Ogden, July 10.—The county commissioners at their regular meeting yesterday received a communication from the National Irrigation congress management, announcing that the congress will be held at Boise, Ida., Sept. 3 to 8, and requesting the board to appoint five delegates from Weber county, which will be done at the next session of the county board.

Bids from the Utah State Journal and Ogden Standard for the publication of the county's printing were opened, and as both bids were the same it was decided to divide the work equally between the two papers. County Clerk Mattson was instructed to advertise for bids for the furnishing of supplies for the various county offices.

Albany, N. Y., July 9.—It became known here today that Gov. Higgins several days ago commuted the sentence of Thomas P. Wickes, the New York lawyer who was sentenced to a year's imprisonment upon conviction of blackmail in the writing of the notorious "Lewis Jarvis" letters. In those letters he sought, as it was alleged, to secure advantage in legal business by writing letters about himself, signing them with the name of "Lewis Jarvis." Gov. Higgins is out of town, but his secretary, Frank E. Perley, tonight said that Wickes' sentence had been commuted last week so as to effect his immediate release from prison. The names of those who recommended Wickes' commutation are withheld, but it is said they include men prominent in New York legal circles, including the district attorney. Mr. Perley said that Wickes' friends had secured for him a promising business opening in Alaska, and that the governor's action was made conditional upon his going there.

SESSION OF CITY COUNCIL.

Senator Smoot Explains Status of Forest Reserve Matters.

Special Correspondence.

Provo, July 10.—Senator Smoot appeared before the city council and gave a report of his action in the matter of petitions forwarded to him relative to the preservation of Bridal Veil falls, and on the question of the creation of forest reserves embracing the Wasatch range between Spanish Fork canyon and the Salt Lake forest reserve. On the former the senator explained in full what has formerly been reported by telegrams and letters, viz.: That the rights of Mr. Nunn, whatever they may be, have been obtained from the state, and that it was a matter in which the government had no power to interfere. On the question of forest reserves Senator Smoot had recommended that two reserves be created, one between Spanish Fork canyon and a point east of Provo, leaving out Hobbie Creek and other thickly settled portions, and another between Provo canyon and the Salt Lake reserve. These had been created and the rest of the territory temporarily withdrawn, would be thrown open for entry. Provo canyon was not included in either of these reserves, the senator not being informed in time whether the people favored including the canyon. If they did, however, it could be included at any time. His own opinion was that it would not be for the best interest of the people to have the canyon in a reserve.
