

## IS IT A CASE OF CHILD MURDER?

Dead Body of a Baby Girl Found on Banks of the Jordan.

## DISCOVERY MADE BY BOYS.

Body Was in an Advanced Stage of Decomposition—Coroner Will Hold an Investigation.

Alfred Littlewood of Tenth West and Third North, Walter Blank of Ninth West and Fifth North, Earl Evans of 245 South First West and James Harding of 851 West Fifth South, made a most gruesome discovery while cutting through the brush on the Jordan river near Agricultural park yesterday afternoon, and one which it is believed brings to light a foul murder. The boys found the body of a baby girl, and all indications point to the commission of a horrible crime. The little body had been dead some time and was in a state of advanced decomposition. The baby had evidently lived about three weeks and is believed to have been dead about a week. The body was wrapped in two gunny sacks but it was absolutely no mark on it by which it could be identified. It was near Second North that the boys found the body. They saw the gunny sacks rolled up in a bundle, and one of the lads gave it a kick. He was surprised to find that it contained something soft. All four of the lads were at once interested and curious to know what the sacks contained. They began to unroll the bundle, but the stench was so great that they were hardly able to finish their investigation. Upon discovering that it was the body of a baby, they hastened to the police station and reported the matter. Detective Raleigh and Sergeant Edgington went to the scene in the patrol wagon and found the body as the boys had left them. The tiny body was placed in the wagon and taken back to the police station. Later it was removed to Evans' undertaking parlors, where County Physician Mayo made an examination.

After the examination, Dr. Mayo stated that the body was perfectly developed and that the baby weighed about ten pounds at birth and had undoubtedly been properly attended. "I further stated that the baby had lived some time after birth and that there were strong indications that it had been drowned and that the body had been in the water for a week or more. "It may have died a natural death, but I believe it was drowned," he said.

## COW WAS MASTER.

Infuriated Animal Puts All to Flight But a Policeman.

There was trouble at the residence of Attorney Frank B. Stephens, 109 Thirteenth East, Saturday morning.

According to reports received at the police station, a stray cow took it into her head to take possession of the outside premises. With head and tail erect she cavorted about the yard tearing up grass and flowers to her heart's content. Mr. Stephens sent his boys out to run the cow off, but the effort proved a failure, as the cow quickly put the boys to flight. Mr. Stephens then undertook to run the animal away but his effort met with failure.

After tearing around on the front lawn for awhile the cow selected a soft spot and laid down. A few minutes later Mr. Stephens decided to make another attempt to get rid of the pugnacious creature, but to his amazement he found that the cow had given birth to a calf right in the center of his front lawn. Mother and child appeared to be doing well, but both were apparently unable to move. Mr. Stephens then telephoned his friends to the police station and demanded instant relief. The matter was referred to several of the ablest officers in the department, and after a careful consideration, it was unanimously decided to place the

## It's So Easy

To take cold. It's so common to neglect the cold. That is one reason why there are so many people with "deep-seated," stubborn coughs, and so many more with "lung trouble."

The short, quick way to cure a cough is to use Dr. Pierce's Golden Medical Discovery. The quicker this remedy is used the quicker the cure. But even when neglect has let disease fatten on the lungs, "Golden Medical Discovery" may be relied on to cure in ninety-eight cases out of every hundred.

The only motive for advertising this is to permit the dealer to make the little extra profit paid on the sale of less meritorious medicines. He gains. You lose. Therefore accept no substitute for "Golden Medical Discovery."

"I am feeling quite well," writes Miss Dorcas A. Lewis, of 50, 129 1/2 St. Washington, D. C. "My cough is very much better, and I owe it all to Dr. Pierce's Golden Medical Discovery. I had been quite a sufferer for a long time, and after reading Doctor Pierce's Common Sense Medical Advice I bought a bottle of his Golden Medical Discovery. I commenced taking it in May, 1902, and had been sleeping better than I had for many months. I am in great sympathy with everybody who suffers with a cough. I had been a sufferer for more than a year. I tried lots of different medicines and different doctors, but did not feel better. I bought Dr. Pierce's Golden Medical Discovery (the best medicine I have ever taken). My home is in Williamsburg, Virginia."

Dr. Pierce's Pleasant Pellets are a ladies' laxative. No other medicine equals them for gentleness and thoroughness.

Now in the hands of "Trained Nurse" Sperry, with full power to act.

Armed with a huge club in one hand and a heavy rock in the other, Sperry went to the Stephens residence prepared for war. When he entered the yard, one of the boys warned him to keep away from the vicious animal, but Sperry scorned the warning and made a charge on the brute. The cow was only met by Sperry half-way but made the valiant effort climb a fence. Sperry returned to the charge, and as the cow with lowered head rushed at him, Sperry smote her between the eyes with the rock and dropped her to her knees. "That cowed her," shouted Sperry as he quickly tethered the animal to a post and proudly rode back to the station.

## READY FOR INSPECTION.

Guard Boys Have Been Preparing For It For Two Weeks.

The boys in the national guard have been skulking around for the past two weeks, sleeking up, and making things look fine, in anticipation of the "burning ordeal" in the way of a government inspection, which begins Monday. Capt. Sturges of the artillery corps at Fort Douglas opens the ball Monday night, with battery A. On Tuesday night he will give it to company of the First Infantry a hoing over; on Wednesday evening troop A mounts the anxious perch; on Thursday the signal corps and the hospital corps take their turn at the investigation frying pan. Then on Friday evening, headquarters, staff and band of the First Infantry will experience an official "broiling." The fun winds up with an inspection of B company, First Infantry at Bountiful on Saturday evening.

## DISTRIBUTING THE ENEMY'S FIRE

Admiral "Bob" Evans tells this one: "Among the 'jacks' of the American fleet that did the business at Santiago was an extremely plump chap—a lad from Vermont. We had been telling him all along that each day would probably witness the long looked-for battle between the American and the Spanish vessels. When he prayed that night he placed special stress upon the plea that the vessel upon which he and his comrades in arms were serving might escape disaster, saying among other things: "O Lord! shield us from the shells and other projectiles of the enemy; but if any shells and solid shot do come to our vessel, I pray thee that they may be distributed as prize money is distributed—mostly among the officers!"—New York Times.

## AMERICAN PUSH IN FAR SOUTH

Salt Lake Salesman Talks of Conditions in Buenos Ayres.

## YANKEE VS EUROPEAN GOODS

Former is Taking Place of Latter on Account of Superiority—No Pan-American Railway.

Ed. Farmer, recently representative of the J. L. Case Threshing Machine company of Racine, Wisconsin, is now with the Consolidated Wagon & Machine company of this city, as salesman. Mr. Farmer was lately the agent at Buenos Ayres, Argentina, S. A., for the Case company, and saw a good deal of South American methods and ways of living and doing business. He is glad to state that American agricultural machinery has made such headway in the Argentine republic that the foreign manufacturers are having a hard time of it, to make any stand whatever against American made goods.

There are English, French and German manufacturers represented in Buenos Ayres, and until the advent of American machinery ruled the market. But Mr. Farmer says that when American push and enterprise came into the country, and the farmers began to realize that the American harvesting and farming machinery generally was lighter, less clumsy, less costly, and far more effective in its working, the South Americans gradually quit European manufacturers and took very kindly to the American. There is now not a large house in the United States, in the harvesting line, that is not represented in Buenos Ayres; and with that city as a center, tours are made into the country, and good results are being obtained.

There are English, French and German manufacturers represented in Buenos Ayres, and until the advent of American machinery ruled the market. ## TRACK MEET AT PROVO.

B. Y. A. Aggregation Defeated L. D. S. U. Athletes on Saturday.

The track and field meet between the athletes of the B. Y. A. and L. D. S. U. held at Provo Saturday afternoon resulted in a victory for the B. Y. A. team. About 20 persons went to Provo from this city and a large crowd of Provo citizens were on hand to witness the struggle, making the attendance most flattering. In the evening a ball was given in honor of the visiting team.

The day was beautiful and the enthusiasm intense, and the fact that the academy achieved a victory was greatly appreciated by the local people, who say the academy will make a still better showing in the intercollegiate in Salt Lake next Saturday.

## AGAINST MASONIC DEDICATION.

Des Moines.—Although resolutions of protest were passed by the Ministerial association of Des Moines this morning, this afternoon the Masonic lodge laid the corner stone of the new Catholic house which Polk county is erecting in this city.

Rev. A. C. Douglass of the Second United Presbyterian church preached a sermon yesterday in opposition to the plan of turning over to the Masons the laying of the stone. This morning Rev. M. W. Walker of the Baptist church reiterated the protest to the Ministerial association. Both objected to the abandonment by public officials to the Masonic fraternity of the duty. They also protested against the inscription on the stone of the fact that the lodge laid it, and the insertion thereon of the name of Grand Master W. S. Gardner. Resolutions were adopted voicing this sentiment in the name of the taxpayers. Rev. E. E. Eshoff of the Dutch Reformed church, who acted as chairman at the corner stone ceremonies, was the only member of the association who voted against their adoption.—Chicago Record-Herald.

## BASEBALL SEASON OPENED SATURDAY

Salt Lake's New Team and Soldiers' Nine Broke Even.

## TIMELY HITTING WON GAME

B. Y. A. Takes Field and Track Events From L. D. S. U. Team by a Score of 60 to 44.

The local baseball season was launched on Saturday afternoon at Walker's field with a contest between the new Salt Lake team and the Fort Douglas soldiers' nine. About 500 ardent fans saw the locals take the strong soldiers' aggregation into camp by a score of 6 to 1 to a goose egg. While the line-up of the local crowd was not what it will be when all the players arrive, the youngsters made a very good impression on the fans assembled and everything indicates that the contests with Ogden will be first class and decidedly interesting. There were no sensational plays on either side but both pitchers did splendid work.

The local pitcher, the white pitcher, showed up great, allowing but four hits and causing nine soldiers to take the breeze in their attempt to solve his puzzling curves. He permitted two to walk but no damage was done. Camp also fielded his position in a manner to give satisfaction to all who saw his work. The Ogden pitcher also did some fine work during the six innings he was in the box, allowing but three hits.

## YESTERDAY'S LINE-UP.

The line-up in yesterday's contest was as follows:

**PORT DOUGLAS.**

Helte, B. .... 5 0 0 1 4 0 1  
Cook, S. .... 5 0 0 1 4 0 1  
Stephens, B. .... 5 0 0 1 4 0 1
