THE COXEYITES NUMBERED.
Five Thousand Men Now Converging Upon Washington.

The Chief Deputy of the Movement Will Be Appointed in the Fall. It is Thought.

WASHINGTON, D. C., May 23.—Representative Davis and Tamm have been making a careful estimate of the different kinds of Coxeys at their way to Washington, and claim that there are 5,000 men, comprising of riding on horse and footmen toward the capital.

Mr. Davis does not believe in the wisdom of allowing the Coxeys to march, and has written a long article in which he points out that the movement is a result of a very serious condition, and recommends that it be suppressed.

"No Coxeys have come from Kansas," he said, in a conversation on the subject, "because Kansas has no Coxeys. The movement is a result of a very serious condition, and recommends that it be suppressed."
