MONROE DOCTRINE CONSTRUED AGAIN.

State Department Never Assumed
To Protect Smaller Republics
In Certain Cases.

AGAINST PROPER DEMANDS.

Must Observe Their Contract Obligations or Take Consequences—
The Case of Hayti.

Washington, June 29.—It is said that the state department never has taken the ground that the smaller republics ought to be protected by the United States as against reclamation by European powers for violated contract obligations or against proper demands arising out of violations of international obligations such as it is alleged in this attack on the foreign minister.

So if the demands made on Hayti by France and Germany are not excessive or oppressive in the judgment of the state department, there will be no interference by the United States, but developments will be watched with keen interest to see that the line is properly drawn and undue punishment is not inflicted. It is not doubted that the Haytian government will supplement its adequate letter of apology by punishing the guilty guards when it realizes that it cannot look for intervention by this country.

The state department has taken note of the press reports of the dispatch of warships by France and Germany to Hayti to secure reparation for the attack upon the persons of the French and German ministers recently at Port au Prince. The department has not been formally advised of the intentions of France and Germany but assumes that these reports are perfectly correct. Following its invariable rule in such cases the department will not intervene unless some act is committed that appears to be beyond the bounds of strict justice.

Anti-Lading Bill Campaign.

Chicago, June 29.—At a meeting here today, manufacturers and shippers in the territory between Chicago and the Pacific coast started a campaign against the proposed new bill of lading which the various roads intend to put into operation Oct. 1.

To impress upon the western classification committee the determined opposition of western shippers to the proposed change, a committee, consisting of E. J. McVann of Omaha, J. M. Allen of Rockford, L. C. Moore of Chicago, W. P. Trickett of Kansas City, F. C. Maxwell of St. Joseph, E. S. Tompkins of St. Louis and L. B. Boswell of Quincy, Ill., will attend a meeting of the committee in Mexico, Colo., next month. By the new bill of lading it is asserted freight rates will be increased 20 per cent.

Gunboat Woodruff Launched.

Manila, June 29.—The gunboat Woodruff, the first war vessel built by the army under the direction of the quartermaster's department, was launched

here today. The vessel, which is named after Lieut. W. Woodruff, was killed by Moros, will be used by Gen. Wood in the rivers of Mindanao during his campaign in that island.

A DEADLY TORNADO.

Kills Forty-Five People in Moscow, Russia.

Moscow, June 29.—A tornado swept over the city last night, causing enormous damage.

Forty-five persons were killed and 13 injured are being cared for in the hospital.

Two villages near here in the track of the storm were destroyed. One hundred and fifty deaths are reported there, while 55 persons were hurt. The telegraph system was prostrated and railroad communication is interrupted. Railstones weighing three-quarters of a pound fell during the storm. In one grove of 250 acres only one tree was left standing.

Rabbits Would Establish Synod.

Louisville, Ky., June 29.—The report of the committee on synod to the conference of American rabbits was read today. The committee reported in favor of establishing a synod for the central government of the church, the most important step since the foundation of Reformed Judaism, the congregations having hitherto been practically independent. The report was not acted on.

New Boodle Investigation.

St. Louis, Mo., June 29.—As a result of the confession of Charles A. Gutke, the grand jury began today a new boodle investigation. Six members of the alleged combination and six members of the house of delegates, who were not members of the combination, were summoned to testify, presumably in corroboration of revelations made by Gutke.

Charles P. Kelly, former speaker of the house of delegates, who rests under one conviction for bribery and is awaiting retrial on another charge, had a conference today with Circuit Attorney Folk, at the conclusion of which he went before the grand jury. He was closeted with the grand jury for several hours and when he emerged from the room Mr. Kelly refused to divulge anything as to what had transpired there. The strictest secrecy was maintained in the office of the circuit attorney as to Kelly's disclosures. Mrs. C. P. Kelly, wife of the former member of the house of delegates, was also a witness before the grand jury, presumably for the purpose of backing up the statements made by her husband.

Misappropriated Funds.

Chicago, June 29.—Jacob H. Plain, cashier of the German-American National bank of Aurora, Ill., has been arrested, charged with the misappropriation of \$65,000 of the funds of the bank. The peculation has extended for over a period of three years, during which time bank examiners have several times gone over the affairs of the bank and reported the accounts correct. The peculation, however, was said to be unimpaired, and the bank, it is claimed, is in excellent shape to withstand any run that may develop as a result of Plain's shortage. The prisoner walked examination and was held to the federal grand jury under bonds of \$10,000.

Henry A. Bowen Bankrupt.

San Francisco, June 29.—Henry A. Bowen today filed a petition in bankruptcy in the United States district court, stating his liabilities at \$209,653 and his assets at \$200 worth of household goods. The chief item in the list of credits is the claim of the Nevada, California & Oregon Railway company of San Francisco. This amounts to \$190,437, which is the amount due on a promissory note executed by the Sierra

Valley Railway and Henry A. Bowen. It is secured by a chattel mortgage on the property of the Sierra Valley Railway company. Another creditor is the Washoe county bank of Reno, Nev., which holds a judgment for merchandise to the amount of \$8,000. R. M. Hotelling of San Francisco has also a judgment for \$6,500 for money loaned. Goldberg, Bowen & Co. are creditors for \$2,500.

STRANGLED TO DEATH.

Then Miss Ruth Teachout's Body Was Thrown Into the River.

St. Paul, June 29.—An autopsy held here over the body of Miss Ruth Teachout which was found in the Mississippi river at this point last night, revealed the fact that the young woman had been strangled to death before being thrown into the river and that her head had been brutally pounded. The police declare that the murder is one of the most blood-curdling ever reported in this city.

The case is one of complete mystery. A year ago the name of Miss Teachout, whose home was in Minneapolis, was prominently connected with the murder of Mrs. Robert A. Taylor, the wife of an employee in the state auditor's office. Mrs. Taylor ended her life almost on the threshold of the Teachout home and it was said that the deed was the result of jealousy and desecration. The recollection of this affair offered an explanation of this one when the body was first found. The new evidences of crime have greatly complicated the case however, and the police are at sea in their attempts to solve the mystery.

Miss Teachout, who was only 18 years old, left her home in Minneapolis Saturday ostensibly to go to the Minneapolis business college, where she was a student. Nothing more was heard of her until her person was found late in the afternoon just below Minneapolis falls in Minneapolis park. The body was found 10 miles down stream from this point.

Militia Protects Negro.

Okoloma, Miss., June 29.—A company of state militia has been called out in this city to protect the justice hall, in which is confined John Vaughan, a negro, who is charged with the murder of Annie Lucas, his sweetheart. Threats of lynching had been made against Vaughan by members of the Ku Klux Klan, and the sheriff of this county, wired Gov. Vardaman for the troops as a guard for the jail. The governor promptly called out the local militia.

Killed Himself and Wife.

Los Angeles, Cal., June 29.—A special to the Times from Perris, Riverside county, says:

"Dependent, it is supposed, on account of illness, George Setin today shot and killed his wife with a revolver and then took his own life with the same weapon."

Setin was about 33 years old, and belonged to the Bakers' union of San Francisco. On account of falling health he went to Los Angeles for medical advice, and it is supposed that what was told him of his physical condition made him despondent. He returned today to his home, half a mile from the city, and the physician arrived, he found both Setin and wife lying dead on the floor.

Members of Assembly Arrested.

New York, June 30.—Advises by steamer from Cartagena, Colombia, confirm the recent news that Gov. Echebarri had all the members of the state assembly arrested, says a Herald dispatch from Colon. The assembly recently expressed themselves in strong language against the administration, and Dr. Gastelblondo, secretary of public instruction, has been repeatedly insulted.

A great deal of ammunition has disappeared from the Cartagena, Gatling guns and field pieces have been stolen. Rumors are current that a revolution may break out at any moment.

Gen. Ortiz recently surrounded the state treasury in Cartagena and broke open the safe to obtain money for the soldiers, who had not been paid for a long time.

It is generally admitted that Gen. Reyes has been elected president of Colombia, but there is no official confirmation.

New Agent for Colville.

Washington, June 29.—Capt. John M. Webster, U. S. A., retired, has been appointed United States Indian agent at the Colville agency, Washington, and will assume his duties at once. The appointment is the outcome of a recent investigation of the affairs of the agency, the result of which was the removal of the former agent under orders of the president.

Rebate on Coke.

New York, June 30.—Upon an old project filed by a firm doing business in Los Angeles, Cal., the board of general appraisers has ruled as to whether coke should have the benefit of rebate of duty the same as coal, under the emergency act of Jan. 5, 1903. The opinion is in the negative, and concludes that coal and coke are distinct commodities and that Congress did not provide for rebate of duties on coke in the emergency act.

The question arose over the protest of assessment of duty under the Ding-

ley tariff at the rate of 20 per cent on a cargo of coke. The importers claim the full rebate of duties under the provisions of the act.

MERCHANT MARINE COM'N. One Absolute Free Trader Appears Before It.

Cleveland, O., June 29.—The merchant marine commission continued its hearing today and adjourned to meet at Milwaukee July 15.

H. Coulby, manager of the Pittsburg Steamship company, which operates 112 big vessels on the great lakes, said:

"I want to see the Chinaman throw away his chop-sticks and take up an American knife and fork to eat American buckwheat cakes. That's what it will mean, too, when our shipping interests have been rehabilitated."

"The revival of the American ship on the ocean means the extension of our markets. Transportation is the magic wand between the producers and the consumer and we must not forget it."

Reviewing the lake-carrying business, with which he has been so intimately associated, Mr. Coulby took exception to the expressions of the commission that lake freight carriers have been subsidized by the government.

He said that all people have received as much benefit as the vessel owners themselves from the marine improvements at the various ports. As an instance, he cited the fact that it is now possible to carry a ton of coal from here to Duluth as cheaply as the same amount can be shoveled from the sidewalk into the cellar of a Cleveland residence.

Thomas W. Fitzsimmons, an iron and steel worker and local labor leader, said that there was no mutuality between capital and labor. He said he opposed subsidies in any form.

While Fitzsimmons was speaking he was interrupted by Senator Gallinger, who asked him if he was a free trader.

"I am in favor of absolute free trade," replied Fitzsimmons.

"Well, you are the only absolute free trader who has appeared before us up to the present time," said Senator Gallinger, smilingly.

Trade Depressed in Japan.

Seattle, Wash., June 29.—A depressed state of trade, especially as regards the sale of American flour, obtains in Japan, according to a letter received by Whaley, Tuboi & Co., export and import brokers of this city, from M. Raspe & Co., their correspondents at Kobe, Japan, they say, is overstocked with flour through heavy purchases made by speculators of merchants during the close of 1903 in anticipation of the war. Money is believed to be tightening up and the government is arranging for another internal loan of 100,000 yen.

\$9,000 for a Violin.

New York, June 30.—A violin, once owned by Joseph Jean Bott, has been sold by his estate for \$9,000. It was once pawned for \$4, and after eight years was found again while a well known dealer was on trial, charged with having stolen the instrument.

Col. J. H. Brigham Dead.

Washington, June 29.—News has been received here of the death at Delta, O., of Col. Joseph H. Brigham, assistant secretary of agriculture. Col. Brigham was chairman of the government board at the St. Louis exposition. He left here Tuesday evening for St. Louis to attend a meeting of the board and had stopped off at Delta for a short visit. For many years he has been prominent in politics and has occupied his present position since the first administration of President McKinley.

MONEY FOR MILITIA.

Utah Gets \$5,984 for Arms and Equipment.

Washington, June 29.—Acting Secy. Oliver H. Easton today announced the usual annual allotment of the \$1,000,000 appropriated by Congress to provide arms and equipment for the organized militia of the United States. Of the money appropriated California will receive \$10,947.

Colorado, \$9,753.
Idaho, \$5,984.
Kansas, \$19,947.
Montana, \$5,984.
Nebraska, \$5,984.
North Dakota, \$7,979.
Oregon, \$7,979.
South Dakota, \$7,979.
Utah, \$5,984.
Washington, \$7,979.
Wyoming, \$5,984.
Oklahoma, \$13,193.
Hawaii, \$7,500.

MISSOURI DEMOCRATS.

Indorsed Senator F. M. Cockrell For President.

Joplin, Mo., June 29.—The Democratic state convention to elect 30 delegates to the National convention at St. Louis tonight selected the following delegates-at-large: United States Senator William J. Stone, Gov. A. M. Dockery, Congressman Champ Clark and Congressman D. A. De Armond. Thirty-two districts delegates were also chosen.

The convention was controlled by the so-called "machine" element, which is opposed to the faction which is support-

ing Joseph W. Folke of St. Louis, candidate for governor.

The convention indorsed Senator Francis M. Cockrell for president by adopting the following resolution:

"Recognizing Senator F. M. Cockrell as one of the ablest and most distinguished Americans, and one who has the respect of the entire nation, we hereby instruct delegates to the national convention to support him for president of the United States as long as his name is before the convention, and to use all honorable means to secure his nomination."

The delegates were instructed to vote as a unit on all questions in the national convention.

ROSEBUD RESERVATION.

Troops to Preserve Order When It Is Thrown Open.

Bonesteel, S. D., June 29.—The government has ordered three companies of regular troops to Bonesteel to assist the local authorities in preserving order during the rush incident to the opening of the Rosebud reservation, which will occur July 5. The first serious incident in connection with the rush occurred tonight, when "Kid" English, a cook, was fatally shot by Police Captain Aull. English, it is said, became boisterous and the officer ordered him to move on. He refused and in an altercation which followed Aull shot him. The officer was arrested and taken to Fairfax for safe keeping.

About 5,000 persons are quartered in tents and temporary buildings, awaiting a moment from all the morning newspapers is the disruption of the Liberal Union club at yesterday's meeting when 64 members withdrew after announcing their resignation from the club.

The trouble arose over a resolution to send representatives of the club to the Liberal Unionist council. By a majority of 108, composed of the followers of Joseph Chamberlain, the club decided to be represented in the council.

The minority of 64 immediately withdrew and formed a new club, under the name of the Unionist Free Trade club. The Liberal Union club has been recognized as a powerful organization, thoroughly representative of the Liberal Unionist party.

LIBERAL UNION CLUB.

Its Disruption Calls Forth Comments from London Papers.

London, June 30.—A significant political development, which calls out much comment from all the morning newspapers is the disruption of the Liberal Union club at yesterday's meeting when 64 members withdrew after announcing their resignation from the club.

The trouble arose over a resolution to send representatives of the club to the Liberal Unionist council. By a majority of 108, composed of the followers of Joseph Chamberlain, the club decided to be represented in the council.

Libel Suit Dismissed.

San Francisco, June 30.—The libel charge against the steamship company by passengers to recover \$500 each for alleged neglect of their comfort in the steerage, has been dismissed by U. S. District Judge De Haven.

Angora Goats for Institute Farms.

Chicago, June 30.—A dispatch to the Tribune from Peoria, Ill., says:

The Bradley Polytechnic institute has received 1,800 Angora goats from the south to be used on farms owned by the institute in the Bradley endowment. The goats were shipped to Manti, Fulton and Tazewell counties and will be used for the purpose of raising Angora goats. The institute has a long experience in the raising of the goat as a brush cleaner. The institute farms are valued at \$150,000.

Consecrated an Abbot.

Portland, Ore., June 30.—A Mount Angel, Ore., special to the Oregonian says that Right Rev. Abbot Thomas O. S. B. was consecrated abbot this morning in the presence of a large number of visiting clergymen. This is the first consecration of an abbot that has ever occurred on the Pacific coast.

Wages Slightly Increased.

Wilkesbarre, Pa., June 30.—Lehigh Valley railroad firemen have been notified through their grievance committee that a slight increase in wages has been granted. The advance applies only to men doing certain classes of work. The working time of others has been reduced.

Hasband's Ashes Distributed.

New York, June 30.—In compliance with her husband's wish as expressed in his will, the widow of Gustav Rix, a well known builder and botanist who died in 1902, has distributed in the Bronx Park Botanical gardens half of the ashes of her late husband. The remainder will be sent to Germany and scattered there according to instructions in the will.

The botanical garden was a favorite haunt of the naturalist and shortly before his death he decided upon this novel disposition of the ashes after the body had been cremated.

Ex-Senator Mitchell Dead.

Milwaukee, June 29.—Former Senator John L. Mitchell died at 7 o'clock tonight, after a lingering illness. He had been at death's door for the past 10 days and his entire family was pres-

ent when he died. He had recently resigned as a member of the national board of managers of Soldiers' homes on account of his failing health.

Coal for Baltic Fleet.

London, June 30.—The Paris correspondent of the Times says it is reported that the Russian government has applied to the French government for permission to have all the vessels of the Baltic fleet coal at French ports on their way to the far east.

The Russian government, the correspondent says, is at present negotiating for a large supply of coal, not only in France but also in Germany.

Musn't Play the Races.

Chicago, June 30.—The action of the big insurance companies with headquarters in New York and some of the department store managers in warning employees that "playing the races" will mean discharge, has attracted the attention of Chicago business men. Without exception the course followed in the east is approved of by the men at the head of the large mercantile establishments and many of them declared similar orders would be issued. Others said the rule already was in force.

Musn't Advertise on Money.

Chicago, June 30.—Because he posted advertising slips on U. S. half dollars, in the village of Harvard, Ill., John T. Phelan has been arrested and brought to Chicago. He is a brother of the mayor of Harvard and admitted he affixed to the coins some slips stating that, if the money was brought to his store he would give its value in clothing. Phelan was released on bonds.

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Buecing, 301 West Third St., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty cent bottle entirely cured me of asthma which had been growing on me for twelve years, and if I had taken it at the start I would have been saved years of suffering." F. J. Hill Drug Co.

Through the Skin TO THE BLOOD.

Some of the most stubborn diseases enter into the system through the pores of the skin. The juices of Poison Oak and Ivy and other noxious wild plants, when taken into the circulation, break out afresh each season, and linger on for years unless antioded and driven out of the system.

Dye Poisoning from wearing colored under-clothing and hosiery is of frequent occurrence.

Workers in Lead, Brass, and other metals are often poisoned by the chemicals and
