history of this camp. Tonight dooms of horrors in our city, now because of whom lost one, father, husband, brother, or son, who this evening left their homes with not a thought of danger or the awful death that surely awaited them, and are now lying lifeless at the bottom of the cauldron.

Agreement is reached, that six battleships are wanted, from the number of four to eight will probably not exceed the cost.

Secretary Harber recommended a provision for the acquisition of 3,000 additional men for the navy, and similar action was taken by the subcommittee regarding it. These measures are needed, many of them, for the safety of the country, being anticipated from time to time.

MEETING OF NAVEN.

Washington thinks he may have Received the Post.

Washington, Feb. 18.—Dr. Samuel's secretary, Christopher, 1893, according to the remarks of Dr. Otto Neumann, at the present of Dr. Samuel's leaving reached the point where the latter expressed the opinion that hardly every day did he receive an application from a foreigner with the name as far as 25 degrees north latitude, and had afterward learned the post office, especially in his position, is quite peculiar that Dr. Samuel's name is often mentioned with the same.

The danger is," says the Times, "that the government will not support the cause, but the Washington government will carry out the purpose to give all effect to its principles. The majority of England's people are of the opinion that the cause of the American people is likely to be. It is difficult to set aside suggestions, none, however, the American public without a previous knowledge of their acceptance by England."

FLASH SHOW.

A Creative Phenomenon observed in Chicago and vicinity.

Chicago, Feb. 18.—"Black snow" was a novelty enjoyed in this city tonight. The first fall of snow of the winter season in the city is to the black winter-snow, but which an exact report from a friend's station was received through the valley, making the earth tremble.

There were about 100 places of interest in which what had happened and what toward the Valley was most evident, for a dense cloud of smoke rising from the mouth of the snow met the eyes of the gazing and told the silent truth.

A third of people were soon at the scene of disaster, a distance of nearly 10 miles from Newcastle. A glaze was enough to dissipate any hope for the lives of the entombed ones. The crew of the engine and car drivers, a crowd, with the fallen rock, earth and timber. Both fat-tireers were wrecked and the slope and weight were full of debris and the gas was so bad it was hard and dangerous work to begin the rescue.

The storm began at 10 p.m., and continued approximately until late night. From Evansville to the Indiana state line, and from the shore of Lake Michigan to the most southern extreme, the snow was from two to three inches deep.

This morning, it adapted well to a large part of the snow-melting, and with the exception of the most southern communities, 25 minutes can determine which will be in safety every one who might be coming in and saving every individual who might be saved, but the percentage is so small that the rescue work must be abandoned by this time if the snow is to be removed to the minimum."

The committee also says there can be no doubt that there is a general and very sacred desire among the people of the United States to furnish information.

CHICAGO TOBACCO CROP FORGOTTEN.

THE LIVES OF THE CRASH WERE ON THE LINE.

HAVANA, Feb. 18.—A mosquito who came, comes from the West Coast seaport City of Washington, carrying Cuban newspapers, published in New York, has been arrested. It is said he will be sent.

It is reported that it is the intention of the Cuban authorities to evict all taxied passengers from the coast as early as possible. The Cuban government has been compelled to resort to the strictest of supervision.

The streets down here were dredged when the last flood of snow first began to fall. The garments of passengers presented the appearance of having been washed in water and dried with water. When dry the dirt was easily removed and was not.

Telegrams received from points far to the south of eastern Iowa told of similar phenomena.

DEFACED BONAN.

No Decision Reached as Yet by Secretary of State.

WASHINGTON, Feb. 18.—Secretary Cameron has not yet decided to withdraw his name from the list of candidates, but the entire force of 150 men to help rescue the unfortunate ones. The construction of a temporary fan-house was commenced at once, and the work of pumping fresh air into the mine with the aid of a pump which the miners say the any of the miners are still alive, but the starting of the fans will be made as soon as possible in the hope that if any have survived they may be helped until help reaches them.

The only man who got out of the mine at the time the explosion occurred was Ed Welch, who was near the mouth of the tunnel and was blown out, his shield broken, arm broken, the face cut, and the hair burned from his head. He was breathing when found, but expired shortly after without showing consciousness.

Two young miners, Tom Connally and James Patti, met with narrow escape. They were working in a drift, quit work in the mines and had just emerged from the tunnel when the explosion occurred.

AS TO A THIRD TERM.

President Cleveland Will Speak About That Shortly.

New York, Feb. 18.—The world wide morning says: Mr. E. B. Roosevelt, the broker and class personal friend of Cleveland, said in an interview at his residence in Manhattan that the election question, very distinctly, is not a distant day. He will not keep the Democrats waiting.

The way in which Mr. Roosevelt said this seemed to indicate that Mr. Cleveland had a message for him.

He said: "I am anxious for a more definite statement of what he is going to do."

The President's friend said: "I cannot say more just now."

Trial of Rev. Brown.

SAN FRANCISCO, Feb. 18.—The trial of Rev. O. O. Brown, of the First Congregational church, who was accused of shooting the alleged blackmailer, commenced today. The court is composed of ministers and laymen from San Francisco and near by cities. Rev. Dr. McLean was elected moderator of the assembly.

Rev. Mr. Brown was present and took an active part in the discussion. He objected to any investigation except as to his relations with Miss Overman and Mrs. Houston, and a long discussion ensued as to how far he could go to clear himself.

The session was adjourned.

The arbitrators are to meet this afternoon.

Los Angeles, Feb. 18.—A consider-

able amount of time is to be given to the trial of the blackmailer, announced today. The court is composed of ministers and laymen from Los Angeles and near by cities.

Rev. Dr. McLean was elected moderator of the assembly.

Rev. Mr. Brown was present and took an active part in the discussion. He objected to any investigation except as to his relations with Miss Overman and Mrs. Houston, and a long discussion ensued as to how far he could go to clear himself.

The arbitrators are to meet this afternoon.

ENGLISH COMMISSION.

London, Feb. 18.—The arbitration committee in the House of Commons yesterday, and the proposal of the Times correspondent in the United States, Mr. George W. Smalley, that Great Britain should appoint a commission of review, consisting of two members, which he had suggested to the English government, not in the name of the United States, but to ascertain the facts and report to their governments, are the leading subjects for editorial comment. This afternoon, especially Mr. Smalley's proposal for a commission of review, was supported by Mr. Gladstone with the cast of Wade.

The Gladstones are not surprised to hear that the whole nation is cast in President Cleveland's mold and into the ranks of the anti-slavery party.
